

CONTENTS

Preface

<i>Editor's Preface</i>	x
-------------------------------	---

Energy and CO2 Emissions

The Influence of Canadian Carbon Stabilization Programs on Natural Gas Exports to the United States <i>By Steven A. Gabriel, David M. Ribar, Wayne I. Willis, Edwin F. Hardy, Robert E. Baron, ICF Kaiser, International, Inc.</i>	1
CO2 Emissions and Economic Growth - The East Asian Experience <i>By Kala Gopalakrishnan, Hyderabad, India Inc.</i>	11

The Current Status of Non-Traditional Energy Sources

Fuel Cells: A Competitive Market Tool for Carbon Reductions <i>By Bruce R. Kinzey, Marshall A. Wise, James J. Dooley, Pacific Northwest National Laboratory</i>	21
--	----

OPEC : Past, Present, Future

OPEC Social Welfare in a Dynamic Model <i>By Daniel J. Celta, Colorado School of Mines</i>	31
What Future for OPEC? <i>By Norman E. Duncan, S. Gürcan Gülen, University of Houston</i>	41
Will the End of the Production Quota System Make OPEC Redundant? <i>By Mamdouh G. Salameh, Oil Market Consultancy Service</i>	49

Technical Issues in Electricity Supply I

Modelling to Support Strategic Bidding in the Colombian Electricity Pool <i>By Isaac Dyer, Ricardo Smith, Santiago Montoya, Leonardo Bedoya, Antonio Quintero, Universidad Nacional de Colombia, Sede Medellín</i>	59
Optimal Recovery of Electricity Lifelines after Major Earthquakes: Market Mechanisms vs. Rationing <i>By Adam Rose, The Pennsylvania State University, Juan Benavides, Universidad de Los Andes</i>	67

Energy Efficiency

Energy Efficiency in an Era of Low Cost Energy Time for a New Paradigm? <i>By Jean-Pierre Desrosiers, Lee Schipper, International Energy Agency, Paris</i>	77
Technology Simulation Modelling and Aggregate Parameters for Price and Non-Price Induced Interfactor Substitution <i>By Mark Jaccard, Chris Bataille, Dean Luciuk, Simon Fraser University</i>	85
Persistence and Spillover/Market Transformation as Measured for Boston Edison Company's Energy Efficiency Programs for the Last 7 Years <i>By Lori Megdal, Megdal & Associates, Karen Pedersen, Boston Edison Company</i>	91
Energy Efficiency Trends in Canada 1990 to 1996 <i>By Louise Métivier, Michel Francoeur, Tim McIntosh, Natural Resources Canada</i>	101

Electricity Market Deregulation in North America

Business & Information Requirements of Energy Service Providers in the Post-Restructured Electricity Markets* <i>By Fereidoon P. Sioshansi, Convector Consulting Inc.</i>	111
---	-----

The State in Energy Markets

Energy-Supply Institutions and the State in a Deregulating Economy: The Experience of an Oil Exporting, Developing Country <i>By Adeola Adenikinju, University of Ibadan</i>	121
Danish Energy Policy 1966-1991: A Cointegration Analysis of Some Policy Measures <i>By Jan-Tjeerd Boom, University of Groningen</i>	129
Energy Consumption in Urban Sub-Saharan Africa and Government Policies: What we have Yet to Learn from the Empirical Evidence <i>By Mathieu-C. Koumoin, The World Bank</i>	139
Agreements as a Policy Instrument Towards Industrial Energy Use - A Presentation of Danish Experience and a Comparison with the Dutch Agreements <i>By Mikael Togeby, Kirsten Hansen, Anders Larsen, AKF, Institute of Local Government Studies - Denmark ; Renato Ezban, Pernille Svenstrup, Danish Energy Agency (DEA)</i>	149

Energy Intensity

A Five Factor Decomposition for Korean Manufacturing Energy Intensity <i>By Carol Dahl, Colorado School of Mines ; Hankyung Jhung, Korean Institute for Energy Economics</i>	159
---	-----

Oil Supply Issues I

Stagnating Intensities, Increasing Structure - Why CO ₂ Emissions from Residential Energy Use Will Start Growing Faster <i>By Josef Zoechling, Vienna University of Technology; Tom Krackeler, Lawrence Berkeley National Laboratory; Reinhard Haas, Vienna University of Technology; Lee Schipper, International Energy Agency</i>	169
---	-----

Crude Oil Supply Curves <i>By M.A. Adelman, Massachusetts Institute of Technology</i>	179
--	-----

The State of Petroleum Resources and Supply: Some International Comparisons <i>By Omowumi Iledare, Allan Pulsipher, Rick Pincomb, Louisiana State University</i>	185
---	-----

Experimenting with Freer Markets for Electricity and Natural Gas

An LDC's Analysis and Improvement of Short Term Forecasting in an Unbundled Environment <i>By Stephanie A. Krasnoff, Stanley M. Dziura, Jr., Bay State Gas Company</i>	195
---	-----

The Emergence of Freer Energy Markets in the Baltics

The Changing Shape of Baltic Energy Markets <i>By Ulf Hansen, Rostock University</i>	205
---	-----

Development of an Independent Energy Regulation in the Baltics <i>By Vidmantas Jankauskas, Vilnius University</i>	215
--	-----

