Figures

1.1	Conceptual model for the book's approach	15
2.1	Annual percentage change in real GDP per capita in the Nordic countries and OECD average	21
2.2	Trade balances, averages for five-year periods in the Nordic countries (US\$ billion)	23
2.3	Government final consumption per capita in the Nordic countries, indices PPP OECD 100, 1980–95	24
2.4	General government financial balances in the Nordic countries and OECD average, 1980–95	26
2.5	Income transfers in the Nordic countries and OECD average, 1985–94	29
2.6	Labour market participation rates in the Nordic countries and OECD average, 1984–95	34
2.7	Female labour market participation in the Nordic countries and OECD average, 1984–94	35
2.8	Government employment as share of total employment in the Nordic countries and OECD average, 1984–94	36
2.9	Unemployment rate in the Nordic countries 1980–95 and OECD average 1984–95	37
2.10	Youth unemployment rate in the Nordic countries, 1980–95	37
4.1	Expenditure on and recipients of unemployment benefits in Denmark, Finland, Norway and Sweden from 1982 to 1993; fixed prices, 1990 = 100	83
4.2	Expenditure on and recipients of sickness benefits in Denmark, Finland, Norway and Sweden from 1982 to 1993; fixed prices, 1990 = 100	85
4.3	Expenditure on and recipients of maternity benefits in Denmark, Finland, Norway and Sweden from 1982 to 1993; fixed prices, 1990 = 100	87

4.4	Expenditure on and recipients of disability pension in Denmark, Finland, Norway and Sweden from 1982 to 1993; fixed prices, 1990 = 100	89
4.5	Expenditure on and recipients of old-age pensions in Denmark, Finland, Norway and Sweden from 1982 to 1993; fixed prices, 1990 = 100	92
4.6	Expenditure on and recipients of family benefits in Denmark, Finland, Norway and Sweden from 1982 to 1993; fixed prices, 1990 = 100	94
4.7	Expenditure on and recipients of social assistance in Denmark, Finland, Norway and Sweden from 1982 to 1993; fixed prices, 1990 = 100	95
6.1	Active labour measures as percentage of GDP in the Nordic countries, 1980–95	143
6.2	Activism rate 1, Nordic countries, 1980–95	144
6.3	Activism rate 2, Nordic countries, 1980–95	145
6.4	Labour market measures for youth as percentage of GDP in the Nordic countries, 1990–5	149
6.5	Labour market measures for people with disabilities as percentage of GDP in the Nordic countries, 1990–5	153
7.1	Changes in relative equivalent income by age groups (those aged 61–75 = 0) in Finland, Norway and Sweden	171
8.1	Economic poverty (< 50 per cent of mean income) ratio (1980 = 0) in the Nordic countries	187
8.2	Analytical model	199
8.3	The probability of being socially excluded for different sections of the population in Finland, Norway and Sweden in the mid-1980s and mid-1990s	208
9.1	Gini-coefficient for disposable equivalent income in Finland 1966–95 and in Sweden 1967–95	219
9.2	Inequality in distributions of disposable income for single employees and couples with one and two employees in Norway. Gini-coefficients, 1973–94	220
9.3	Inequality in distributions of gross and disposable equivalent income in Norway, 1985–94	221
9.4a	Trends in earnings dispersion in Denmark, Finland, UK and Norway, 1980–95	227
9.4b	Trends in earnings dispersion in Sweden, US and UK, 1980–95	228

9.4c	Trends in earnings dispersion in Denmark, Finland, UK and Norway, 1980–95	228
9.4d	Trends in earnings dispersion in Sweden, US and UK, 1980–95	229
9.5	Gini-coefficient for equivalent factor income in Finland 1966–94 and in Sweden 1967–91	230
9.6	Redistributive effect of transfers in Finland 1966–94 and in Sweden 1967–91	231
9.7	Redistributive effect of income taxes in Finland 1966–94 and in Sweden 1967–91	232
10.1a	Support for the welfare state in Denmark, 1969–94	241
10.1b	Support for the welfare state in Finland, 1975–96	243
10.1c	Support for the welfare state in Norway, 1965–94	244
10.1d	Support for the welfare state in Sweden, 1960–95	245

