

	Predicate Questions (a poem by Carol Ebbecke)	v
	Acknowledgments	xv
	Contributors	xvii
	Introduction	1
I	Phenomenology and Epistemology	13
	Overview	13
1	How to Study Consciousness Scientifically <i>John R. Searle</i>	15
2	A Science of Consciousness as If Experience Mattered <i>Francisco J. Varela</i>	31
3	Goodbye to Reductionism <i>Max Velmans</i>	45
4	What Can Mysticism Teach Us About Consciousness? <i>Robert K. C. Forman</i>	53
5	Reductionism Revisited <i>Alwyn C. Scott</i>	71
II	Ontology, the Hard Problem of Experience, Free Will, and Agency	79
	Overview <i>David J. Chalmers</i>	79
6	The Enigma of Sentience <i>Michael Lockwood</i>	83
7	The Myth of Double Transduction <i>Daniel C. Dennett</i>	97

8	Brainshy: Nonneural Theories of Conscious Experience <i>Patricia Smith Churchland</i>	109
9	Whitehead's <i>Even More</i> Dangerous Idea <i>Peter Farleigh</i>	127
10	Against Functionalism: Consciousness as an Information- Bearing Medium <i>Bruce Mangan</i>	135
11	My Experience, Your Experience, and the World We Experience: Turning the Hard Problem Upside Down <i>Roger N. Shepard and Piet Hut</i>	143
12	The Boundary Problem for Phenomenal Individuals <i>Gregg H. Rosenberg</i>	149
13	Folk Psychology, Science, and the Criminal Law <i>David Hodgson</i>	157
14	Zombie Killer <i>Nigel J. T. Thomas</i>	171
III	Discussions and Debates	179
	Overview	179
15	Can a Machine Be Conscious? <i>Danny Hillis</i>	181
16	Mindless Thought Experiments: A Critique of Machine Intelligence <i>Jaron Lanier</i>	185
17	Structure and Function <i>Giuseppe Vitiello</i>	191
18	"More Neural Than Thou" <i>Stuart R. Hameroff</i>	197
IV	Neural Correlates of Consciousness	215
	Overview	215
19	On the Search for the Neural Correlate of Consciousness <i>David J. Chalmers</i>	219
20	A Rosetta Stone for Mind and Brain? <i>Susan A. Greenfield</i>	231

21	Locating the Subjectivity Pump: The Thalamic Intralaminar Nuclei <i>Joseph E. Bogen</i>	237
22	Anterior Cingulate Cortex Participates in the Conscious Experience of Emotion <i>Richard D. Lane, Eric N. Reiman, Geoffrey L. Ahern, Gary E. Schwartz, Richard J. Davidson, Beatrice Axelrod, and Lang-Sheng Yun</i>	247
23	Toward the Neurobiology of Consciousness: Using Brain Imaging and Anesthesia to Investigate the Anatomy of Consciousness <i>Michael T. Alkire, Richard J. Haier, and H. Fallon James</i>	255
24	Neuronal Mechanisms of Consciousness: A Relational Global Workspace Framework <i>Bernard J. Baars, James Newman, John G. Taylor</i>	269
25	Creeping up on the Hard Question of Consciousness <i>Jeffrey A. Gray</i>	279
V	Vision and Consciousness	293
	Overview <i>Petra Stoerig</i>	293
26	Varieties of Vision: From Blind Responses to Conscious Recognition <i>Petra Stoerig</i>	297
27	Single-Neuron Activity and Visual Perception <i>Nikos K. Logothetis and David A. Leopold</i>	309
28	Visual Imagery and Visual Perception: The Role of Memory and Conscious Awareness <i>Alumit Ishai and Dov Sagi</i>	321
29	How Not to Find the Neural Correlate of Consciousness <i>Ned Block</i>	329
30	Speeded Digit Identification under Impaired Perceptual Awareness <i>Syoichi Iwasaki</i>	339
31	Fast Dynamics of Visibility of Brief Visual Images: The Perceptual-Retouch Viewpoint <i>Talis Bachmann</i>	345

