

Contents

Chapter 1	INTRODUCTION	1
1.1	The Purpose of Theory	1
1.2	The Problem of Scarcity	1
1.3	The Function of Microeconomic Theory	1
1.4	Markets, Functions, and Equilibrium	1
1.5	Comparative Statics and Dynamics	2
1.6	Partial Equilibrium and General Equilibrium Analysis	2
1.7	Positive Economics and Normative Economics	2
Chapter 2	DEMAND, SUPPLY, AND EQUILIBRIUM: AN OVERVIEW	14
2.1	The Individual's Demand for a Commodity	14
2.2	The Law of Negatively Sloped Demand	15
2.3	Shifts in the Individual's Demand Curve	15
2.4	The Market Demand for a Commodity	15
2.5	The Single Producer's Supply of a Commodity	16
2.6	The Shape of the Supply Curve	17
2.7	Shifts in the Single Producer's Supply Curve	17
2.8	The Market Supply of a Commodity	18
2.9	Equilibrium	18
2.10	Types of Equilibria	19
2.11	Shifts in Demand and Supply, and Equilibrium	19
Chapter 3	THE MEASUREMENT OF ELASTICITIES	38
3.1	Price Elasticity of Demand	38
3.2	Arc and Point Elasticity	39
3.3	Point Elasticity and Total Expenditures	40
3.4	Income Elasticity of Demand	41
3.5	Cross Elasticity of Demand	42
3.6	Price Elasticity of Supply	43
Chapter 4	CONSUMER DEMAND THEORY	63
4.1	Total and Marginal Utility	63
4.2	Consumer Equilibrium	63
4.3	Indifference Curves: Definition	65
4.4	The Marginal Rate of Substitution	66
4.5	Characteristics of Indifference Curves	67
4.6	The Budget Constraint Line	68
4.7	Consumer Equilibrium	68
4.8	Exchange	68
4.9	The Income-Consumption Curve and the Engel Curve	69

4.10	The Price-Consumption Curve and the Consumer's Demand Curve	70
4.11	Separation of the Substitution and Income Effects	71

Chapter 5	ADVANCED TOPICS IN CONSUMER DEMAND THEORY	105
5.1	The Substitution Effect According to Hicks and Slutsky	105
5.2	The Theory of Revealed Preference	106
5.3	Index Numbers and Changes in the Standard of Living	106
5.4	Utility Theory under Uncertainty	108
5.5	A New Approach to Consumer Theory—The Demand for Characteristics ..	109
5.6	Empirical Demand Curves	110

Chapter 6	THEORY OF PRODUCTION	121
6.1	Production with One Variable Input: Total, Average, and Marginal Product	121
6.2	The Shapes of the Average and Marginal Product Curves	121
6.3	Stages of Production	123
6.4	Production with Two Variable Inputs: Isoquants	124
6.5	The Marginal Rate of Technical Substitution	125
6.6	Characteristics of Isoquants	125
6.7	Isocosts	126
6.8	Producer Equilibrium	127
6.9	Expansion Path	127
6.10	Factor Substitution	128
6.11	Constant, Increasing, and Decreasing Returns to Scale	128

Chapter 7	COSTS OF PRODUCTION	150
7.1	Short-Run Total Cost Curves	150
7.2	Short-Run Per-Unit Cost Curves	150
7.3	The Geometry of Short-Run Per-Unit Cost Curves	152
7.4	The Long-Run Average Cost Curve	153
7.5	The Shape of the Long-Run Average Cost Curve	154
7.6	The Long-Run Marginal Cost Curve	155
7.7	The Long-Run Total Cost Curve	156

Chapter 8	ADVANCED TOPICS IN PRODUCTION THEORY	179
8.1	The Cobb-Douglas Production Function	179
8.2	X-Inefficiency	179
8.3	Technological Progress	180
8.4	Linear Programming—The Basic Concepts	180
8.5	Linear Programming with More Than Two Constraints	181
8.6	The Dual Problem and Shadow Prices	183

