ENVIRONMENT AND TAXATION: The Case of the Netherlands	7
ENVIRONMENT AND TAXATION: The Case of Sweden	51
ENVIRONMENT AND TAXATION: The Case of the United States	103

* Detailed tables of contents are presented with each case study.

Table of Contents

Chapter 1. OVERVIEW	11
1.1 Dutch environmental policy	11
1.2 Present role of economic instruments	11
1.3 Main features of the Dutch tax system	12
Chapter 2. EXISTING TAXES AND THE ENVIRONMENT	13
2.1 Taxes designed for environmental purpose	13
2.1.1 The environmental charge on fuels	13
2.1.1.1 Description	13
2.1.1.2 Evaluation	14
2.1.2 Noise charge on civil aviation	15
2.1.2.1 Description	15
2.1.2.2 Evaluation	16
2.1.3 Waste charge and refuse collection rate	16
2.1.3.1 Description	16
2.1.3.2 Evaluation	16
2.1.4 The charge on water pollution	17
2.1.4.1 Description	17
2.1.4.2 Evaluation	17
2.1.5 The charge for soil protection	18
2.1.5.1 Description	18
2.1.5.2 Evaluation	19
2.1.6 The groundwater charge	19
2.1.6.1 Description	19
2.1.6.2 Evaluation	19
2.1.7 The charge on surplus manure	19
2.1.7.1 Description	19
2.1.7.2. Evaluation	20
2.1.8 Accelerated depreciation	21
2.1.8.1 Description	21
2.1.8.2 Evaluation	21
2.1.9 Differentiation in special tax on motor vehicles	21
2.1.9.1 Description	21
2.1.9.2 Evaluation	22
2.1.10 Differentiation in excise on oil products	22
2.1.10.1 Description	22
2.1.10.2 Evaluation	22
2.1.11 Tax relief for owners of nature areas	22
2.1.11.1 Description	22

2.1.11.2	Evaluation	23
2.2	Other taxes with (potential) environmental effects	23
2.2.1	Fuels	23
2.2.2	Transport	24
2.2.3	Agriculture	25
2.2.4	Forestry	26
2.2.5	Hunting and fishing	26
2.2.6	Nature conservation	26
2.2.7	Other fiscal regulations	26
2.3	Concluding remarks	27
Chapter 3.	THE ENVIRONMENTAL POLICY DEBATE ON TAX INSTRUMENTS	31
3.1	The state of affairs in April 1992	31
3.1.1	Energy taxation	32
3.1.2	Specific incentive charges and policy framework	32
3.1.3	Transport and environment	33
3.2	Non-governmental actors	33
Chapter 4.	ASSESSMENT	35
4.1	Fiscal compatibility of environmental taxation	35
4.1.1	Neutrality: principle and practice	35
4.1.2	Revenue stability	36
4.2	Taxes as environmental policy	37
4.3	Setting the tax rate	38
4.4	Monitoring and enforcement	39
4.5	Distributional impacts	40
4.6	International aspects	41
4.7	Macro-economic performance	41
4.8	Earmarking	42
4.9	Obstacles to environmental taxation	43
4.10	Overcoming obstacles	44
Bibliography		49

Table of Contents

INTRODUCTION	55
Chapter 1. OVERVIEW	57
1.1 The 1991 tax -- and environmental -- policy reform	57
1.2 Overview of economic instruments in Swedish environmental policy	58
1.3 Main features of the Swedish tax system	59
1.4 Current policy debate	60
Chapter 2. EXISTING TAXES AND THE ENVIRONMENT	63
2.1 Taxes and charges related to environmental policy	63
2.1.1 Energy	63
2.1.2 Other tax/charge bases	71
2.1.3 Fiscal and environmental impacts	73
2.2 Other taxes	75
Chapter 3. THE ENVIRONMENTAL POLICY DEBATE ON TAX INSTRUMENTS ..	79
3.1 Government policy proposals	80
3.2 The position of individual political parties	80
3.3 Large organizations	81
3.4 Commissions of cademic policy-related research	83
3.5 The policy trend	84
Chapter 4. ASSESSMENT	85
4.1 The scope for environmental taxation	85
4.2 The design of environmental taxation	86
Chapter 5. MAIN CONCLUSIONS	91
Postscript	95
Annex	97
Bibliography	101

Table of Contents

INTRODUCTION	107
Chapter 1. AN OVERVIEW	109
1.1 Some theoretical background	109
1.2 Some public choice issues	111
1.3 The linkage	112
Chapter 2. EXISTING TAXES AND THE ENVIRONMENT	113
2.1 The excise tax on ozone-depleting chemicals	113
2.2 Taxes on gasoline	114
2.3 Other taxes and charges related to motor vehicle use	115
2.4 Severance taxes	117
2.5 User fees for local solid waste disposal services	118
2.6 State fiscal incentives for solid waste disposal	118
2.7 Other State environmentally related taxes and fees	120
2.8 Other Federal excise taxes	120
2.9 Concluding note	120
Chapter 3. THE ENVIRONMENTAL POLICY DEBATE	123
3.1 The current policy atmosphere	123
3.2 Quantity versus price instruments	124
3.3 International competitiveness	125
3.4 Regulatory federalism	127
3.5 Equity issues	128
Chapter 4. ASSESSMENT	131
4.1 Quantity versus price instruments again	131
4.2 On the design of environmental tax measures	133
4.3 Environmental taxes: some specifics	134
4.4 International issues	135
Annex I: Excise Tax on Ozone Depleting Chemicals	139
Bibliography	141
