	<b>Page</b>
<b>Foreword</b>	iii
<b>Acknowledgements</b>	v
<b>Table of Contents</b>	vii
<b>OPENING SPEECHES AND KEYNOTE ADDRESSES</b>	1
<b>Opening Speeches:</b>	
<i>O. Endo, Parliamentary Vice Minister, Ministry of International Trade and Industry, Japan</i>	3
<i>J.P. Ferriter, Deputy Executive Director, International Energy Agency, Paris</i>	9
<i>M.J.M. Barata Marques, President, Instituto Nacional de Engenharia e Tecnologia Industrial, Portugal</i>	13
<b>Keynote Addresses:</b>	
<i>T. Tsutsumi, Director-General, Agency of Natural Resources and Energy, MITI, Japan</i>	17
<i>H.J. Rasmusen, Vice-President, International Gas Union, Zurich</i>	33
<i>C.S. Maniatopoulos, Director-General, Directorate-General for Energy, European Commission, Brussels</i>	37
<i>C. Armour, Immediate Past-President, The Australian Gas Association, Australia</i>	45
<i>S. Sadiq, Director, Energy and Industry Department, Asian Development Bank, Manila</i>	51
 <b>WORKSHOP A: POWER GENERATION AND COGENERATION TECHNOLOGY</b>	
<b>Overview Paper:</b>	
<b>Opportunities for Increased Use of Natural Gas for Power Generation and Cogeneration Technology:</b> <i>J.S. Siegel, Acting Assistant Secretary for Fossil Energy, Department of Energy, USA</i>	67

## Discussion Papers:

<b>Present Status and Future Prospects of Cogeneration in Japan:</b> <i>Y. Okamoto, General Manager, Total Energy System Dept., Tokyo Gas Co., Japan</i>	77
<b>Outlook for Non-Utility Power Generation:</b> <i>K.G. Davidson, Gas Research Institute; and K.G. Darrow, Jr., Energy International, Inc., USA</i>	85
<b>Cogeneration: Increased Efficiency Plus:</b> <i>R.J. Brown, Head of Power Generation; and J.C. Earl, Manager Cogeneration, British Gas plc, UK</i>	95
<b>Efficiency Improvement and NO<sub>x</sub> Reduction Technologies for Cogeneration in Japan:</b> <i>M. Motokawa, Manager, Urban Energy R&amp;D Department, Toho Gas Co., Japan</i>	109
<b>Improved Cycles for Natural Gas Power Generation:</b> <i>O. Bolland, The Norwegian Institute of Technology; and J. Pettersen, The Foundation for Scientific and Industrial Research, SINTEF, Norway</i>	121
<b>Natural Gas Fired Power Generation in the United States of America:</b> <i>R.H. Wolk, Electric Power Research Institute, USA</i>	133
<b>Thermodynamic Analysis of State-of-the-Art and Future Advanced Gas/Steam Cycles for Base-Load Power Generation:</b> <i>E. Macchi, Politecnico di Milano, Italy</i>	155
<b>European Market Survey on Fuel Cells:</b> <i>G. Peignelin and Ph. Suhas, Research &amp; Development Division, Gas Utilisation Research Centre, Gaz de France, France</i>	165
<b>Development of High Efficiency LNG-Fired Combined Cycle Plant for Himeji No. 1 Power Plant:</b> <i>T. Mizuno, Manager of Fossil Design Section, Nuclear and Fossil Power Production, The Kansai Electric Power Company, Japan</i>	171
<b>Rapporteur's Report:</b>	
<i>R.J. Brown, Head, Power Generation Division, British Gas plc, UK</i>	181

## WORKSHOP B: NATURAL GAS HEATING AND COOLING SYSTEMS

### Overview Paper:

<b>Greater Role of Natural Gas in Cooling and Heating: Contribution to Environmental and Energy Conservation:</b> <i>K. Ueda, Chairman, Technical Development Committee, The Japan Gas Association, and Executive Vice-President, Osaka Gas Co., Japan</i>	189
--	-----