Tables

2.1	Social spending, taxes and financial shares in ca. 1980 and ca. 1995 in the Nordic countries and OECD average	27
2.2	Transfers and services in Denmark, Finland, Norway and Sweden in 1994 as percentage of total social spending (and change from 1984)	30
2.3	Income replacement ratios in unemployment and social assistance in three Nordic countries and average for four other countries in 1994	31
2.4	Breakdown of social spending as percentage of total social spending on major areas in 1995 (and change since 1984)	31
2.5	Institutional profile of social services in the Nordic countries in 1995	33
2.6	Election results in Denmark, 1981–94	39
2.7	Government composition in Denmark	40
2.8	Election results in Finland, 1983–95	42
2.9	Government composition in Finland	43
2.10	Election results in Norway, 1981–97	44
2.11	Government composition in Norway	45
2.12	Election results in Sweden, 1982–94	48
2.13	Government composition in Sweden	48
3.1	Main population growth indicators in Denmark, Finland, Norway and Sweden, 1980–95	57
3.2	Age group shares, age dependency ratios and economic dependency ratios in Denmark, Finland, Norway and Sweden, 1980–95	61
3.3	Marriages, divorces and mean childbearing age in the Nordic countries, 1980–95	66

3.4	Family units by living arrangements and number of children under 18 years of age in Denmark, Finland, Norway and Sweden, 1994	69
3.5	Dwelling households by number of members in Denmark, Finland, Norway and Sweden, 1980–95	71
5.1	Trends in the expenditure on health services and social care for the elderly and handicapped in the Nordic countries, 1980–94	106
5.2	Number of hospital beds and number of health professionals per 1,000 population in the Nordic countries, 1980–94	108
5.3	Proportion of population admitted to hospital treatment and number of outpatient visits to physicians in the Nordic countries, 1980–94	109
5.4	Proportions of the elderly living in institutions and service housing and recipients of home help in the Nordic countries, 1984–94	110
5.5	The role of the private sector in the supply of health care and social care for the elderly in the Nordic countries in 1994	111
5.6	Number of children 0–10 years of age enrolled in institutional day care and family day care in the Nordic countries, 1981–95	117
5.7	Social expenditure for maternity and parental leave cash benefits and formal day care as percentage of GDP in the Nordic countries, 1980–93	118
5.8	Percentage of children enrolled in day care institutions and family day care by age group in the Nordic countries, 1981–93	120
7.1	Changes in the levels of living conditions that occurred between survey years in Finland (1986–94), Norway (1987–95) and Sweden (1986/87–94/95)	166
7.2	Age differences in the living conditions and changes thereof in Finland, Norway and Sweden	170
7.3	Differences in living conditions between men and women and changes thereof in Finland, Norway and Sweden	174
7.4	Social class differences in living conditions and changes thereof in Finland, Norway and Sweden	176

7.5	Relative differences (odds) in living conditions and changes thereof between unskilled blue-collar workers (reference category = 1,0), the upper white-collar class, and 'others' (not working), below 66 years of age	179
8.1	Information about Nordic level of living surveys	192
8.2	The incidence of economic poverty and welfare problems in Norway, Finland and Sweden, mid-1980s and mid-1990s	193
8.3	The risk of having at least one additional welfare problem among people with a welfare problem	195
8.4	Correlation (Kendall's Tau _b) between different welfare problems in Norway, Finland and Sweden	196
8.5	Summary of changes over time in Finland	201
8.6	Summary of changes over time in Norway	204
8.7	Summary of changes over time in Sweden	205
8.8	Input values for probabilities calculations	207
9.1	Gini-coefficients for the distribution of disposable income in Denmark, 1981–94	218
9.2	Income component contributions to the Gini-coefficient of disposable income for years of 'low' and 'high' unemployment	224
10.1	Support for various welfare state programmes in Denmark, Finland, Norway and Sweden. Percentages supporting more, or less, government money spending on programmes	248
10.2	Support for various non-welfare state sectors in Denmark, Finland, Norway and Sweden. Percentages supporting more, or less, government money spending on sectors	250
10.A1	Structural cleavages and attitudes towards welfare policies in Denmark (1994). Multiple classification analysis	258
10.A2	Structural cleavages and attitudes towards welfare policies in Finland (1996). Multiple classification analysis	259
10.A3	Structural cleavages and attitudes towards welfare policies in Norway (1996). Multiple classification analysis	260
10.A4	Structural cleavages and attitudes towards welfare policies in Sweden (1992/1996). Multiple classification analysis	261
