CHAPTER 1

Sleep-Disordered Breathing	1
---	---

CHAPTER 2

General Aspects of Therapy	3
---	---

CHAPTER 3

Identifying the Site of Obstruction	9
---	---

3.1 Pressure Measurements	9
---------------------------------	---

3.2 Flexible Endoscopy	10
------------------------------	----

3.3 Analysis of the Respiratory Sounds During Sleep	10
--	----

3.4 Further Imaging Procedures	10
-------------------------------------	----

CHAPTER 4

Nasal Surgery	00
----------------------------	----

4.1 Effectiveness of Treatment	13
--------------------------------------	----

4.1.1 Effectiveness for Simple Snoring	13
---	----

4.1.2 Effectiveness for Obstructive Sleep Apnea	14
---	----

4.2 Postoperative Care and Complications	15
---	----

4.3 Indications and Contraindications	16
--	----

4.4 Impact of Nasal Surgery on Nasal CPAP Treatment	16
--	----

4.5 Conclusion	17
----------------------	----

CHAPTER 5

Nasopharyngeal Surgery	00
-------------------------------------	----

5.1 Effectiveness of Treatment	19
--------------------------------------	----

5.1.1 Corticosteroids	19
-----------------------------	----

5.1.2 Nasopharyngeal Tubes	19
----------------------------------	----

5.1.3 Surgical Treatment	20
--------------------------------	----

5.2 Postoperative Care and Complications	20
---	----

5.3 Indications and Contraindications	20
--	----

CHAPTER 6

Palatal Surgery	21
6.1 Tonsils	21
6.1.1 Tonsillectomy and Tonsillotomy	21
6.1.1.1 Children	21
6.1.1.2 Adults	25
6.1.2 Radiofrequency Surgery of the Tonsils	26
6.1.2.1 Principle of Interstitial Radiofrequency Surgery	26
6.1.2.2 Surgical Technique	28
6.1.2.3 Effectiveness for SDB	29
6.1.2.4 Postoperative Care and Complications	29
6.1.2.5 Indications and Contraindications	29
6.2 Uvulopalatopharyngoplasty	30
6.2.1 Surgical Technique	30
6.2.2 Effectiveness for Simple Snoring	34
6.2.2.1 Comparison of Different Soft Palate Surgical Techniques	34
6.2.3 Effectiveness for OSA	35
6.2.4 Postoperative Care and Complications	36
6.2.5 Indications and Contraindications	40
6.3 Uvulopalatal Flap	41
6.3.1 Surgical Technique	41
6.3.2 Effectiveness for SDB	43
6.3.3 Postoperative Care and Complications	44
6.3.4 Indications and Contraindications	45
6.4 Laser-Assisted Uvulopalatoplasty	46
6.4.1 Surgical Techniques	46
6.4.2 Effectiveness for Simple Snoring	50
6.4.2.1 Laser Uvulopalatoplasty	51

6.4.2.2	Mucosal Strip Technique	51
6.4.2.3	Laser-Assisted Uvulopalatoplasty	52
6.4.3	Effectiveness for OSA	52
6.4.4	Postoperative Care and Complications	54
6.4.4.1	Pain	56
6.4.5	Indications and Contraindications	56
6.5	Radiofrequency Surgery of the Soft Palate	57
6.5.1	Surgical Technique	58
6.5.2	Effectiveness for Simple Snoring	59
6.5.3	Effectiveness for OSA	61
6.5.4	Postoperative Care and Complications	62
6.5.5	Indications and Contraindications	62
6.6	Palatal Implants	63
6.6.1	Surgical Technique	63
6.6.2	Effectiveness for Simple Snoring	65
6.6.3	Postoperative Care and Complications	65
6.6.4	Indications and Contraindications	65
6.7	Other Soft Palate Procedures	66
6.7.1	Uvulectomy	66
6.7.2	Palatal Stiffening Operation	66
6.7.3	Injection Snoreplasty	68
6.7.4	Transpalatal Advancement Pharyngoplasty	69