## Discussion Papers:

<b>Economic Status of Gas Cooling Technologies:</b> <i>S. Bernstein, K. Darrow, Jr and S. Ozeki, Energy International, Inc., USA</i>	201
<b>Development of Gas Air-Conditioning in Japan:</b> <i>O. Shima, Manager, Air-Conditioning and Heating Department, Tokyo Gas Co., Japan</i>	213
<b>Expecting Toward the Commercialisation of Gas-Driven Air Conditioners for Domestic Use:</b> <i>H. Iwano, Deputy Director, Gas Safety Division, Public Utilities Department, Agency of Natural Resources and Energy, MITI, Japan</i>	225
<b>Market Developments of Condensing Boilers in The Netherlands in the Field of Residential Heating:</b> <i>W.G. Heijing, Nefit N.U., The Netherlands</i>	235
<b>Integrated Heating and Cooling Technologies in Commercial Buildings:</b> <i>J. Masters, Programme Controller Industrial and Commercial Utilisation; K. Thompson, Senior Scientist; and D. Whitman, Principal Scientist, Research and Technology, British Gas plc, UK</i>	253
<b>Advanced Gas Cooling and Heating by Absorption and Compression Heat Pumps:</b> <i>G. Alefeld, Technical University of Munich, Germany</i>	273
<b>Current R&amp;D Status and Future Perspectives of Gas Cooling and Heating Technology in Japan:</b> <i>T. Kashiwagi, Professor, Tokyo University of A&amp;T, Japan</i>	275
<b>An Integral R&amp;D Approach to User Friendly and Environmentally Benign Domestic and Commercial Boilers:</b> <i>A.J. Meijinen, N.V. Nederlandse Gasunie, The Netherlands</i>	289
<b>Rapporteur's Report:</b>	
<i>S. Sorassi, Manager Utilisation, R&amp;D, Italgas, Italy</i>	291

## WORKSHOP C: NATURAL GAS-POWERED VEHICLES AND TRANSPORT FUELS

### Overview Paper:

<b>Natural Gas-Powered Vehicles and Transport Fuels:</b> <i>D.M. Heaton and J. van der Weide, TNO Road-Vehicles Research Institute, The Netherlands</i>	297
---	-----

## Discussion Papers:

**Natural Gas Vehicles: A Far Reaching Transport Environmental Solution:** 315  
*K.H. Ly and W.H. Saxby, AGL Gas Companies, Australia*

**NGV Developments in the US for 1993: Politics, Technology and Marketing:** 327  
*G. Smith, President, Hercules Engine Company, USA*

**The Current Status and Future Prospects for Natural Gas Vehicles in Japan:** 339  
*S. Kishida, The Japan Gas Association, Japan*

**The Co-Nordic Natural Gas Bus Project: A Nordic Low-Emissions Project:** 353  
*M. Ekelund, Ecotraffic AB, Sweden*

**Long-Term Strategy for NGV in Australia:** *J.O.W. Bamford, The Australian Gas Association, Australia* 363

**ECC THERMIE Programme: New City Vehicles Using Methane as Fuel:** 375  
*M. Fraile, IVECO-PEGASO, Group IVECO-FIAT, Spain*

**CNG for Vehicles in Developing Countries - Economic Aspects:** *I.D. Moncrieff,* 387  
*Liquid Fuels Management Group Ltd, New Zealand*

**Natural Gas Conversion into Liquid Fuels: Present Constraints and Future Expectations:** *E. Freund and M. Valais, Institut Français du Pétrole, France* 395

**Gasoline Production from Natural Gas in New Zealand: What Went Wrong?:** 407  
*I.D. Moncrieff Liquid Fuels Management Group Ltd, New Zealand*

## Rapporteur's Report:

*M. Ekelund, President, Ecotraffic R&D AB, Sweden* 413

## WORKSHOP D: NATURAL GAS INDUSTRIAL USE AND FUEL-FLEXIBLE OPTIONS

### Overview Paper:

**Natural Gas Industrial Use and Fuel-Flexible Options:** *G. Peignelin and* 421  
*P. Suhas, Research & Development Division, Gas Utilisation Research Centre, Gaz de France, France*

