

# **CONTENTS**

## **LIST OF TABLES**

## **LIST OF FIGURES**

## **GLOSSARY OF ABBREVIATIONS**

## **EXECUTIVE SUMMARY AND CONCLUSIONS**

### **1. Introduction**

### **2. International Action on Acid Emissions**

#### **2.1 Introduction**

#### **2.2 The UN Economic Commission for Europe**

#### **2.3 The European Community Framework Directive**

#### **2.4 The Large Combustion Plant Directive**

#### **2.5 UK Participation in International Agreements**

#### **2.6 The Future Agenda**

### **3. Acid Rain: Environmental Effects**

#### **3.1 Introduction**

#### **3.2 The Significance of Emissions from Individual Countries**

#### **3.3 Surface Waters**

#### **3.4 Effects on Drinking Water and Crops**

#### **3.5 Forest Damage**

#### **3.6 Effects on Buildings**

#### **3.7 Critical Loads**

### **4. Combustion Plant in the UK**

#### **4.1 Overview**

#### **4.2 The Electricity Supply Industry**

#### **4.3 Manufacturing Industry**

#### **4.4 Petroleum Refineries**

### **5. Technologies for Emissions Reduction**

#### **5.1 Introduction**

#### **5.2 Fuel Characteristics**

#### **5.3 Summary of Technologies for SO<sub>2</sub> and NO<sub>x</sub> reduction**

#### **5.4 Technological Choices for Power Generation**

### **6. The Institutional Framework for Emissions Reduction**

#### **6.1 Introduction**

#### **6.2 Environmental Protection Act 1990**

#### **6.3 Implementation of the LCP Directive**

#### **6.4 Electricity Privatisation**

#### **6.5 Comparison with Other Countries**

## 7. Longer Term Strategies

### 7.1 Introduction

### 7.2 Electricity Supply Industry

#### 7.2.1 Introduction

#### 7.2.2 Current Expectations

#### 7.2.3 FGD and Coal Imports

#### 7.2.4 Fuel Choice and NO<sub>x</sub> Control

#### 7.2.5 Plant Replacement Rates and Emissions Abatement

#### 7.2.6 Electricity Demand and Emissions Abatement

#### 7.2.7 Conclusions on the Power Industry

### 7.3 Industry

### 7.4 Petroleum Refineries

### 7.5 LCP Compliance

## Appendices

### A.1 Negotiations on the Large Combustion Plant Directive

### A.2 Technologies for Emissions Reduction

### A.3 Historical Development of the Regulation of the ESI

## LIST OF TABLES

Table 2.1 -	1979 Geneva Convention on Long Range Transboundary Air Pollution
Table 2.2 -	European Community Policy
Table 2.3 -	Large Combustion Plant Directive: Emission Reduction Targets for Existing Plants
Table 2.4 -	Large Combustion Plant Directive: Sulphur Dioxide Emission Limits for New Plants
Table 2.5 -	Large Combustion Plant Directive: Nitrogen Oxide and Dust Emission Limits for New Plant
Table 2.6 -	Large Combustion Plant Directive: Derogations
Table 3.1 -	Possible Sulphur Critical Loads for Soil Acidification
Table 3.2 -	Possible Nitrogen Critical Loads
