EUROPEAN SYMPOSIUM ON ENVIRONMENTAL EPIDEMIOLOGY

Bremen • November 13 - 14, 1995

1. OPENING REMARKS

M.-Th. van der Venne

Public Health Activities in the European Commission 2

2. INDUSTRIAL ACCIDENTS AS CAUSE FOR ENVIRONMENTAL HEALTH RISK

P. A. Bertazzi, A. C. Pesatori, C. Zocchetti

Industrial Accidents as Cause for Environmental Health Risk:

The Seveso Episode 6

U. Heudorf, M. Peters

Chemical Accident at Hoechst AG Frankfurt/Main, Germany, 1993 -

Environmental Pollution, Redevelopment, Investigation of Internal

Exposure of the Population, Risk Assessment and Ongoing Studies 18

R. Frentzel-Beyme, K. H. Greiser

Exposure-Registry for the Population Exposed during an Accident in a

Chemical Factory in Frankfurt - Design and Implementation 34

I. Kandt, N. Osius, B. Höldke, W. Karmaus

The Role and Advantage of Community Activists in

Epidemiological Studies 44

K. Golka, S. E. Reich

Risk Factors for Malignant Tumours of the Urinary Bladder and the

Prostate in the German East Ruhr Area 51

U. Franzkeit, A. Nienhaus, D. Flesch-Janys, K. Böhme,

A. Manz, J. Berger

Occupational Exposure to PCDD/PCDF and

Emotional Complaints and Deficits 63

U. Ackermann-Liebrich, M. Krzyzanowski <i>Epidemiological Assessment of Health Effects of Environmental Chemical Accidents and Disasters</i>	73
--	----

Th. Abelin, J. P. Bleuer, J. I. Averkin <i>Children as a Group at Increased Risk: Thyroid Cancer Following the Chernobyl Accident</i>	80
---	----

3. EPIDEMIOLOGICAL TASK FORCE: CONCEPT OF A FIRE BRIGADE FOR ENVIRONMENTAL ACCIDENTS

S. D. Acquilla, P. Cullinan, R. Bertell <i>Role of the International Medical Commission on Bhopal as an Epidemiological Task Force in a Study to Assess Long-Term Health Effects</i>	90
--	----

R. Fertmann, M. Schümann <i>Interim-Balance of an Environmental Health Study: The Bille-Project in Hamburg</i>	104
--	-----

T. Stürmer, W. Karmaus <i>Methodological Considerations in Choosing the Study Population for Epidemiologic Studies of Environmental Accidents</i>	113
---	-----

R. Fehr, K. Prätör, A. van der Veen, G. Jukes <i>Environmental Health Information Management (EHIM): Development of a European System</i>	125
---	-----

H. Gottwald, B. Kaiser, L. Müller <i>Environmental Health Impact Assessment (EHIA) as Part of the Environmental Impact Assessment (EIA)</i>	146
---	-----

4. LEUKAEMIA AND MALIGNANT LYMPHOMA AS INDICATOR DISEASES FOR ENVIRONMENTAL RISKS

E. Greiser, I. Schäfer, W. Hoffmann, W. Schill, K. Hilbig, H. Weber <i>Risk Factors of Leukaemias and Malignant Lymphomas in Three Counties around a Toxic Waste Dump</i>	153
---	-----

M. Schümann, S. von Manikowsky, C. Baumgardt-Elms, A. Hort, H. Brand <i>Methods of Spatial and Temporal Analysis of Childhood Leukaemia in Hamburg (1980-1994) Based on Cancer Registry Data</i>	171
--	-----

W. Hoffmann, E. Greiser <i>Increased Incidence of Leukaemias in the Vicinity of the Krümmel Nuclear Power Plant in Northern Germany</i>	185
---	-----

G. Motykiewicz, J. Michalska, E. Kalinowska, E. Grzybowska, J. Pendzich, F. Perera, M. Chorazy, R. Santella <i>Molecular Epidemiology of Environmental Related Cancer: Risk Assessment in Upper Silesia</i>	207
---	-----