### Discussion Papers:

**Direct and Indirect Gas Firing in Heating and Heat Treatment:** *F. Kühn, Loi* 435  
*Group, Loi Essen Industrieofenanlagen GmbH, Germany*

<b>Low-Temperature Heating:</b> <i>O.H. Madsen, Head of Department, Combustion Technology, Danish Gas Technolgy Centre A/S, Denmark</i>	453
<b>New Opportunities of Using Natural Gas in Industry:</b> <i>M. Sako, Associate Director, Industrial Sales Department, Osaka Gas Co., Japan</i>	465
<b>Impact of Environmental Regulations on the Market Share of Natural Gas in Industry - What Technology Do We Need?:</b> <i>N. Fricker and R.J. Tucker, Research and Technology Division, British Gas plc, UK</i>	477
<b>Supporting Technologies:</b> <i>G. Peignelin and Ph. Suhas, Research &amp; Development Division, Gas Utilisation Research Centre, Gaz de France, France</i>	489
<b>Industrial Natural Gas Utilisation in The United States: Recent History and Future Trends:</b> <i>G.E. Melickian, American Gas Association, USA</i>	501
<b>Background to Marketing Natural Gas to Industry in Australia:</b> <i>B. Rochford, The Gas and Fuel Corporation of Victoria, Australia</i>	513
<b>Natural Gas Industrial Use and Fuel-Options in the Japanese Market:</b> <i>T. Yoshida, General Manager, Industrial Customer Development and Service Dept., Kanagawa District Business Division, Tokyo Gas Co., Japan</i>	517
<b>Market Share of Industrial Natural Gas in the European Community: Future Trends with Regard to Environmental Regulations:</b> <i>L. Gorospe, General Director, OCIGAS, Spain</i>	523
<b>Rapporteur's Report:</b>	
<i>W.F. Morse, Vice-President, Research, Columbia Gas Distribution Co., USA</i>	531
<b>WORKSHOP E: TRANSPORTABILITY AND STORAGE OF NATURAL GAS: TECHNOLOGY</b>	
<b>Overview Paper:</b>	
<b>Transportability and Storage of Natural Gas:</b> <i>S. Venzi, Director, R&amp;D, SNAM SpA, Italy</i>	535
<b>Discussion Papers:</b>	
<b>Design and Construction of Pipelines in Challenging Environments:</b> <i>A. Mazzoli, SNAMPROGETTI SpA, Italy</i>	547
<b>Efficient Operation of Transmission Pipeline Systems:</b> <i>H. Wolf, Ruhrgas AG, Germany</i>	559

<b>Pipeline Monitoring and Inspection:</b> <i>P. Hopkins, British Gas plc, UK</i>	583
<b>Pipeline Damage, Maintenance and Rehabilitation:</b> <i>R. Eiber, B. Leis and T. Bubenik, Battelle Institute, USA</i>	595
<b>Research &amp; Development in Gas Transport:</b> <i>R.S. Norman, Gas Research Institute, USA</i>	607
<b>LNG Storage and Transport Technology:</b> <i>M. Kato, Osaka Gas Co., Japan</i>	615
<b>Rapporteur's Report:</b>	
<i>K. Olsen, Manager of Research, Southern California Gas Co., USA</i>	627
 <b>WORKSHOP F: TRANSPORTABILITY AND STORAGE OF NATURAL GAS: OPERATION AND DEVELOPMENT</b>	
<b>Overview Paper:</b>	
<b>Transportability and Storage of Natural Gas: Operation and Development:</b> <i>R. Ohsawa, Director and General Manager, Pipeline &amp; Facilities Engineering Department, Tokyo Gas Co., Japan</i>	633
 <b>Discussion Papers:</b>	
<b>Present Status of Gas Transmission Pipeline in Japan:</b> <i>K. Yamashita, Japan Petroleum Exploration Co., Japan</i>	643
<b>Life Duration and Revamping of LNG Facilities - The Algerian Experience:</b> <i>C.M. Rahal, Manager of Engineering, SONATRACH, Algeria</i>	655
<b>Underground Gas Storage in the World:</b> <i>S. Cornot-Gandolphe, CEDIGAZ-IFP, France</i>	663
<b>TEPCO's Reconfirmation Activities on LNG Safety Fundamentals:</b> <i>K. Ito, Manager, LNG Project Team, Thermal Power Department, Tokyo Electric Power Company, Japan</i>	677
<b>GERG Global Warming Programme:</b> <i>A.W. Guinée, GERG-GUIGAS, The Netherlands</i>	685
<b>Financing of Long-Distance Transmission Projects:</b> <i>J. Halbout, First Vice-President, Crédit Lyonnais, France</i>	693