The Economic and Legal Background of Lithuanian Energy Integration into the European Energy Economy <i>By Valentinas Klevas, Lithuanian Energy Institute</i>	225
---	-----

Latvian and East-European Market: Towards the EU Policy <i>By V. Zebergs, N. Zeltinsh, Latvian Academy of Science; V. Kreslinsh, Dispatch Centre "Baltija"</i>	233
---	-----

Greenhouse Gas Emissions : Modelling and Analysis

The Power Planning and CO ₂ Emission of the Electric Sector in Taiwan <i>By Jeng-Wen Lai, Nan-Jeon Junior College of Technology and Commerce; Chia-Yon Chen, National Cheng Kung University</i>	243
---	-----

Assessing Strategies for Reducing Greenhouse Gas Emissions in Urban Transportation Sector <i>By Gwo-Hshiung Tzeng, National Chiao Tung University and Stanford University; John P. Weyant, Stanford University</i>	253
---	-----

Nordleden - A Long Term Scenario Project for Analysis of an Integrated Nordic Energy System <i>By Thomas Unger, Tomas Larsson, Clas-Otto Wene, Chalmers University of Technology</i>	263
---	-----

Freeing Electricity Markets : International Evidence

Electric Power Privatization in Turkey <i>By S. Gürcan Gülen, University of Houston</i>	273
--	-----

Nuclear Power in a World of Deregulated Energy Markets <i>By Stephen W. Kidd, The Uranium Institute</i>	283
--	-----

Power Sector Reform: Lessons for Sub-Saharan Africa? <i>By John Turkson, Risø National Laboratory; Ian H. Rowlands, University of Waterloo</i>	289
---	-----

Experimenting with Freer Energy Markets in Australia and New Zealand

No Licenses, No Regulators: An Overview of New Zealand's Reforms <i>By Barry Barton, University of Waikato</i>	299
---	-----

Do Gains in Efficiency Boost Energy Demand ? The Rebound Effect

Defining the Rebound Effect <i>By Peter G. H. Berkhout, Jan W. Velthuisen, University of Amsterdam</i>	309
---	-----

Energy Use, Technical Efficiency, and the Rebound Effect: A Review of the Literature <i>By Lorna A. Greening, Hagler Bailly Services, Inc. ; David L. Greene, Oak Ridge National Laboratory</i>	321
--	-----

The Rebound Effect for Space Heating in Austria <i>By Reinhard Haas, Peter Biermayr, Vienna University of Technology</i>	331
---	-----

On the Rebound? Feedback Between Energy Intensities and Energy Use in IEA Countries <i>By Lee Schipper, International Energy Agency ; Michael Grubb, Royal Institute of International Affairs</i>	341
--	-----

Energy Demand - Residential Issues

The Dynamics of Residential Electricity Consumption in Household Production: A Microeconometric Analysis <i>By Bente Halvorsen, Bodil Larsen, Statistics Norway</i>	351
---	-----

The Impact of Population Ageing on Energy Demand <i>By Huei-Chu Liao, Chun-Chieh Lu, Tamkang University</i>	361
--	-----

The Choice of Space Heating System and Energy Consumption in Norwegian Households <i>By Runa Nesbakken, Statistics Norway</i>	371
--	-----

Electricity and the Environment

Integration Competition and Environment: Three Scenarios for the European Electricity Market

By Vincenzo Di Giulio, Scuola Superiore Enrico Mattei, Eni 381

The Nexus Between Competitive Electricity Markets and the Environment

By Deepak Sharma, University of Technology, Sydney; Anthony Sproule, Pacific Power 391

Electricity Markets in the Netherlands: Matching Competition and Sustainability

By Jan van den Berg, Teun van Biert, Dutch Electricity Generating Board 399

Assessing the Consequences of Freer Energy Markets

New Management of the Japanese Energy Industry: The Economic Consequence of the Deregulation and Prospects for the Future

By Hiroyuki Okamoto, BP Japan K.K. 407

Conservation and Efficiency

Integrating Perspectives from Alternative Disciplines to Understand Market Transformation Policy in Energy Markets

By Lori Megdal, Megdal & Associates 417

The Load Impact of a Community Based Energy Efficiency Demonstration Project

*By Dean C. Mountain, McMaster University;
Ronald B. Robinson, Frank Eaton, Applied Research Consultants* 425

Oil Supply Issues II

Economic Rents in Petroleum Exploration and Development and the Design of Efficient Taxation: The Case of the UK

By Alexander G Kemp, Linda Stephen, University of Aberdeen 435

Modeling Indonesian Oil Discoveries Using a Cointegration Approach

By Kurtubi, Pertamina, Colorado School of Mines 445

Oil Field Unitization: Theory and Evidence

*By Gary D. Libecap, University of Arizona and National Bureau of Economic Research ;
James L. Smith, Southern Methodist University* 455

Experimenting with Freer Electricity Markets in Eastern Europe

Is There any Electricity Market in Poland? <i>By Zbigniew Mantorski, Silesian Technical University</i>	465
Restructuring and Reforming of the Belarusian Power Industry <i>By Leonid Padalko, Ludmila Manykina, Belarusian State Polytechnical Academy.....</i>	473
The Present State and Prospects of the Hungarian Electricity Sector <i>By László Rádony, Technical University of Budapest; Márton Jávosi, Hungavian Energy Association</i>	477