32	Double-Judgment Psychophysics for Research on Consciousness: Application to Blindsight <i>Stanley A. Klein</i>	361
33	Consciousness and Commentaries <i>Lawrence Weiskrantz</i>	371
VI	Biology, Evolution, and Consciousness	379
	Overview	379
34	Evolution of Intelligence, Language, and Other Emergent Processes for Consciousness: A Comparative Perspective <i>James E. King, Duane M. Rumbaugh, and E. Sue Savage-Rumbaugh</i>	383
35	Bacteria as Tools for Studies of Consciousness <i>Victor Norris</i>	397
36	Nonlinear Dynamics in the Photoreceptor of the Unicellular Alga <i>Euglena gracilis</i> : An Application to the Evolutionary Aspects of Consciousness <i>Ezio M. Insinna</i>	407
37	Did Consciousness Cause the Cambrian Evolutionary Explosion? <i>Stuart R. Hameroff</i>	421
VII	Anesthesiology	439
	Overview	439
38	The Molecular Basis of General Anesthesia: Current Ideas <i>Nicholas P. Franks and William R. Lieb</i>	443
39	On the Mechanism of Action of Anesthetic Agents <i>Hans Flohr</i>	458
VIII	Sleep, Dreaming, and Nonconscious Processes	469
	Overview	469
40	The Conscious State Paradigm: A Neuropsychological Analysis of Waking, Sleeping, and Dreaming <i>J. Allan Hobson</i>	473
41	Dream Sleep and Waking Reality: A Dynamical View <i>Allan Combs and Stanley Krippner</i>	487

42	Dreaming and Consciousness <i>Stephen LaBerge</i>	495
43	Representational Momentum and Other Displacements in Memory as Evidence for Nonconscious Knowledge of Physical Principles <i>Timothy L. Hubbard</i>	505
44	Emotion and Consciousness: A Shotgun Marriage? <i>Daniel S. Levine</i>	513
IX	Language, Animals, and Consciousness	521
	Overview <i>Colin G. Beer</i>	521
45	King Solomon's Ring Redivivus: Cross-Species Communication and Cognition <i>Colin G. Beer</i>	522
46	Perspectives on Consciousness, Language, and Other Emergent Processes in Apes and Humans <i>E. Sue Savage-Rumbaugh and Duane M. Rumbaugh</i>	533
47	Cognition and Communication in Dolphins: A Question of Consciousness <i>Diana Reiss</i>	551
48	Language and Mental Life <i>Paul Bloom</i>	561
X	Emergent and Hierarchical Systems	573
	Overview	573
49	The Five Kinds of Levels of Description <i>Andrew Bailey</i>	577
50	Beyond Substance and Process: A New Framework for Emergence <i>Syed Mustafa Ali and Robert M. Zimmer</i>	585
XI	Quantum Theory, Space-time, and Consciousness	593
	Overview	593
51	The Evolution of Consciousness <i>Henry P. Stapp</i>	597

52	Why Are Quantum Theorists Interested in Consciousness? <i>Euan J. Squires</i>	609
53	Synaptic Transmission, Quantum-State Selection, and Consciousness <i>Friedrich Beck</i>	619
54	A Sonoran Afternoon: A Discussion on the Relevance of Quantum Theory to Consciousness <i>Stuart R. Hameroff and Alwyn C. Scott</i>	635
XII	Time and Consciousness	645
	Overview	645
55	Time Expansion and the Perception of Acoustic Images in the Big Brown Bat, <i>Eptesicus fuscus</i> <i>Prestor A. Saillant and James A. Simmons</i>	649
56	Context, Conditioning, and Meaning of Time-Consciousness in a Trappist Monastery <i>Van A. Reidhead and John B. Wolford</i>	657
XIII	Transpersonal Psychology	667
	Overview	667
57	Transpersonal Psychology and Methodologies for a Comprehensive Science of Consciousness <i>Charles T. Tart</i>	669
58	States and Stages of Consciousness: Current Research and Understandings <i>Roger Walsh</i>	677
XIV	Parapsychology	687
	Overview	687
59	Parapsychology: Fact or Fiction? Replicable Evidence for Unusual Consciousness Effects <i>Marilyn Schlitz and Edwin May</i>	691
60	Why Psi Tells Us Nothing About Consciousness <i>Susan Blackmore</i>	701
61	Do Psi Phenomena Suggest Radical Dualism? <i>Dick Bierman</i>	709

XV	Aesthetics and Creative Experience	715
	Overview	715
62	Modeling Creativity: Taking the Evidence Seriously <i>Lis Nielsen</i>	717
63	The Dimensions of Creativity <i>Aaron King and Alwyn C. Scott</i>	725
64	Poetry, Mental Models, and Discordant Consciousness <i>Paul K. Johnston</i>	733
	Appendix	739
	Index	743