## **Rapporteur's Report:**

*M. Gouez, Manager, Underground Storage Department, Gaz de France, France* 701

## **WORKSHOP G: MAJOR PACIFIC RIM NATURAL GAS SUPPLY AND UTILISATION ISSUES**

### **Overview Paper:**

**A Proposal on the Asian-Pacific Energy Community:** *M. Hirata, Professor Emeritus, The University of Tokyo, Japan* 709

### **Discussion Papers:**

**The Gas Industry in Indonesia:** *I. Suharno, S. Kusuma and S. Utomo, Pertamina, Indonesia* 721

**Commercial Issues Facing LNG and Natural Gas Buyers and Sellers in the Pacific Region Over the Next Decade:** *J.G. Pullar, Woodside Petroleum, Australia* 735

**Natural Gas Distribution Project in Peninsular Malaysia:** *M.S.A. Razack, Gas Malaysia Sdn Bhd, Malaysia* 746

**Pacific Rim Natural Gas Supply: A Canadian Perspective:** *P.D. Lloyd, Senior Vice-President, BC Gas, Inc., Canada* 771

**A Brief History of the Development of Japan's LNG Trade and Some Comments on the Prospects for the Future of Gas Demand in Japan:** *K. Morita, Senior Economist, Head of Coal and Gas Group, The Institute of Energy Economics, Japan* 793

**Natural Gas Distribution/Reticulation in Korea:** *Ho-Kyong Kim, General Secretary, Korea Gas Union, Republic of Korea* 801

**NO<sub>x</sub> Reduction from Natural Gas-Fired Regenerative Glass Melters:** *D.B. Horne, Jr., S.K. Panahi, H.A. Abbasi, G.L. Moilanen, M.J. Khinkis and D.K. Fleming, Atlanta Gas Light, USA* 815

### **Rapporteur's Report:**

*I.C. Woodward, Chief Executive, The Australian Gas Association, Australia* 827

## **WORKSHOP H: NATURAL GAS GRID MANAGEMENT STRATEGIES AND INFRASTRUCTURE**

### **Overview Paper:**

- Natural Gas Grid Management Strategies and Infrastructure:** *R.D. Stys, Senior Vice-President, Public Service Electric and Gas Company, USA* 833

### **Discussion Papers:**

- Large-Scale High- and Medium-Pressure Grid Control for Ordinary and Emergency Situations:** *S. Negishi, Chief Manager, Centre for Disaster Management and Supply Control, Tokyo Gas Co., Japan* 839
- Management of Natural Gas Transportation in Eastern Europe: Areas for International Co-operation:** *B.K. Worthington and R. Cherenson, United States Energy Association, USA* 851
- Establishing the Level of Methane Leakage from the British Gas Distribution System and the Requirement for Leakage Reduction Strategies:** *C.W. Rose, Regional Services Engineering, Gas Business, British Gas plc, UK* 861
- Security and Gas Distribution Networks Structures:** *M. Paty, Gaz de France, France* 877

### **Rapporteur's Report:**

- L.T. Ingels, Director, Distribution and Utilisation Engineering, American Gas Association, USA* 889

