Types of Tropical Forest Vegetation and Their Geographical Distribution	143
Chapter 2	
Attributes and Significance of the Flora and Fauna	164
PART F	
The Extent and Development of Tropical Deforestation	177
Chapter 1	
Present Forest Cover and How It Is Changing Over Time	177
Chapter 2	
Forest Inventory Methods	208
PART G	
The Causes of Tropical Deforestation	239
Chapter 1	
Introduction	239
Chapter 2	
Expansion of Agricultural Land at the Expense of the Forest	242
Chapter 3	
Fuelwood And Timber Production	270
Chapter 4	
Large-scale Industrial, Hydroelectric and Infrastructural Projects	315
Chapter 5	
The Indirect Causes of Tropical Deforestation	334
1. The global economic situation	334
2. The debt problems of the tropical forest countries	356
3. Population growth	371
Supplementary opinion on Part G, Chapters 1-4	393
Supplementary opinion on Part G, Chapter 5, Sections 1 and 2	408

	Page
PART H	
The Impact of Tropical Deforestation	425
Chapter 1	
Impact on the Global Climate	425
Chapter 2	
Effects on the Regional Climate and Consequences for the Remaining Forests ..	458
Chapter 3	
Ecological Effects	491
Chapter 4	
Socioeconomic Effects	521
PART I	
Measures to Date, Possibilities for Action and Recommendations for Protection of the Tropical Forests	577
Chapter 1	
International and European Action to Date	577
Chapter 2	
Potential Action	639
Chapter 3	
Recommendations for Research and Action to Protect the Tropical Forests ...	789
Supplementary opinion on Part I, Chapter 2, Section 2	818
Dissenting opinion on Part I, Chapter 3, Section 1	826
Personal declaration of a Commission member on the Dissenting Opinion on Part I, Chapter 3, Section 1	851
APPENDIX	
1. Bibliography	852
2. Glossary	927
3. List of abbreviations and acronyms	956
4. Enquete-Commission Printed Papers	960

Table of Contents

	Page
PART A	
Recommendations for Research and Action to Protect the Tropical Forests	26
1. Recommendations for Action	26
Analysis of the situation	26
Objectives	27
1.1 Measures at the international level	29
1.1.1 Crash program to save the tropical forests	29
1.1.2 International Convention on Protection of the Tropical Forests	31
1.1.3 Intensification of activities to protect the tropical forests within the scope of the United Nations	36
– United Nations Environment Program (UNEP)	37
– Food and Agriculture Organization of the United Nations (FAO)	37
– The United Nations Educational, Scientific and Cultural Organization (UNESCO) ...	38
– World Bank	38
– International Tropical Timber Organization (ITTO)	39
– General Agreement on Tariffs and Trade (GATT)	39
1.1.4 International efforts to alleviate the debt problems of the Third World	39
1.2 Measures at the European Community (EC) level	40
1.2.1 Support for international initiatives	40
1.2.2 EC measures	41
1.3 Contribution of the Federal Republic of Germany	42

	Page
1.3.1 More extensive program and project work	43
1.3.2 Environmental compatibility of all international endeavors ...	44
1.3.3 Provision of capital	45
1.3.4 Debt relief for tropical forest countries	47
1.3.5 Progress reports	47
2. Research Requirements	50
2.1 Size and development of tropical forest stands	51
2.2 Tropical ecology	52
2.2.1 Basic aspects	52
2.2.2 Effects	52
2.3 Tropical forests and climate ..	53
2.3.1 Basic aspects	53
2.3.2 The effects of deforestation ..	53
2.4 Environmentally and socially compatible land use	54
2.5 Economic evaluation	54
3. Figures	55
4. Tables	55

PART B

The Commission's Terms of Reference and Work to Date	56
---	-----------

Chapter 1

Outline of the Issue; Establishment and Mandate of the Commission ..	56
---	-----------

Chapter 2

Composition of the Commission ...	61
1. Members of the Commission ..	61
2. Staff of the Commission's Secretariat	62

