1 Individual and community action in HIV prevention: an introduction	1
<i>Tim Rhodes</i>	
2 Health promotion and the facilitation of individual change: the case of syringe distribution and exchange	10
<i>Gerry V. Stimson and Martin C. Donoghoe</i>	
3 Americans and syringe exchange: roots of resistance	22
<i>John K. Watters</i>	
4 AIDS prevention and drug policy: dilemmas in the local environment	42
<i>Richard Hartnoll and Dagmar Hedrich</i>	
5 “E” types and dance divas’: gender research and community prevention	66
<i>Sheila Henderson</i>	
6 Gay community oriented approaches to safer sex	86
<i>Graham Hart</i>	
7 Prostitution and peer education: beyond HIV	103
<i>Marina Barnard and Neil McKeganey</i>	
8 Save sex/save lives: evolving modes of activism	118
<i>Cindy Patton</i>	
9 The process of drug injection: applying ethnography to the study of HIV risk among IDUs	133
<i>Stephen Koester</i>	

10 Promoting risk management among drug injectors <i>Robert Power</i>	149
11 Heroin, risk and sexual safety: some problems for interventions encouraging community change <i>Tim Rhodes and Alan Quirk</i>	161
12 Ethnographic contributions to AIDS intervention strategies <i>Wayne Wiebel</i>	186
13 Peer-driven outreach to combat HIV among IDUs: a basic design and preliminary results <i>Jean-Paul C. Grund, Robert Broadhead, Douglas D. Heckathorn, L. Synn Stern and Denise L. Anthony</i>	201
14 Collective organisation of injecting: drug users and the struggle against AIDS <i>Benny Jose, Samuel R. Friedman, Alan Neaigus, Richard Curtis, Meryl Sufian, Bruce Stepherson and Don C. Des Jarlais</i>	216
Index	234

Figures

1.1	Individual and social approaches to HIV prevention	3
9.1	Basic drug injection paraphernalia: a disposable syringe, cotton for making a filter, a cup of water, and a drug mixing container or 'cooker'	136
9.2	Using a common 'cooker' (drug mixing container) and drawing the shared drug solution through a common 'cotton' or filter	137
9.3	A common source of water used for (1) rinsing, lubricating and/or testing syringes prior to injection; (2) drawing up water to mix with the drug; (3) rinsing syringes immediately after injection	139
9.4	'Blackloading', a method of transferring the drug solution from one syringe to another	139
11.1	Some risks associated with everyday heroin use	163
13.1	Individual versus group-mediated social control	208
14.1	Overall condom use levels among IDUs in Williamsburg at intake and follow-up	226

Tables

14.1	Community-level changes in drug use risk behaviours	226
14.2	Predictors of consistent condom use at follow-up	227
