

Contents

The Biomaterial Collagen

Collagen-Based Biomaterials and
Tissue Engineering ... 3

B. Chevallay, St. Roche, D. Herbage

The Effect of Gentamicin, Bacterial Infection,
and Different Irrigation Solutions on
Cartilage Metabolism of the Rat ... 11

S. K. Bulstra, R. J. Wolvius, R. Kuijer,
G. H. I. M. Walenkamp, N. H. M. Hoefnagels,
R. van den Munckhof

Pharmacokinetics of two Gentamicin Collagen
Fleeces in Animal Experiments ... 18

G. H. I. M. Walenkamp, R. J. Wolvius,
S. Kaarsemaker

Comparative Human Pharmacokinetics of two
Gentamicin-Containing Collagen Carriers ... 21

A. Moser

Clinical Experience with a New Dual-Component
Gentamicin-Collagen Fleece (Septocoll®)
in the Treatment of Chronic Osteomyelitis
of the Long Tubular Bones ... 26

U. Größner, H. Büchner, R. Göttmann

The Biomaterial PMMA

Physical and Chemical Properties of Bone
Cements ... 39

W. Ege, K.-D. Kühn, C. Tuchscherer, H. Maurer

Comparison of Different Bone Cements:
An Overview ... 43

Å. S. Carlsson

The Cemented Prostheses: What is Sure,
What is Open? ... 48

J. Schmidt

PMMA as a Drug Carrier ... 52

B. Nies

Pharmacological and Clinical Results with
Gentamicin-PMMA Beads in Osteomyelitis ... 55

G. H. I. M. Walenkamp

Clinical Results with PMMA Beads as an
Antibiotic Delivery System ... 61

H. G. K. Schmidt, C. H. Siebert, S. Lösel

Mineral Biomaterials

New Developments in Implant Coatings:
Biomimetics and Tissue Engineering ... 77

J. D. de Bruijn, C. A. van Blitterswijk

Bone Graft Substitutes: Clinical Studies using
Coralline Hydroxyapatite ... 83

E. C. Shors

Bone Substitutes as Drug Carriers ... 90

B. Nies

Resorbable Synthetic Polymers

Bioresorbable Synthetic Polymers
and their Operation Field ... 97

M. Vert

Bioresorbable Polymers as Materials
in Osteosynthesis ... 102

P. Patka, T. E. Otto, M. van der Elst,
H. J. Th. M. Haarman, F. C. Bakker

Properties of the Biomaterial "Polyactive":
In vivo Animal Studies and the
First Clinical Results ... 106

S. K. Bulstra, R. Kuijer, S. J. M. Bouwmeester,
D. J. Bakker, C. A. van Blitterswijk,
N. H. M. Hoefnagels, R. Van den Munckhof

Development of a Biodegradable Wound
Covering and First Clinical Results ... 112

Ch. Jürgens, H.-R. Kricheldorf, I. Kreiser-Saunders

Bioresorbable Polymers as Drug
Delivery Systems ... 121

A. Göpferich

First Results with a New Class of Bioresorbable
Oligomers and Visions ... 128

H.-J. Pfefferle

First Results with a Bioresorbable
Bone Glue ... 132
R. Wenz

Index ... 137
