## VII Preface

- 1 Germline and Somatic Mutations in von Hippel-Lindau Disease Gene and Its Significance in the Development of Kidney Cancer**  
Shuin, T. (Kochi); Kondo, K. (Yokohama City); Ashida, S.; Okuda, H. (Kochi); Yoshida, M.; Kanno, H.; Yao, M. (Yokohama City)
- 11 Hereditary Papillary Renal Carcinoma: Pathology and Pathogenesis**  
Schmidt, L. (Frederick, Md.); Lubensky, I.; Linehan, W.M. (Bethesda, Md.); Zbar, B. (Frederick, Md.)
- 28 Renal Cell Carcinomas in Patients on Long-Term Hemodialysis**  
Ishikawa, I. (Uchinada)
- 45 TSC1 and TSC2 Gene Mutations in Human Kidney Tumors**  
Kajino, K.; Hino, O. (Tokyo)
- 51 Classification of Renal Cell Cancer Based on (Cyto)genetic Analysis**  
van den Berg, E.; Dijkhuizen T. (Groningen)
- 62 Wilms' Tumor and the WT1 Gene**  
Hata, J. (Tokyo)
- 75 Gene-Modified Immunotherapy for Renal Cell Carcinoma**  
Kawai, K. (Tsukuba City); Tani, K.; Asano, S. (Tokyo); Akaza, H. (Tsukuba City)
- 82 Wilms' Tumor (Nephroblastoma)**  
Yokomori, K. (Tokyo)
- 99 Pathogenesis of Renal Cell Adenomas and Carcinomas in Animal Models**  
Bannasch, P.; Zerban, H. (Heidelberg)
- 126 Author Index**
- 127 Subject Index**
