

Contents

Chapter 1	
Sorption and Release of Heavy Metals in Soils: Nonlinear Kinetics	1
H. Magdi Selim and Michael C. Amacher	
Chapter 2	
Anion and Cation Transport in Zeolitized Tuffs from the Nevada Test Site: Effects of Ion Type, pH, and Ionic Strength.....	31
Charalambos Papelis and Wooyong Um	
Chapter 3	
Modeling Competitive Sorption and Release of Heavy Metals in Soils	55
Ruben Kretzschmar and Andreas Voegelin	
Chapter 4	
Heavy Metal Solubility and Transport in Soil Contaminated by Mining and Smelting	89
Steven L. McGowen and Nicholas T. Basta	
Chapter 5	
Phase Plane Analysis and Dynamical System Approaches to the Study of Metal Sorption in Soils	109
Seth F. Oppenheimer, William L. Kingery, and Feng Xiang Han	
Chapter 6	
Kinetic Study of Trace Metal EDTA-Desorption from Contaminated Soils	131
A. Bermond and J.P. Ghestem	
Chapter 7	
Soil Properties Controlling Metal Partitioning	149
Christopher A. Impellitteri, Herbert E. Allen, Yujun Yin, Sun-Jae You, and Jennifer K. Saxe	
Chapter 8	
Understanding Sulfate Adsorption Mechanisms on Iron (III) Oxides and Hydroxides: Results from ATR-FTIR Spectroscopy	167
Derek Peak, Evert J. Elzinga, and Donald L. Sparks	
Chapter 9	
Selenium Contamination in Soil: Sorption and Desorption Processes	191
B. Pezzarossa and G. Petruzzelli	

Chapter 10	
Arsenic Behavior in Contaminated Soils: Mobility and Speciation	207
Virginie Matera and Isabelle Le Hécho	
Chapter 11	
Chemical Structures of Soil Organic Matter and Their Interactions	
with Heavy Metals.....	237
William L. Kingery, André J. Simpson, and Michael H. B. Hayes	
Index	245
