Preface	xiii
1. The Controller's Job	1
Introduction	1
Job Description	2
Characteristics	4
Qualifications	6
Delegation of Responsibility and Authority	7
The New Type of Manager	8
Structure of the Accounting Department	8
Ethics	12
Summary	13
2. Internal Control	15
Introduction	15
Management Concern	15
Basic Elements	15
Elements of Internal Accounting Control	23
Levels of Controls	24
Responsibility for Proper Internal Controls	25
Fraud	27
Auditing for Fraud	30
Fraudulent Financial Reporting	32
Foreign Corrupt Practices Act	38
Summary	39

3. Planning and the Strategic Plan	40
Introduction	40
Strategic Plan Overview	40
System of Plans	42
Planning Cycle	43
Planning Roles	45
Planning Timing and the Planning Period	46
Business Mission	48
Developing Long-Range Objectives	50
Developing Long-Range Strategies	52
Summary	55
4. Long-Range Financial Plan	56
Introduction	56
Layout and Purpose	56
Trends of Revenues and Profits	57
Capital Investments	58
Cash Flows and Financing Requirements	60
Key Statistics	62
Risk Analysis	64
Breakdown by Business Unit/Product Line/Geography	65
Financial Position	66
Summary	72
5. Annual Plan	73
Introduction	73
Need for Plans	73
System of Plans	77
Annual Planning Cycle	86
Role of the Controller	88
Sales Planning: The Base of All Business Plans	88
Steps In Developing the Near-Term Sales Plan	89
Methods for Determining the Sales Forecast	90
Useful Sources of Forecasting Information	94
Break-Even Chart	94
Changes in the Sales Mixture	98
Changes in the Sales Price	99
Changes in the Cost	100
Summary	101

6. Sales	101
Introduction	101
Role of the Controller	102
Sales Analysis	104
Sales Standards	106
Sales Reports	110
Product Pricing	112
Summary	116
7. Distribution Expenses	117
Introduction	117
Definition	118
Role of the Sales Manager	118
Controlling Distribution Costs	119
Analyzing Distribution Costs	119
Analyzing By Application	121
Setting the Distribution Budget	126
Summary	132
8. Direct Materials and Labor	133
Introduction	133
Objectives	133
Role of the Controller	134
Types of Costing Analyses	137
Types of Cost Systems	137
Measuring Direct Material Costs	138
Controlling Direct Material Costs	139
Controlling Direct Material Quantities	141
Measuring Direct Labor Costs	143
Controlling Direct Labor Costs	144
Summary	150
9. Overhead	151
Introduction	151
The Need for Overhead Controls	152
Responsibilities of the Controller	152
Account Classifications	153
Fixed and Variable Costs	155
Cost Allocation	161
Controlling Overhead	168
Production Reports	171
Summary	173

10. General and Administrative Expenses	174
Introduction	174
Functions Involved	174
Categories of Expense	175
Accounting For and Allocating Administrative Expenses	176
“Unique” Expenses	177
Cost Variability	179
Controlling Costs	180
Summary	186
 11. Cash and Investments	 187
Introduction	187
Objectives of Cash Management	187
Role of the Controller	188
Cash Collections	189
Cash Disbursements	190
Investment of Short-Term Funds	190
Marketable Securities	193
Accounting for Records of Investment	196
Cash and Investment Controls	198
Summary	205
 12. Receivables	 206
Introduction	206
Measuring Receivables	206
Functions of the Credit Department	208
Shortening the Receivables Cycle	211
Reserve for Doubtful Accounts	213
Receivables Fraud and Control	213
Summary	214
 13. Inventory	 215
Introduction	215
Inventory Management Systems	215
Inventory Tracking	221
Physical Inventory Procedure	226
Inventory Valuation	228
Inventory Fraud and Controls	233
Summary	235

14. Property, Plant, and Equipment	236
Introduction	236
Role of the Controller	237
Capital Budgeting	238
Postproject Appraisals	248
Other Aspects of Fixed Assets	249
Summary	252
15. Liabilities	254
Introduction	254
Definitions	254
Objectives	256
Controls	256
Credit Agreement Provisions	258
Measurements	259
Debt Capacity	260
Bond Ratings	261
Leverage	262
Summary	263
16. Equity	264
Introduction	264
Role of the Controller	264
Equity Formulas and Debt Ratios	265
Cost of Capital	268
Dividend Policy	269
Long-Term Equity Planning	271
Repurchasing Common Shares	275
Capital Stock Records	277
Summary	277
17. Closing Procedures	278
Introduction	278
Selecting the Fiscal Year	278
Selecting Interim Reporting Periods	279
Need for Prompt Reporting	280
Quick Close	280
Summary	288
18. Performance Measurements and Trends	289
Introduction	289

Performance Measurements	290
Trends	296
Interrelationship of Ratios	297
Impact of EDI on Performance Measures	299
JIT Ratios	299
Summary	301

19. Taxes 302

Introduction	302
Tax Organization	303
Role of the Tax Manager	304
Tax Records	305
Tax Versus Book Accounting	308
Proper Classification of Accounts	308
Summary	309

20. Insurance 310

Introduction	310
Role of the Risk Manager	310
Selecting Insurable Hazards	312
Selecting the Broker and Underwriter	314
Types of Insurance	316
Claims Administration	317
Insurance Audits	319
Annual Insurance Report	319
Summary	320

21. Client/Server Computing 321

Introduction	321
The Past: The Terminal-Host Architect	321
The Future: Client/Server Architecture	322
Interoperability and Systems Integration	323
Graphical User Interface	324
Movement to Client/Server	324
Client/Server and the Reengineering of Work Processes	324
Executive Information Systems	325
Implementation Issues	325
Client/Server Accounting	326
Summary	327

22. Automated Financial Accounting Systems	328
Introduction	328
Organizational Impact	329
Typical Applications and General Features	335
Functionality and New Features	345
Summary	346
23. Selecting a Financial Information System	347
Introduction	347
Reasons to Purchase Software	347
Defining Systems Requirements	348
Existing System Documentation	351
Joint Sessions	352
Preparing the Request for Proposal	352
Distribution of the Request for Proposal	356
Review of the Vendor's Completed Proposal	359
Reference Calls	362
Demonstration	363
Site Visits	363
Cost of the System	364
Final Selection	365
Contract Negotiations	365
Post-Implementation Review	366
Summary	367
24. Software Package Integration	368
Introduction	368
Project Management	369
Risk Management	374
Change Management	377
Quality Management	377
Integration Steps	379
Summary	403
25. Electronic Data Interchange	405
Introduction	405
History	408
Benefits	410
Mechanics	411
Implementation	415
Summary	415

26. Groupware	416
Introduction	416
History	416
Definition	417
Current Industry Status	421
Summary	421
27. Graphics in Business	422
Introduction	422
Purpose	422
Elements	423
Software	426
Summary	433
28. Information Systems Security	434
Introduction	434
Types of Threats	434
Protecting Information Systems Assets	435
Controller's Role	440
Summary	440
29. Change Management	441
Introduction	441
Definition	442
Implementation History	443
Competing Projects	445
Degree of Disruption	446
Cost of Failure	447
Risks	448
Summary	454
Index	455
