INTRODUCTION: WHY HISTORY AND IDEOLOGY MATTER	1
Acknowledgements	8
1 DEFINING ENVIRONMENTALISM	9
1.1 What greens are for and against	10
1.2 Deep ecology, social ecology and the New Age tendency	17
1.3 Classifications	34
2 SOME FUNDAMENTAL ISSUES IN RADICAL ENVIRONMENTALISM	47
2.1 Biocentrism and intrinsic value	48
2.2 Tragedy of the commons	56
2.3 Some fundamental issues behind green economics	61
2.4 Technology and the ecological society	91
2.5 The global dimension	97
2.6 Ecofeminism	106
2.7 Social change	112
3 PRE-MODERN AND MODERN IDEAS ABOUT NATURE AND SCIENCE: THE ROOTS OF TECHNOCENTRISM	123
3.1 Medieval and Renaissance nature: a living being	124
3.2 The scientific revolution and nature as a machine	135
3.3 Christianity and nature: despotism or stewardship?	148
3.4 The importance of material changes	155
4 MODERN ROOTS OF ECOCENTRISM	167
4.1 Ecology's early development	168
4.2 Malthus and the roots of the ecocentric–technocentric debate	172
4.3 Darwin and Haeckel: the web of life and organicism	180
4.4 Romanticism, nature and ecology	188

## CONTENTS

4.5 Utopian socialism	205
4.6 Into the twentieth century	217
4.7 Ecological economics and the systems view	230
5 POSTMODERN SCIENCE AND ECOCENTRISM: SUBJECTIVITY, IDEOLOGY AND THE CRITIQUE OF CLASSICAL SCIENCE	239
5.1 Ecocentric ambiguities towards science	240
5.2 Twentieth-century precursors of the green critique	242
5.3 Twentieth-century science	246
5.4 Science and society: influencing the questions asked	259
5.5 Science and society: influencing the answers obtained	269
5.6 Science and society: legitimating social groups and political ideologies	275
5.7 Science in perspective	291
6 WAYS AHEAD	295
6.1 Radical idealism	296
6.2 Radical materialism: changing the economic base	301
6.3 Prefiguring ecotopia	305
6.4 Ecotopia or dystopia? A personal view	322
<i>Glossary of some terms used in this book</i>	327
<i>Recommended further reading</i>	338
<i>References</i>	343
<i>Index</i>	363

# FIGURES

1.1 The cultural filter	6
2.1 The 'standard run' from <i>Limits to Growth</i>	66
2.2 Structural causes of the four possible behaviour modes of the world model	67
2.3 'Acid rain: save your car'	84
2.4 'Do you care about the health of your Planet?'	85
2.5 Making money from cheap third world labour	100
3.1 The medieval cosmology	127
3.2 The Great Chain of Being	132
4.1 Patriotism and rural preservation	224
4.2 Chains of Being	236
5.1 The hologram analogy	253
5.2 The dye drop analogy	254
5.3 The advent of man and his progress on the earth	266
5.4 Bees organised in a hive	280
6.1 LETS	312
6.2 A LETS advertisement	313
6.3 Credit note samples	314

# TABLES

1.1	Green values compared with conventional values	11
1.2	The fate of early green ideas	18
1.3	The eight basic principles of deep ecology	20
1.4	Principal tenets of the Findhorn consensus	29
1.5	Some socialist–anarchist differences	32
1.6	Mechanistic and organic ethics contrasted	36
1.7	European perspectives on environmental politics and resource management: contemporary trends in environmentalism	37
1.8	Threefold classification of environmentalism based on grounds for environmental ethics, showing antecedents in Western thought	41
1.9	Political philosophies and environmentalism	42
1.10	Types of anarchism	45
2.1	Theories of value	49
2.2	Forms of association	60
2.3	Conventional and ecological economics compared	63
2.4	Needs, satisfiers and false satisfiers	72
2.5	Features of a green mixed economy	87
2.6	Hard and soft technology societies	94
2.7	Radical technology and its programme	95
2.8	The Rio Declaration on Environment and Development	104
2.9	Parallels between (cultural and some social) ecofeminist beliefs and anarchism	111
4.1	Some beliefs and values of the Saint-Simonian movement	208
4.2	Anarchism's principles	211
4.3	Polarities of the Western film	226
6.1	The main ideas in the convergence between Eastern philosophy, postmodern science and Teilhard de Chardin's evolutionary schema	297
6.2	A moneyless economy	303
6.3	Characteristics of LETS schemes	310
6.4	Examples of goods and services traded in a LETS scheme	311
6.5	Principles of permaculture design	316
6.6	Key elements of confederal municipalism	320
6.7	Economic features of confederal municipalism	321