	Page
Chapter 3	
Work of the Commission to Date ..	63
Notes	74

PART C

The Earth's Forests	75
----------------------------------	----

Chapter 1

Forest Vegetation – A Geographical Survey	75
1. Distribution	75
2. Vegetation zones	77
3. Notes	80
4. Figures	81
5. Tables	81

Chapter 2

The Importance of the Forests	82
1. General discussion	82
2. Climate regulation	82
2.1 The global climate	82
2.2 Regional climates	85
3. Protective function	86
4. The economic importance of forests	87
5. Biological diversity	93
6. Notes	94
7. Figures	96
8. Tables	96

PART D

The Forests Outside of the Tropics	97
---	----

Preliminary remarks	97
----------------------------------	----

Chapter 1

Current Distribution and Past Development	98
1. Current distribution	98
2. Past history of the forests ...	99
3. Notes	105
4. Figures	107
5. Tables	107

	Page
Chapter 2	
The Extent of Current Damage to Forests	108
1. Damage	108
2. Forest damage survey methods	113
3. Notes	117
4. Figures	118
5. Tables	118
Chapter 3	
Causes of the New Kinds of Forest Damage	119
1. Theories to explain the forest damage	119
2. Emissions of anthropogenic trace gases	120
3. Acidification of the soils	126
4. Notes	127
5. Figures	130
6. Tables	130
Chapter 4	
Impact of the New Kinds of Forest Damage	131
1. Impact on the greenhouse effect	131
2. Economic impacts	133
3. Notes	135
Chapter 5	
The Effects of Global Climate Change on the Forests	137
Notes	141
Figures	142
PART E	
Tropical Forest Ecosystems	143
Chapter 1	
Types of Tropical Forest Vegetation and Their Geographical Distribution	143
1. Definition of the tropics	143
2. Site factors	143

	Page
3. Classification of tropical forest formations	149
– Moist evergreen tropical forests	152
– Moist deciduous forests ...	155
– Dry deciduous forests	157
– Tropical forests under special site conditions	157
– Primary forests	160
– Secondary forests	160
– Logged-over forests	161
4. Notes	161
5. Figures	162
6. Tables	163

Chapter 2

Attributes and Significance of the Flora and Fauna	164
1. Attributes	164
1.1 Biological diversity	164
1.2 Endemism	167
1.3 Adaptation and specialization	168
1.4 High proportion of woody plants	169
1.5 Complex biological communities	169
1.6 Other attributes	170
2. Significance	171
3. Notes	174
4. Tables	176

PART F

The Extent and Development of Tropical Deforestation	177
Preliminary Remarks	177

Chapter 1

Present Forest Cover and How It Is Changing Over Time	177
1. Present forest cover	177
2. The extent of destruction	187
2.1 The extent of destruction at the beginning of the 1980s ..	187
2.2 The extent of destruction in 1989	194

	Page
3. Afforestation and reforestation	195
4. Other Changes	202
5. Predicted Future Development	202
6. Notes	204
7. Figures	207
8. Tables	207

Chapter 2

Forest Inventory Methods	208
1. The FAO Forest Inventory in 1980	208
2. The use of remote sensing in modern regional forest inventories	210
3. Methods used in other forest inventories	218
4. A summary of the methods to be used for the 1990 FAO Forest Resources Assessment (illustrated by examples for Liberia and Indonesia)	219
4.1 Introduction	219
4.2 Project objectives	220
4.3 Results of the inventory	221
4.4 Evaluation methods	221
4.4.1 General methodology	221
4.4.2 Evaluation approaches and analytical models	222
– Analysis of existing reliable data	222
– Use of NOAA AVHRR satellite images for identifying forest areas	225
– The statistical procedure ..	228
– The sampling procedure ...	232
4.5 The proposal for continuous global monitoring of forest resources	234
5. Other planned and already initiated forest inventories	235
6. Tasks and research recommendations	236
– Tasks	236
– Research recommendations	236
7. Notes	236
8. Figures	237
9. Tables	238

