

Preface	III
Introduction: How Slice of Life has made its way to Munich.....	V
Previous Slice of Life Workshops	X
Distance Education Program for Family Health Teams in the State of Mato Grosso / Brazil	3
<i>Ernesto Gomes de Azevedo; Eliane Ignotti; Elisete Duarte; Eunice Godoy</i>	
The First Three Years of Use of the CATHSIM™	11
<i>Virginia L. Barker, Ed.D., R.N.</i>	
The Computer-assisted Learning In Pediatrics Project (CLIPP): National consensus and development of a comprehensive computer assisted instruction program.....	23
<i>Norman Berman, Leslie Fall, Ardis Olson</i>	
UPGRADING A THIRD WORLD MEDICAL SCHOOL FOR THE NEW MILLENNIUM.....	31
<i>Emmanuel Besa, M.D. and Alvin B. Marcelo, M.D.</i>	
Mrs. Fisher Tells Her Story: An interactive Web based learning tool to assist medical students with history taking and case report writing skills.	43
<i>John Bradley, Joyce Nyhof-Young, Hance Clarke, Errol Colak, & Ronald Macdonald</i>	
Clinical Anatomy – Reaching family physicians with CD-ROM and electronic communication.....	47
<i>J.M. Boon, J.H. Meiring, M.D. Scheepers, M. Smith, M. Loots, H. Wolmarans, J.A. Boon</i>	
"Beyond Me" – an integrated program for medical student personal and professional development	61
<i>Dr Glyn Brokensha</i>	

How can Computers assist the Students in the learning of clinical Medicine? Wie können Computer den Studenten in seinem Bestreben unterstützen, klinische Medizin zu lernen?	71
<i>Christof Daetwyler</i>	
Introducing the Health Education Assets Library: a National Multimedia Repository.	97
Sharon Dennis ¹ , MS, Sebastian Uijtdehaage ² , PhD, Chris Candler ³ , MD	
97	
Supporting Medical Mathematics with Scriptable XML: The FORMOSA Language	103
<i>Johannes W. Dietrich, Matthias F. Holzer, Martin R. Fischer</i>	
Streamlining the Development of Medical Courseware	117
<i>Mathijs Doets, Emely J. Spierenburg</i>	
Interactive Computer-Based-Training in Medicine – an example from Emergency Medicine.....	127
<i>M. Dugas, F. Christ, F. Demetz, M. Batschkus, K. Überla</i>	
The Bristol Biomedical Image Archive: Promoting Image Use in the Biomedical Fields	137
<i>Jill Evans</i>	
CASK: a clinically based interactive multi-learning-approach anatomy program.....	147
<i>O.P. Gobée, A.C.G. Wenink, J.M. van Baalen, R.E. Poelmann, P.M. Bloemendaal, A.C. Gittenberger-de Groot</i>	
The Use of Lotus Notes(c) QuickPlace(c) as a Web Development Tool: Reducing the Medical Educator's Reliance on IT Staff and Enhancing Autonomy.....	157
<i>Craig W. Goodmurphy, Peter H. Abraham, Robert L. Jordan, Don E. Wheeler, Anthony J. Schmidt</i>	

Improving international collaborative computer supported learning of community health by exploiting socio-cultural and economical differences between countries.	167
<i>Bengt Kaysera, Anouk Bergera, Daniel Scherlya, Roberto Morettib, Philippe Chastonayb, Abdallah Bchirc, Mohamed Soltanic, Rafic Baddourad, Négib Geahchand, Pierre Farahd, Innocent Takougange, Charles Bengondoe, Peter Ndumbee, Pierre Dillenbourg</i>	
MedVoice: Internet based language training for medical students and doctors.....	179
<i>Langkafel P1, Arnold U, Oehlsen A, Vijande M, Johannesen LM, Kamps H, Ryen E, Ritzenhoff S</i>	
Implementation and Evaluation of Neuroscience Technology Resources for Second-year Medical Students.....	189
<i>Kathryn L. Lovell and Mark W. Hodgins</i>	
The Genesis of a Case-based Authoring Shell: From PlanAlyzer to Video-Atlas to CIMAS to CASUS/ProMediWeb and Lessons Learned from Each	195
<i>Harold C. Lyon, Jr. Ed.D., Martin R. Fischer, MD</i>	
Biomedical Research Education & Training Web-Based Applications, Management, and Delivery	207
<i>Chanchai Singhanayok McDonald, Ph.D. Roger Chalkley, D. Phil.</i>	
Case Tool: A Database-driven, Web-based interface for authoring and presenting case simulations.....	217
<i>Veronica E. Michaelsen, John Jackson, Haiyan He</i>	
Finding Fingerprints on the Screen: Formative Evaluation of a Computer-based Cancer Patient Education Program.....	231
<i>Nyhof-Young, J., Jones, J., Friedman, A & Catton, P.</i>	

The Concept of Using an Electronic Instructional System in the Therapy of Arrhythmia	239
<i>N. Osada, C. Ramon, B. Elbrecht, P. P. Bastani, W. Köpcke, W. Haverkamp</i>	
A Tool for Developing On-Line Cases for Medical Education	249
<i>Anju Relan, PhD</i>	
Instructional Strategies for On-Line Cases:	
Pediatric Genetics Cases at UCLA.....	257
<i>Anju Relan, PhD, Pedro Sanchez</i>	
CAMPUS: A Simulative, Flexible, Case-oriented Web-based Training System for Multi-Purpose Use in PBL-Curricula.....	267
<i>Jens Riedel, Reiner Singer, Jörn Heid, Franz Josef Leven, Kai Schnabel, Burkhard Tönshoff, Sabine Köpf, Jana Jünger</i>	
Course Website Development in an Alternative HealthCare Setting...	279
<i>Greg W. Taylor, Ph.D.</i>	
Web-based video clips, economically produced, to enhance recognition of neurological disorders by preclinical med students	285
<i>Robert H. Thalmann, Ph.D.</i>	
Learning to do Research and to Use Computers in a New Medical Curriculum.....	295
<i>Robert Trappl, Richard Marz</i>	
A Web Site To Assist In The Diagnosis Of Canine Uroliths.....	303
<i>James Waddell, Ph.D.</i>	
Digital Document Delivery in West Virginia: Supporting Health Care Education Through Technology	309
<i>Nancy J. Wasson, MLS</i>
