CHAPTER 1

Workflow Reengineering I

What Is Workflow? 3

Rebuilding the Workflow 4

Multiple workflows 6

The Assembly Line 7

Job Jacket Mentality 8

Air Traffic Control 8

Systems Analysis 10

Back to Front 11

Workflow and Profit 12

People 12

The Art and Attitude of Management 13

CHAPTER 2

From Creator to Producer 16

The Old Workflows 17

Who Is the Creator? 18

Taming the Wild Workflow 19

Job Definitions 19

Job Killers 21

Workflow and Training Upstream	22
External Responsibility	23
Internal Responsibility	24
Working with Clients	25
Specific Problem Areas	26
Who is the Producer?	28

CHAPTER 3 Real-World Operations and Their Workflows 31

Lanman Lithotech	33
Artlab	38
Buchanan Printing	46
<i>St. Petersburg Times</i>	53
Graphics Express	58
Gamma One	61
West Marine	67

CHAPTER 4 Mapping Workflows 74

The Five Markers	76
Isolating Workflows	79
Matching Skill Sets to Workflows	83
Tools for Mapping Workflows	85

Strategic Approaches: Process Improvement Points 95

PIP 1: Training Clients Upstream	97
PIP 2: Staff Training	100
PIP 3: System Integration Upstream	103
PIP 4: The Salesperson as a Member of the Production Team	105
PIP 5: Intracompany Communication	108
PIP 6: The Role of the Customer Service Representative	110
PIP 7: Estimating Costs and Ongoing Cost Feedback	112
PIP 8: Preflighting Level 1	115
PIP 9: Preflighting Level 2	117
PIP 10: File Repair	120
PIP 11: Catching Output Errors	122
PIP 12: Organizational Structure	124
PIP 13: Cross-Training	127
PIP 14: Job Descriptions	129
PIP 15: Management Involvement	131
PIP 16: Determining Processes at the Client Site	133
PIP 17: Feedback and Reward Systems	135
PIP 18: Finding and Correcting Errors	137
PIP 19: Time Scheduling and Load Balancing	140
PIP 20: Ownership of the Project	142
PIP 21: Latency	144
PIP 22: Trapping	148

PIP 23: Proofing	151
PIP 24: Pickups and Archiving Strategies	153
PIP 25: A Formal Approach to Information Services	156
PIP 26: Commonality of Processes	158
PIP 27: Print Servers	160
PIP 28: File Servers	163
PIP 29: The RIP	166
PIP 30: Imposition	168
PIP 31: Telecommunications	171
PIP 32: Calibration	174
PIP 33: Job Bags	177
PIP 34: Architectural and Environmental Considerations	179
PIP 35: Facilities Management (Outsourcing)	182
PIP 36: A Plan for Continual Improvement	184

CHAPTER 6

The Database 187

Why Collect Information in the First Place?	189
Where Do I Start?	191
Defining a Database	194
Data Collection	195
Reports Come in Many Shapes and Sizes	197
Creating the Database	199
The Image Database	201
The Project Database	206

Relationships between Different Types of Data	208
A Snapshot of Current Technology	213

CHAPTER 7 Automating Workflows 217

Digital Workflows	219
Defining a Production Event	222
Requirements for an Automated Solution	224
Automation and the Role of Servers	226
The OPEN Strategy	228
Gradual Automation	229

CHAPTER 8 What's Next 231

The Basics	232
Tracking and Routing Projects	233
The Role of PostScript	234
PDF and Document Portability	235
Device Independence	237
New Tools	238
When to Do What?	241
Can You Automate a PostScript page?	243
Conclusion	245
Bibliography	249
Index	251