	Page
PART G	
The Causes of Tropical Deforestation	239
Chapter 1	
Introduction	239
Chapter 2	
Expansion of Agricultural Land at the Expense of the Forest	242
1. Conflict: agricultural land vs. forest	242
2. Small-farmer shifting cultivation	243
3. Large-scale agroindustrial projects (including livestock production)	246
4. Agricultural imports of the industrialized countries	251
5. National settlement programs	
Indonesia	253
Brazil	256
Malaysia	260
Paraguay	261
6. Land tenure, land distribution and tax laws	261
7. Notes	266
8. Figures	269
Chapter 3	
Fuelwood And Timber Production ..	270
1. Commercial logging	272
1.1 Logging rates, domestic consumption and exports	272
1.2 Imports of the industrialized countries	278
1.3 The uses and importance of tropical woods	285
1.4 Probable future development of the tropical timber trade ...	288
1.5 The impact of logging methods on tropical forest cover	289
Selective felling	290
Clear-felling	294
1.6 Forest legislation and logging concessions	295

	Page
1.7 Government policies	300
2. Fuelwood needs	302
2.1 Current fuelwood needs	302
2.2 The fuelwood crisis	304
2.3 Predicted development of fuelwood demand	306
3. Notes	310
4. Tables	313
5. Figures	314

Chapter 4

Large-scale Industrial, Hydroelectric and Infrastructural Projects	315
1. Large-scale industrial projects	315
2. Large-scale hydroelectric projects	320
3. Infrastructural measures	328
4. Notes	331
5. Tables	332
6. Figures	333

Chapter 5

The Indirect Causes of Tropical Deforestation	334
Preliminary remarks	334
1. The global economic situation	334
1.1 The situation of the developing countries before 1945 ..	336
1.2 The reorientation of the world economy after 1945	336
1.3 International economic relations – foreign trade	337
1.4 International economic relations – capital transfer	348
1.5 The importance of the environment in the economic process	352
2. The debt problems of the tropical forest countries	356
2.1 Development, magnitude and structure of the foreign debts	356
2.2 The causes of indebtedness ..	363
2.3 The consequences of indebtedness for the affected developing countries	366

	Page
3. Population growth	371
3.1 Population growth in figures ..	371
3.2 Population development and deforestation in the tropics ..	382
3.3 Religious, political, socioeco- nomic and legal factors related to population development and structure	384
4. Notes	388
5. Tables	392
6. Figures	392
Supplementary opinion of various Commission members on Part G, Chapters 1-4	393
Supplementary opinion of various Commission members on Part G, Chapter 5, Section 1: "The global economic situation" and Section 2: "The debt problems of the tropical forest countries"	408
PART H	
The Impact of Tropical Deforestation	425
Chapter 1	
Impact on the Global Climate	425
1. The greenhouse effect	425
1.1 Emissions of greenhouse gases	428
1.1.1 Emissions of carbon dioxide ..	431
1.1.2 Emissions of nitrogen oxides and their impact on low-level ozone concentrations	433
1.1.3 Methane emissions	436
1.1.4 Emissions of nitrous oxide ...	437
1.1.5 Emissions of other trace gases	437
– Carbon monoxide	437
– Non-methane hydrocarbons	438
1.2 Estimates of carbon dioxide emissions	438
1.2.1 Estimates of forest areas clea- red for various land-use types	439
1.2.2 Estimates of the density of biomass according to tropical forest type	439

	Page
1.2.3 Estimates of the amount of carbon fixed by secondary vegetation	443
1.2.4 Release of CO ₂ as a function of time and long-term storage of carbon	445
1.3 The impact of increased CO ₂ concentration on plant growth (the CO ₂ fertilizer effect)	446
2. Further effects on the global climate	448
2.1 Change in albedo	448
2.2 Change in the atmospheric hydrological cycle	450
2.3 Changes to the aerosol content of the atmosphere	451
3. Notes	452
4. Tables	457
5. Figures	457

