<i>About the author</i>	<i>xv</i>
PART 1 BACKGROUND ISSUES	
1 Who are you and what do you want?	3
Questionnaire assessment	4
Observation	6
User requirements	10
Eliciting information through an interface	12
Summary	15
2 The limits of human and automated decision-making	17
The limits of human decision-making	17
The limits of automated decision-making	21
PART 2 HOW IT WORKS	
3 The digital you	29
What questions should be asked?	31
A great misnomer: the unique identifier	33
Conclusions	40
4 Artificial intelligence technologies	43
Artificial neural networks	43
Bayesian inference	44
Rules-based systems	45

	Reinforcement learning	47
	Summary	52
5	The sea of data	55
	Information retrieval	55
	Content management	57
	Conceptual classification	60
6	The development of taxonomies	63
	Structuring data	63
	Designing the taxonomy	64
	Document labelling	67
	Maintaining the taxonomy	70
	Case study 6.1: UK government's Online strategy	70
	Conclusions	74
7	Extracting the meaning of information: using the AI methods	77
	Search/information retrieval	77
	Classification	78
	Personalisation	81
	Making an intelligent information choice	83
8	Information in people	91
	Strategies for people information management	91
	Creating value from tacit and explicit knowledge	92
	Key building blocks of information management	93
	Networking	94
	Structured connection	96
	Dimension-directed search	100

PART 3 IMPLEMENTATION

9	Decision intelligence applications	103
	Internet shopping	103
	Decision processes	105

Self-determination	107
Case study 9.1: personalised video recording	108
Case study 9.2: financial services	112
10 Ensuring successful practical implementation	115
Requirements capture	116
Project definition	118
Troubleshooting	119
Success	123
11 Who do you think I am! Challenges to the technology	125
What I think you think of me	125
Your identifier needs you	128
They see 'You' but what about Me?	130
12 The future of decision intelligence technology	133
Benefits	133
Dangers	134
Standards	134
Privacy and confidentiality	137
The future of decision intelligence	140
Glossary	143
References	147
