

INHALTSVERZEICHNIS

Plenar-Vorträge

	Seite
Interactions between vitamins and trace elements Hurrell RF, Biebinger R	1
The contribution of fortified foods to micronutrient intake in Austria Elmadfa I, Freisling H, Blachfelner J.....	16
Fatty acids in animal nutrition: fragile equilibrium between benefit and harm Kreuzer M	21
Potentials of biotechnology to enrich valuable ingredients in crops under the special significance of vitamin E Weier D, Friedt W	31
Vitamin D metabolites: Physiological role in bone and pancreas and therapeutic potential for bone diseases and diabetes Erben RG	41
On the mode of action of micro-organisms Simon O.....	51
Neuroprotective effects of dietary vitamin E and Ginkgo biloba Rimbach G, Gaedicke S, Hübbe P	61
Formulation of vitamins and additives: Demand and technological possibilities Vorlop KD	71

Vorträge Vitamine

Influence of juices rich in carotenoids on biomarkers of inflammatory status and oxidative stress. Kaufmann K, Böhm V, Sanches Siles L, Serano Santos P, Periago Castón MJ	72
Enrichment of cows' milk with natural or synthetic vitamin E Jensen SK, Kristensen NB, Lauridsen C, Sejersen K.....	78
Additional consumption and diet's supplementation participation in vitamins intake during alimentation of young female students of the Military University of Technology in Warsaw Rozmysł E, <u>Bertrandt J</u> , Kłos A, Dębski B	84

Does dietary intake of rosehip puree affect levels of carotenoids, vitamin E and vitamin C in human plasma? Fröhlich K, Laske G, Böhm V	90
Mechanisms of the insulin sensitising effect of high supranutritional selenate doses in type II diabetic dbdb mice Müller AS, Pallauf J	96
Effekte von Vitamin E und Vitamin C auf das zelluläre und humorale Immunsystem des Hundes Hellweg P, Krammer S, Hesta M, Janssens G, Strasser A, Zentek J	102
Influence of feeding various amounts of minerals and vitamins to first lactating cows on some blood parameters Öhlschläger S, Spolders M, Meyer U, Scholz H	108
How does sample concentration affect measurement of antioxidant capacity? Burkhardt S, Fröhlich K, Böhm V	114
Changes of the vitamin C concentration in the serum and of the tissue Total Antioxidant Status (TAS) in the precancerous states of the stomach cancer Kopański Z, Schlegel-Zawadzka M, Grabowska M, Przysławski J, Kuliś M	120
Importance of vitamin E supplementation during suckling and post-weaning for α-tocopherol status and immune responses of piglets Lauridsen C, Jensen SK.....	126
Effects of enhanced vitamin B supplementation in fattening pigs Alert HJ, Richter G, Otto F, Arnhold W	132
Investigations on the biotin requirement of broiler chicken Paulicks BR, Roth-Maier DA.....	138
 <u>Vorträge Zusatzstoffe</u>	
(1→3),(1→6)-beta-D-Glucan: Effects on blood parameters and performance of chickens Gerber G, Fleischer L-G, Lippert E, Westphal G	144
Aspects of nutritional assessment of feeds from genetically modified plants (GMP) with output traits including beneficially acting substances Flachowsky G, Böhme H	152

Dense gas technology for innovative drug delivery systems Türk M	158
<i>Trans</i>-11-18:1 is effectively Δ^9-desaturated compared with <i>trans</i>-12-18:1 in humans Kuhnt K, Kraft J, Moeckel P, Jahreis G	164
Accumulation of non-esterified sitosterol different in particle size in the tissues of the guinea pig Ulbricht D, Keller S, Jahreis G	170
Transfer of Antibiotics Used in Animal Husbandry from Slurry into Food Freitag M, Stevens H, Michel R, Schwake-Anduschus C, Betsche T, Grote M	174
Effect of L-carnitine supplementation of sows on body composition and lipid metabolism of piglets Birkenfeld C, Doberenz J, Kluge H, Eder K	175
Studies on the net absorption of L-carnitine in the ileum of broiler chicken Mehlhorn K, Rodehutsord M	181
Influence of supplemented Phytase on the Cu- and Zn-Content of pig carcasses Berk A, Flachowsky G, Fleckenstein J	187
Influence of different non starch polysaccharide degrading feed enzymes on the intestinal microbiota in piglets Osswald T, <u>Vahjen W</u> , Simon O	193
Effect of calcium level, microbial phytase and citric acid on laying performance, bone mineralization and phosphorus disappearance in the digestive tract of laying hens fed corn soybean meal diets Al-kouri S, Liebert F	199
Verzehr, scheinbare Absorption, Bilanz und Bedarf von Calcium und Phosphor Erwachsener– Sind Supplementationen erforderlich? Anke M, Krämer-Beselin K, Schäfer U, Müller R, Klopotek Y	205
Impact of benzoic acid on early weaned piglets Taras D, Männer K, Kraatz M, Lübke-Becker A, Simon O	211
Addition of inulin to diets low or high in NSP does not stimulate bifidobacteria and lactobacilli numbers in the intestine of growing pigs Eberhard M, Loh G, Hennig U, Kuhla S, Kwella M, Metges C	217