## **WORKSHOP I: NATURAL GAS EXPLORATION, PRODUCTION AND UNDERGROUND STORAGE TECHNOLOGY**

### **Overview Paper:**

- Natural Gas Exploration, Production and Underground Storage Technology:** *J.M. Overli, Head, Thermal Energy Division, The Norwegian Institute of Technology, Norway* 899

## **Discussion Papers:**

**Exploration, Production and Underground Storage of Natural Gas in Japan:** 913  
*Y. Kume, Japan Petroleum Exploration Co., Japan*

**Technology Development and Gas Supply Planning:** *K. Hausken, Senior Vice-President, Natural Gas, Statoil, Norway* 925

**Exploration, Production and Transportation of Natural Gas in Malaysia:** 933  
*M.Z. Shaharun, Petronas, Malaysia*

**Underground Gas Storage in Potable Aquifers:** *J. Ferrier, Elf Aquitaine, France* 947

**The Conversion of a Conventional Gas Field Into a Seasonal Storage Facility:** 957  
*J. Shears, British Gas Exploration & Production, UK*

**Underground Storage - Operational and Safety Aspects:** *J.M. Noé and M. Pickersgill, Geostock, France* 965

## **Rapporteur's Report:**

*A. Flower, LNG Business Manager, British Petroleum Exploration, UK* 977

## **WORKSHOP J: INTEGRATED RESOURCES PLANNING AND DEMAND-SIDE MANAGEMENT FOR NATURAL GAS USE**

### **Overview Paper:**

**Integrated Resources Planning and Demand-Side Management for Natural Gas Use:** *R.B. Rosenberg, Vice-President, International and Industrial Relations, Gas Research Institute, USA* 983

### **Discussion Papers:**

**Overview of Technical Primer on Gas-Integrated Resource Planning:** 997  
*C. Goldman, A. Comnes, J. Busch and S. Wiel, Lawrence Berkeley Laboratory, USA*

**Gas DSM: A Valuable Resource and a Growing Opportunity:** *L.R. Codey, Public Service Electric & Gas Company, USA* 1015

**A Framework for Evaluating Natural Gas DSM Technologies: An Economics Perspective:** *G.E. Vollans, Director, Energy Sector, Natural Resources Canada, Canada* 1023

<b>Least-Cost Planning in the German Gas Industry:</b> <i>K.R. Kabelitz, Head of the Economic Research and Energy Industry Department, Ruhrgas AG, Germany</i>	1031
<b>IRP/DSM for Canadian Gas Utilities - Status Report:</b> <i>R.M.R. Higgin, President &amp; CEO, Gas Technology Canada; and E.A. Mills, Director, Technical Operations, Ontario Energy Board, Canada</i>	1039
<b>Strategies for Environmentally Friendly Energy Systems and the Role of Natural Gas:</b> <i>A.M. Bredesen, The Norwegian Institute of Technology, Norway</i>	1047
<b>Integrated Resource Planning and Demand-Side Management: The Experience of an Integrated Company: Gaz de France:</b> <i>M. Veyret, Corporate Planning and Control Division, Gaz de France, France</i>	1059
<b>The Importance of Integrated Resource Planning and Demand-Side Managment in Countries that Plan to Introduce Natural Gas:</b> <i>M.J. M. Barata Marques, I. Cabrita and I. Gulyurtlu, Instituto Nacional de Engenharia e Tecnologia Industrial, Portugal</i>	1067
<b>Rapporteur's Report:</b>	
<i>D. Alapetite, Chef de Service du Gaz, Ministère de l'Industrie et de l'Aménagement du Territoire, France</i>	1073
<b>CLOSING REMARKS</b>	
<i>H. Kataoka, Chairman, The Japan National Organising Committee, and Executive Vice-President, Tokyo Gas Co., Japan</i>	1081
<i>S.F. Garribba, Director, Energy Technology and R&amp;D, International Energy Agency, Paris</i>	1083
<b>CONFERENCE PROGRAMME AND COMMITTEES</b>	1093
<b>CONFERENCE PARTICIPANTS</b>	1109