Chapter 2

Effects on the Regional Climate and Consequences for the Remaining Forests	458
1. Climatic factors	458
1.1 Hydrological cycle	458
1.1.1 The hydrological cycle of Amazonia	460
1.1.2 Direct effects on the hydrological cycle	462
1.1.3 Indirect effects on the hydrological cycle	464
– The influence of albedo ...	464
– The influence of surface roughness	468
– The impact of other soil and plant properties	469
– Quantitative assessment of the effects on the hydrological cycle	470
1.1.4 Observed changes	470
1.1.5 Calculated changes	472
1.1.6 The importance of the hydrological cycle for the drought in the Sahelian zone	474
1.2 Temperature	477

	Page
1.3 Further climatic elements	477
2. Relevant climate models	478
2.1 Summary	480
– Wilson	481
– Henderson-Sellers and Gornitz	481
– Dickinson and Henderson- Sellers	482
– Lean and Warrilow	482
– Nobre	483
2.2 Sources of error	483
3. Consequences for the remain- ing forestland	484
4. Open questions and recom- mendations for research	485
– Open questions	485
– Recommendations for re- search	485
5. Notes	486
6. Tables	490
7. Figures	490

Chapter 3

Ecological Effects	491
1. Biodiversity	491
1.1 Estimating loss of species . . .	491
1.2 Mechanisms causing the ex- tinction of species	495
1.3 Biodiversity in secondary and logged-over forests	503
2. Soils	505
2.1 Soil erosion mechanisms	505
2.2 Soil erosion after logging	506
2.3 Erosion and nutrient depletion as a consequence of land-use changes	508
3. Feedback effects on other tro- pical ecosystems	516
3.1 Damage to water catchment areas as a result of soil ero- sion	516
3.2 Introduction of nutrients	517
3.3 Increased tropospheric ozone concentrations	517
4. Notes	518
5. Tables	520
6. Figures	521

	Page
Chapter 4	
Socioeconomic Effects	521
Introduction	521
1. Economic effects of a variety of forest uses and their subsequent social costs	522
1.1 Timber production	522
1.1.1 Commercial logging	522
West Africa	523
– Côte d'Ivoire	523
– Gabon	525
– Liberia	525
Southeast Asia	525
– The Philippines	525
– Malaysia	527
– Summary	527
– Subsequent costs	528
1.1.2 Sustainable wood production	529
1.1.3 Conversion of natural forestland to tree plantations	530
1.2 Traditional forest uses	531
– Hunting and gathering	531
– Traditional shifting cultivation	533
1.3 Smallholder farming	534
1.4 Large-scale agricultural projects	536
1.4.1 Large-scale monocropping ...	536
– Liberia	536
– Malaysia	537
– Ecuador	539
– Subsequent costs	539
1.4.2 Cattle ranching	540
1.5 Large-scale industrial projects	543
Brazil	543
– Impact on employment	546
– Subsequent costs	547
– Energy supply	547
Sarawak	549
1.6 Analysis of various types of land use	550
2. The economic impact of ecological and climatic damage ...	552
3. Social effects	555

	Page
3.1 Destruction of the habitats of indigenous communities	555
– Eastern Malaysia	557
– Central Africa	560
– Brazil	562
3.2 Conflicts of interest as a result of competition for land use ..	566
– The increase in social tension	566
– Migration problems	567
4. Open questions and recommendations for research	569
5. Notes	570
6. Tables	576
7. Figures	576

PART I

Measures to Date, Possibilities for Action and Recommendations for Protection of the Tropical Forests .	577
--	------------