Effects of a probiotic <i>Lactobacillus acidophilus</i> strain on food tolerance in dogs with non-specific dietary hypersensitivity	
Pascher M, Hellweg P, Khol-Parisini A, Baillon Marie L, Marshall-Jones Z, Zentek J	223

Influence of different pre-, pro-, and synbiotics on the digestibility processes in pigs.	
Branner GR, Böhmer BM, Roth-Maier DA	224

Modifying gut flora in pigs by phytochemicals	
Michiels J, Missotten J, Dierick N, Fremaut D, De Smet S	230

Poster Vitamine

Essential fatty acids and tocopherols of evening primrose oil (<i>Oenothera biennis</i> L.)	
Dimic E, Romanic R, Tesanovic D, Dimic Vesna	236

Bioactive compounds in tomatoes and tomato products – investigations of different commercially available foodstuffs	
Fröhlich K, Burkhardt S, Böhm V	240

Vitamin C and antioxidative potential of oranges and other citrus fruits	
Gutte J, Burkhardt S, Böhm V	244

Urinary excretion of antioxidants following consumption of <i>Hibiscus sabdariffa</i> L. extract	
Netzel M, Strass G, Bitsch I, Kler A, Kriesl E, Kammerer DR, Schieber A, Carle R, Frank T, Bitsch R	248

Oxidative stability of virgin olive and high oleic sunflower oil	
Vukša V, Tesanovic D, Dimic E, Romanic R	252

Influence of vitamin E and vitamin C on the antioxidative status in muscle and meat quality of pigs	
Lahucky R, Kuechenmeister U, Bahelka I, Vasickova K, Ender K	256

Utilization of flavonoids from black current seeds	
Pabst C, Franz D, Schellenberg I	261

Cell protective effects of wheat bran arabinoxylans – <i>in vitro</i> investigations with human colon cells	
Glei M, Hofmann T, Küster K, Hollmann J, Lindhauer MG, Pool-Zobel BL	265

Carob fibre and Gallic Acid – Impact on proliferation parameters in human colon cell lines	
Klenow S, Glei M, Haber B, Pool-Zobel BL	266

The effect of apple polyphenol extracts on proliferation of colon adenoma (LT97) and carcinoma (HT29) cells	
Selvaraju V, Aisch M, Dietrich H, Will F, Pool-Zobel BL	267
The changes of the vitamin C concentration in the serum of patients with skin cancer	
Kopański Z, <u>Schlegel-Zawadzka M</u> , Grabowska M, Kuliś M.....	268
Excretion of polyphenols and metabolites in human urine following consumption of apple juice	
Netzel M, Netzel G, Roßberg A, Krotz C, Schwarz M, Bitsch I, Thielen C, Dietrich H, Kammerer DR, Schieber A, Carle R, Frank, Bitsch R.....	273
Vitamin E and polyphenols do not prevent ochratoxin A-induced cytotoxicity in liver (HepG2) cells	
Hundhausen C, Bösch-Saadatmandi C, Augustin K, Blank R, Wolfram S, Rimbach G.....	277
Risk Assessment of Vitamins and Minerals in Foods	
Grossklaus R, Hembeck A, Niemann B, Przyrembel H, Richter K, Schmidt E, Weissenborn A, Wörner B, Ziegenhagen R	281
Vitamine und Kalzium als Zusatzstoffe in Milch (Kuh)	
Melikia E, Kvanchakhadze R, Sekhniashvili N, Tsereteli D, Sekhniashvili Z	285
Stability of RRR-α-Tocopheryl-Acetate in premixes and feed processing	
Peisker M, Dersjant-Li Y.....	290
Bioavailability of flavonoids and other antioxidants in microwave-vacuum-dried strawberries	
Bellmann S, Kühnert S, Rohm H, Scholze G, Böhm V	296
Vitamin E and A concentrations trace element levels, and some antioxidant parameters in the blood of bladder cancer patients.	
Wasowicz W, Gromadzinska J, Jablonowski Z, Grzelinska Z, Pytlińska E.....	300
Dietary ascorbic acid supplementation: the good and the bad	
Berzina N, Vasilyeva S, Basova N, Apsite M.....	301
Vitamins A, E and antioxidants enzymes in rat liver and heart under different light and geroprotectors influence	
Ilyina T, Ilyukha V, Ruokolainen T, Vinogradova I	305
Concentrations of 25-hydroxy vitamin D in plasma of dairy cows at different exposure to solar radiation	
Leiber F, Liesegang A, Kreuzer M, Wettstein H-R.....	309