5. LOW FREQUENCY ELECTROMAGNETIC FIELDS AS ENVIRONMENTAL FACTORS

J. Olsen <i>Electromagnetic Fields and Childhood Cancer: Research Experience from Denmark, Sweden and Finland</i>	216
J. Schüz, R. Meinert, J. Michaelis, A. Stamm, M. Menger <i>Electromagnetic Fields and Childhood Cancer: Results of a Meta-Analysis and Overview of a Current German Population-Based Case-Control Study</i>	223
S. von Manikowsky, U. Boikat, St. Hentschel, H. Neus <i>Electromagnetic Fields from High Tension Powerlines and Childhood Cancer: Overview of Epidemiological Studies and Conclusions for City Planning</i>	233
Th. Abelin, E. Altpeter <i>Sleep Disorder around a Short Wave Radio Transmitter</i>	249
M. P. Jaumann <i>Neurotoxic Environmental Pollution Causes Sleep Apnoe Syndrome and Brainstem Disorders</i>	257
R. Frentzel-Beyme, K. H. Adzersen <i>Proposal of an Epidemiological Study on Cellular Phone Users</i>	261

6. CHILDREN AND THEIR ENVIRONMENT: ARE CHILDREN EXPOSED TO ENVIRONMENTAL FACTORS WHICH EXPECTEDLY POSE HEALTH RISKS?

K. E. von Mühlendahl, M. Otto <i>Environmental Aspects in Pediatrics</i>	266
W. Karmaus, N. Osius <i>Environmental Exposure during Childhood has to be Assessed Differently from Exposure during Adulthood</i>	268
W. Jedrychowski, E. Flak <i>Confronting the Prenatal Effects of Active and Passive Tobacco Smoking on the Birth Weight of Children. The Cracow Study</i>	276
T. Pless-Mulloli, J. Tate, D. Howel <i>Planning Environmental Studies in the UK Context</i>	292
E. von Mutius, F. D. Martinez, Ch. Fritzsche, Th. Nicolai, G. Roelli, H.-H. Thiemann, St. Weiland <i>The Role of Environmental Factors in Atopic Diseases in East and West Germany</i>	299
H. Danker-Hopfe, B. Hulanicka <i>Does Lead Exposure Influence the Timing of Sexual Maturation in Girls?</i>	314

I. Farkas, P. Rudnai, K. Sajgó, A. Horváth, A. Páldy <i>Biological Markers as Health Indicators of Children in Cross Sectional Environmental Epidemiological Studies</i>	327
--	-----

U. Ranft, G. A. Wiesmüller, R. Dolgner <i>The Diary as an Instrument in Air Pollution Exposure Assessment for Children</i>	340
--	-----

7. EPIDEMIOLOGY OF CONGENITAL MALFORMATIONS

U. G. Froster <i>Epidemiology of Congenital Malformations of the Limbs</i>	353
--	-----

I. Figa'-Talamanca <i>Effects of Environmental and Occupational Exposures on Human Reproduction and on the Offspring</i>	359
--	-----

J. Revazova, N. Ilyinskikh, V. Druzhinin <i>Quality of Environment in Siberia (Kemerovo and Tomsk Area) and Genetic Damages in Children</i>	377
---	-----

P. Leurquin, M. F. Lechat <i>Epidemiology of Defects of the Extremities: The EUROCAT Experience</i>	386
---	-----

G. R. J. Zandwijken, H. E. K. De Walle, D. Lindhout, M. C. Cornel <i>Increase of Limb Reduction Defects in Coastal Areas? Findings in the Netherlands</i>	396
---	-----

St. Böse-O'Reilly <i>Is there a Possibility of a Cluster of Limb Malformation in Northern Germany?</i>	403
--	-----

E. Greiser <i>A Retrospective Registry of Specific Congenital Malformations in Hamburg City 1969 - 1984: Environmental and Social Aspects</i>	406
---	-----

M. F. Lechat <i>Congenital Anomalies: Lessons from the Meeting</i>	407
--	-----

8. OVERVIEW AND CONCLUSIONS..... 411