Chapter 1

International and European Action to Date	577
1. International action and initiatives	577
1.1 Tropical Forestry Action Plan (TFAP)	577
1.1.1 Origins and concept	578
Forestry and land use	578
Development of the forest and timber economy	579
Fuelwood and energy	579
Conservation of tropical forest ecosystems	579
Institution building	579
1.1.2 Financing and procedure for drawing up plans	582
World Bank	583
Netherlands	583
Inter-American Development Bank	584
Federal Republic of Germany	584
1.1.3 Status of implementation	584
– Financing requirements	586
– Staff requirements	587
– Contribution to date by the Federal Republic of Germany	588

	Page
1.1.4	Nongovernmental organizations (NGOs) and Tropical Forestry Action Plan (TFAP) 590
1.1.5	Assessment 592
1.2	International Tropical Timber Agreement (ITTA) and International Tropical Timber Organization (ITTO) 598
1.2.1	Objectives of the agreement 598
1.2.2	Membership, financing and main areas of activity of the International Tropical Timber Organization 599
	– Membership 599
	– Financing 603
	– Main activities 605
1.2.3	Assessment 606
1.3	Other activities of international governmental organizations 608
1.3.1	United Nations Educational, Scientific and Cultural Organization (UNESCO) 608
1.3.2	United Nations Environment Program 610
1.3.3	Food and Agriculture Organization of the United Nations (FAO) 612
1.4	International government initiatives 613
1.4.1	Toronto Economic Summit 613
1.4.2	International Environmental Protection Conference at The Hague 613
1.4.3	Paris Economic Summit 614
1.4.4	Noordwijk Ministerial Conference on Air Pollution and Climatic Changes 616
1.5	Activities of nongovernmental organizations (NGOs) 617
2.	Action and initiatives at the European level 620
2.1	European Parliament (EP) 620
2.2	EC Commission and Council of the European Communities 622
2.2.1	Cooperation with the developing countries 622
	– Forestry development measures 625
	– Stabilization of ACP earnings 627

	Page
– Research activities	629
2.2.2 International activities of the EC	630
2.2.3 Support for bilateral cooperation between individual Member States and developing countries	631
2.2.4 Nongovernmental organizations (NGOs)	631
2.3 Parliamentary Assembly of the Council of Europe	632
2.4 Assessment	632
3. Notes	632
4. Tables	638
5. Figures	638

Chapter 2

Potential Action	639
1. Proposals for measures in international law and institutional action	640
1.1 Possible international conventions	640
1.2 Activities and tasks of international governmental organizations (IGOs)	646
1.2.1 Survey of activities of international governmental organizations in the environmental sector	646
– The role of international governmental organizations in environmental policy	648
– United Nations Environment Program (UNEP)	657
– International governmental organizations with no direct environmental role	659
1.2.2 Proposals for an extension of the environmental policy terms of reference of the United Nations (UN)	660
– Strengthening the United Nations Environment Program	660
– Creation of a new international governmental organization to deal with the environment within the United Nations system	663

	Page
- Coordination of the work of specialized organizations and other agencies of the United Nations in the environmental policy and environmentally relevant sectors	669
- Evaluation	670
1.3 Work and terms of reference of national and international nongovernmental organizations	670
1.3.1 Main activity areas and functions of national nongovernmental organizations	671
1.3.2 The main areas of activity and functions of international nongovernmental organizations	673
1.4 Protection of indigenous societies	676
1.4.1 Strengthening the legal position of indigenous societies ..	678
1.4.2 National protection of human rights	679
1.4.3 Action taken by the governments directly concerned	682
1.4.4 Possibilities for action by the industrialized countries	686
2. Development cooperation and protection of the tropical forests	688
2.1 Conceptual orientation of project promotion aimed at conserving the tropical forests ...	691
2.1.1 Starting points for measures outside of the forestry sector	691
- Buffer zone development ..	693
- Combating poverty	694
- Promotion of women	695
- Agricultural sector	696
Land reforms	
Increasing agricultural production	697
- Increasing agricultural production per unit area of land .	697
- Development of agriculturally suitable land outside of the forests	698