Studies on the biotin flow at the duodenum of dairy cows fed differently composed rations	
Lebzien P, Schröder B, Abel HJ, Flachowsky G	313

Effects of chronic ethanol treatment on levels of vitamin B1, B2, and B6 in rat brain	
Netzel M, Borsch C, Bitsch I	317

Efficacy of benfotiamine vs. thiamine hydrochloride on thiamine status in ethanol treated rats	
Netzel M, Raubach C, Jaworski A, Bitsch I	321

Pflanzliches Legehennenfutter ohne und mit Vitamin B₁₂-Supplementation	
Richter G, Arnhold W, Ochrimenko WI, Köhler H	325

Blood vitamin concentrations in dogs before and after intake of diets with specified vitamin contents	
Tran J, Horvath C, Krammer S, Höller U, Zentek J	330

Effect of baking and freezer storage time on added folic acid stability in wheat and rye breads	
Gujska E, Majewska K, Kuncewicz A	334

Determination of B vitamins in infant milk by high-performance liquid chromatography	
Michalak J, Kuncewicz A, Gujska E	338

Analysis of pantothenic acid and folic acid: conclusions from method comparisons	
Rychlik M, Padmanaban GK, Roth-Maier D	342

Impact of B₂ and B₆ supplementation of low protein diet on blood cells count and β-oxidation activity in lymphocytes of physically exercised rats.	
Debski B, Kuryl T, Bertrandt J, Klos A, Sawicki K	348

Poster Zusatzstoffe

Studies on the bioavailability of L-carnitine compounds	
Keller U, Felgner J, Becker K, Kluge H, Eder K	352

Effects of L-carnitine supplementation on the somatotrophic axis and masses of placentae in pregnant sows	
Doberenz J, Birkenfeld C, Kluge H, Spilke J, Eder K	356

Impact of fish n-3 polyunsaturated fatty acids on growth of the HT29 human colon tumour cell line.	
Habermann N, Pool-Zobel BL	360

Effect of conjugated linoleic acid on growth and nutrient digestibility in dogs	
Keller T, Coetzee C, Cousins BW, Pellow J, Schroeder G	361
The use of sodium butyrate (adimix c) in layer nutrition	
Pietsch M, Schwarzer C, Arnouts S	365
Effect of dietary supplementation with algal omega-3 lipids on fatty acid composition of egg yolks	
Šobajić S, Andonov A, Djuričić I, Djordjević B, Konić-Ristić A	369
Adipose tissue lipids of pigs fed sunflower oil supplemented diet	
Tsvetkova V, Angelov L	373
Influence of long-term intervention with supplemented dairy products on serum lipids	
Dawczynski C, Hein G, Schubert R, Deufel T, Jahreis G	377
Assessment of genetically modified prebiotic potato tubers concerning the nutritive value and the fate of DNA	
Böhme H, Broll H, Hommel B, Hüther L, Flachowsky G	381
Effect of dietary transgenic maize on absorption and retention of mineral elements	
Gralak MA, Chrenková M, Sommer A, Čerešňáková Z, Poláčiková M, Sochová P, Debski B	385
Einsatz von Immunmilchpräparaten als Biestmilchersatz in der Paratuberkulosesanierung	
Ludwig E, Wittmann M	389
The effect of benzoic acid on growth performance, digestibility of nutrients, nitrogen balance and gastro-intestinal microflora in piglets	
Kluge H, Broz J, Eder K	393
Untersuchungen zum Einfluss von Kreatin auf das Wachstum und die Ganzkörperzusammensetzung von Broilern	
Halle I	397
Untersuchungen zum Einfluss von Kreatin auf die Leistungsmerkmale von Legehennen	
Halle I	401
Investigations on the use of trace elements for authentication of the origin of poultry and beef	
Franke BM, Haldimann M, Bütikofer U, Gremaud G, Hadorn R, Kreuzer M	405