CHAPTER 7

Lower Pharyngeal Airway Procedures . .		00
7.1	Radiofrequency Surgery of the Base of Tongue	71
7.1.1	Surgical Technique	71
7.1.2	Effectiveness for Simple Snoring	73
7.1.3	Effectiveness for OSA	73
7.1.4	Postoperative Care and Complications	75
7.1.5	Indications and Contraindications	76
7.2	Hyoid Suspension	77
7.2.1	Original Surgical Technique (1986)	77
7.2.2	First Modification (1994)	78

7.2.3	Ongoing Modification by Hörmann	78
7.2.4	Effectiveness for Sleep-Disordered Breathing . .	81
7.2.5	Postoperative Care and Complications	81
7.2.6	Indications and Contraindications	82
7.3	Tongue Base Reduction	82
7.3.1	Surgical Technique	83
7.3.2	Effectiveness for OSA	85
7.3.3	Postoperative Care and Complications	86
7.3.4	Indications and Contraindications	86
7.4	Tongue Suspension	87
7.4.1	Surgical Technique	87
7.4.2	Effectiveness for Simple Snoring	88
7.4.3	Effectiveness for OSA	88
7.4.4	Postoperative Care and Complications	89
7.4.5	Indications and Contraindications	89

CHAPTER 8

	Maxillofacial Surgeries	00
8.1	Genioglossus Advancement	91
8.1.1	Surgical Technique	91
8.1.2	Effectiveness for OSA	92
8.1.3	Postoperative Care and Complications	93
8.1.4	Indications and Contraindications	93
8.2	Maxillomandibular Advancement	94
8.2.1	Surgical Technique	94
8.2.1.1	Surgery on the Upper Jaw	94
8.2.1.2	Surgery on the Lower Jaw	95
8.2.2	Effectiveness of Maxillomandibular Advancement for OSA	96
8.2.3	Postoperative Care and Complications	97
8.2.4	Indications and Contraindications	98
8.3	Distraction Osteogenesis	99
8.3.1	Mandibular Distraction Osteogenesis	99
8.3.1.1	Surgical Technique	100

8.3.2	Maxillary-Midfacial Distraction Osteogenesis	100
8.3.2.1	Surgical Technique	101
8.3.3	Efficiency of Distraction Osteogenesis for OSA	102
8.3.4	Complications and Postoperative Care	105
8.3.5	Indications and Contraindications	105

CHAPTER 9

	Laryngeal Obstructive Sleep Apnea	00
9.1	Pediatric Laryngeal OSA	107
9.1.1	Surgical Techniques	108
9.1.2	Effectiveness for Sleep-Disordered Breathing	110
9.1.3	Postoperative Care and Complications	110
9.1.4	Indications and Contraindications	111
9.2	Adult Laryngeal OSA	111
9.2.1	Surgical Techniques	112
9.2.2	Effectiveness for Sleep-Disordered Breathing	113
9.2.3	Postoperative Care and Complications	113
9.2.4	Indications and Contraindications	113

CHAPTER 10

	Multi-Level-Surgery	00
10.1	Surgical Concepts	115
10.1.1	Effectiveness of Minimally Invasive Multi-Level Surgery for Mild to Moderate OSA	115
10.1.2	Effectiveness of Multi-Level Surgery for Moderate to Severe OSA	116
10.2	Postoperative Care and Complications	119

10.3	Indications and Contraindications	120
10.4	Multi-Level Surgery in Children	121
CHAPTER 11		
	Tracheotomy	00
11.1	Surgical Technique	123
11.2	Effectiveness for OSA	123
11.3	Postoperative Care and Complications	124
11.4	Indications and Contraindications	125
CHAPTER 12		
	Bariatric Surgery	00
12.1	Effectiveness for OSA	127
12.2	Postoperative Care and Complications	128
12.3	Indications and Contraindications	129
CHAPTER 13		
	Anesthesiologic Airway Management . .	00
13.1	Implications in Patients with OSA	131
13.2	Strategies for Intubation in Patients with a Known or Suspected Difficult Airway . . .	132
13.3	Life-Threatening Situations	134
13.4	Extubating the Difficult Airway	134
13.5	Postoperative Care	135
13.6	Documentation	135
	References	137
	Subject Index	159