	Page
– Rehabilitation of degraded farming land	699
– Energy sector	699
More efficient utilization of fuelwood	
Substitution of other energy sources	
Improvement of the fuelwood supply	702
– Transport of fuelwood from areas with a surplus to areas in which there is a shortage	702
– Utilization of wastewood from logging and scrap from the wood-processing industry	703
– Measures to increase fuelwood production	703
2.1.2 Promotion and further development of forestry measures	704
– Direct forest protection by establishing nature conservation areas	705
– The importance and the problems of conservation areas	705
– Integrally protected nature reserves	707
– National parks	707
– Managed nature reserves ..	707
– Landscape conservation areas	707
– Ethnological protection areas	707
– Resource conservation areas	708
– Managed resource conservation areas	708
Planning of conservation areas	
Forest areas in tropical regions that are particularly endangered or worthy of protection	708
– Measures for management of forest resources	711
Forest plantations	711
Management of natural forests	714

	Page
Agroforestry	714
Village forestry	716
Utilization and marketing of forest resources	717
– Measures for improving the general conditions for forestry activities	718
Improvement of training	719
Strengthening of forest administrations	719
Enhancing ecological awareness	719
2.2 Environmental impact assessments	720
2.2.1 Procedures for environmental impact assessment	720
2.2.2 Experience to date	724
2.2.3 Evaluation	724
2.3 Systematic, coordinated use of the various instruments of bilateral and multilateral development cooperation to promote conservation of the tropical forests	726
2.3.1 Technical cooperation projects	726
2.3.2 Promotional measures in the field of financial cooperation .	727
2.3.3 Promotion of nongovernmental organizations	727
2.4 Coordination of promotional efforts	729
2.5 Supportive measures in the Federal Republic of Germany	729
2.5.1 Research	730
2.5.2 Training	730
3. Proposals for financial and economic policy measures ...	731
3.1 Debt remission and debt re- scheduling	731
3.1.1 Institutions, objectives and in- struments of previous debt strategies	732

	Page
– Debt rescheduling negotiations	732
Paris Club	732
Bank consortiums	733
– New debt-relief initiatives ..	733
The Baker Plan	734
The Brady Plan	734
Debt conversion	737
Interest reduction	737
New loans	737
3.1.2 Possible elements of a debt-reduction strategy	739
– General remission of debts	739
– Partial remission of debts ..	741
– Debt for equity	743
– Debt-for-nature swaps	745
Objective and procedure	
Swaps carried out to date ...	745
– Evaluation	746
3.2 Provision of capital	748
3.2.1 Establishment of an Environmental Fund	748
3.2.2 Bilateral financial assistance .	751
3.3 Alternatives for action by the developing countries	752
3.3.1 Establishment and expansion of a capable domestic financial and credit sector	752
3.3.2 Financial and economic policy stabilization efforts	754
3.4 Improvement of market conditions for commodities and intermediate and final products from the developing countries	756
3.4.1 The general development of market conditions since 1947	756
3.4.2 The development of the commodity markets	761
– Attempted solutions	761
– Evaluation	766
3.4.3 Development of markets for semifinished and finished products	767
3.5 Proposals for measures in the timber sector	768
3.5.1 Elaboration of a code of conduct	768
– Code of conduct of the German Timber Importers Federation	768
– Evaluation	770
3.5.2 Restrictions of imports and/or use of tropical woods	771

	Page
– Refrainment from use of tropical woods	771
– Import bans	773
– Evaluation	775
4. Notes	777
5. Tables	787
6. Figures	788

Chapter 3

Recommendations for Research and Action to Protect the Tropical Forests	789
1. Recommendations for action ..	789
Analysis of the situation	789
Objectives	790
1.1 Measures at the international level	791
1.1.1 Crash program to save the tropical forests	791
1.1.2 International Convention on Protection of the Tropical Forests	793
1.1.3 Intensification of activities to protect the tropical forests within the scope of the United Nations	798
– United Nations Environment Program (UNEP)	800