Fruits and vegetables as a source of the mineral elements in the food rations planned for alimentation of young men doing military service in the Polish Army	
Kłos A, Bertrand J, Rozmysl E, Dębski B	409
Bioavailability of magnesium ions in aspect supplementation	
Niedworok E, Wardas M, Maciejewska-Paszek I.....	413
Iodized tea influence in childhood	
Sekhniashvili N, Bendelava G, Sekhniashvili Z, Gordeladze M, Kvesitadze G, Patsatsia E, Trapaidze T.....	417
Influence of iodine and selenium supplementation to the diet of ewes (Black-head dairy breed) on the milk composition and trace element content of milk	
Angelow L, Petrova I, Makaveeva M	421
Effect of natural magnesium additives on the rumen fermentation in vitro	
Váradyová Z, Baran M, Mihalíková K, Kišidayová S.....	425
Rare earth elements as alternative growth promoters for pigs	
Gebert S, Caletka-Fritz A, Wenk C.....	429
Der Einfluss Seltener Erden auf die Kohlenstoff-, Stickstoff- und Energiebilanz wachsender Ferkel	
Prause B, Gebert S, Wenk C, Rambeck WA, Wanner M	433
Effects of the multi-element supplementation to the diet of ewes on the reproduction parameters and growth of female lambs reared in endemic regions of Middle Bulgaria	
Petrova I, Angelow L	437
Organic acids in animal feeds – improving the decision making process (Organische Säuren in Futtermitteln - den Entscheidungsprozess verbessern)	
Keller S, Parker DS, Buttin B, Schasteen C.....	441
The antimicrobial and acidification effects of ACTIVATE WD, an organic acid blend containing ALIMET® with other organic acids, in poultry drinking water	
Schasteen C, Parker DS, Keller S, Wu J, Davis M, Fiene S	442
Interest for utilizing a single multi-enzyme preparation on different types of diets from post-weaning piglets to slaughter pigs	
Jakob S, Maisonnier-Grenier Séverine, Roth FX.....	443

Effects of the phytogenic feed additive FRESTA® F Conc. in weaned piglets

Gläser KR, Cho JH, Chen YJ, Min BJ, Kim HJ, Kwon OS, Shon KS, Kim SJ, Kim IH..... 444

**Life Science - Herstellung prebiotischer Fleisch- und Wurstwaren
Production of prebiotic meat products and sausages**

Krickmeier J, Schnäckel W 448

Influence of probiotics on immunological parameters of healthy volunteers and patients with atopic dermatitis

Klein A, Vogelsang H, Jahreis G 452

On the influence of β -glucans from *Saccharomyces cerevisiae* on sow and litter performance during lactation

Förster D, Große Verspohl F, Berk A, Westendarp H..... 456

Einfluss von Flavomycin® und BioPlus 2B auf das Aufzuchtergebnis bei Kälbern

Löhnert H-J, Ochrimenko WI 460

Auswirkungen einer BioPlus 2B-Supplementation bei Ferkeln

Richter G, Arnhold W, Hartung H, Leiterer M 464

The in vitro effect of chromium Cr+3 and selenium (Se+4 or Se-2) ions on carnitine uptake and fatty acids β -oxidation efficiency in rat's lymphocytes.

Kuryl T, Krejpcio Z, Wójciak R, Lipko M, Debski B 468

The influence of Cr+3 picolinate, nicotinate and chloride on apoptosis in human mammary epithelial cells (HBL-100) and breast cancer cells (MCF-7).

Debski B, Lamparska-Przybylska M, Budasz-Świdorska M 474