Midterm Examination	198
----------------------------------	------------

Chapter 9	PRICE AND OUTPUT UNDER PERFECT COMPETITION	203
9.1	Perfect Competition Defined	203
9.2	Price Determination in the Market Period	203
9.3	Short-Run Equilibrium of the Firm: Total Approach	204
9.4	Short-Run Equilibrium of the Firm: Marginal Approach	204
9.5	Short-Run Profit or Loss?	207
9.6	Short-Run Supply Curve	208
9.7	Long-Run Equilibrium of the Firm	208
9.8	Constant Cost Industries	209
9.9	Increasing Cost Industries	210
9.10	Decreasing Cost Industries	211
Chapter 10	PRICE AND OUTPUT UNDER PURE MONOPOLY	232
10.1	Pure Monopoly Defined	232
10.2	The MR Curve and Elasticity	232
10.3	Short-Run Equilibrium under Pure Monopoly: Total Approach	233
10.4	Short-Run Equilibrium under Pure Monopoly: Marginal Approach	234
10.5	Long-Run Equilibrium under Pure Monopoly	235
10.6	Regulation of Monopoly: Price Control	236
10.7	Regulation of Monopoly: Lump-Sum Tax	236
10.8	Regulation of Monopoly: Per-Unit Tax	237
10.9	Price Discrimination	238
Chapter 11	PRICE AND OUTPUT UNDER MONOPOLISTIC COMPETITION AND OLIGOPOLY	260
11.1	Monopolistic Competition Defined	260
11.2	Short-Run Equilibrium under Monopolistic Competition	260
11.3	Long-Run Equilibrium under Monopolistic Competition	261
11.4	Oligopoly Defined	261
11.5	The Cournot Model	262
11.6	The Edgeworth Model	262
11.7	The Chamberlin Model	262
11.8	The Kinked Demand Curve Model	263
11.9	The Centralized Cartel Model	264
11.10	The Market-Sharing Cartel Model	264
11.11	Price Leadership Model	265
11.12	Long-Run Equilibrium under Oligopoly	266
Chapter 12	RECENT AND ADVANCED TOPICS IN MARKET STRUCTURE .	285
12.1	The Lerner Index as a Measure of a Firm's Monopoly Power	285
12.2	The Herfindahl Index as a Measure of Monopoly Power in an Industry	285
12.3	Contestable-Market Theory	285
12.4	Peak-Load Pricing	286
12.5	Cost-Plus Pricing	287
12.6	Game Theory—The Basic Concepts	287
12.7	Game Theory—Maximin and Minimax Strategies	288

Chapter 13 INPUT PRICING AND EMPLOYMENT 298

Perfect Competition in the Product and Input Markets

13.1 Profit Maximization and Least-Cost Input Combinations 298

13.2 The Demand Curve of the Firm for One Variable Input 298

13.3 The Demand Curve of the Firm for One of Several Inputs 299

13.4 The Market Demand Curve for an Input 300

13.5 The Market Supply Curve for an Input 300

13.6 Pricing and Level of Employment of an Input 300

13.7 Rent and Quasi-Rent 301

Perfect Competition in the Input Market and Monopoly in the Product Market

13.8 Profit Maximization and Least-Cost Input Combinations 301

13.9 The Demand Curve of the Firm for One Variable Input 301

13.10 The Demand Curve of the Firm for One of Several Variable Inputs 303

13.11 The Market Demand Curve and Input Pricing 303

Monopsony

13.12 Input Supply Curve and Marginal Resource Costs 303

13.13 Pricing and Employment for One Variable Input 304

13.14 Pricing and Employment of Several Variable Inputs 304

Chapter 14 GENERAL EQUILIBRIUM AND WELFARE ECONOMICS 329

General Equilibrium

14.1 Partial and General Equilibrium Analysis 329

14.2 General Equilibrium of Exchange 329

14.3 General Equilibrium of Production 329

14.4 The Transformation Curve 331

14.5 The Slope of the Transformation Curve 332

14.6 General Equilibrium of Production and Exchange 332

Welfare Economics

14.7 Welfare Economics Defined 333

14.8 The Utility-Possibility Curve 333

14.9 Grand Utility-Possibility Curve 334

14.10 The Social Welfare Function 335

14.11 The Point of Maximum Social Welfare 335

14.12 Perfect Competition and Economic Efficiency 336

14.13 Externalities and Market Failure 336

14.14 Public Goods 336

Final Examination 355

INDEX 359
