Organization structures	107
From function to process	109
A systems view of organizations	112
Organizational roles	113
Rules of behaviour	114
Authority	115
A sense of ‘self’	117
Summary	119
Chapter 7 Getting the best out of individuals	121
Individual differences	122
Individual personalities	122
Diversity	126
Individual abilities	127
Individual learning styles	130
Setting individual objectives	132
Individual aims	132
Individual objectives	135

Individual targets	137
Individual feedback	139
Individual motivation	140
Summary	143
Chapter 8 Getting the best out of groups and teams	145
Working in groups	145
Division of labour and scientific management	145
From reducing cost to improving quality	147
The challenge of leading and managing workgroups	149
Group dynamics	150
From groups to teams	152
What makes a group a team?	153
Teamworking	154
Summary	156
Chapter 9 Handling conflict	159
Conflict and its causes	159
The nature of conflict	160
What causes conflict?	161
Resolving conflict	163
Conflict management styles – between other people	165
Conflict management styles – when you are involved	167
Using your leadership ability	168
Summary	169
Chapter 10 Leadership in a crisis	171
What is a crisis?	171
What causes crises?	173
The role of the leader in crisis	177
Headless chicken syndrome	177
Take decisive action with only partial or uncertain information	178
In a crisis, people can achieve more than they realize	180
Learning from crises	180
Summary	182

Chapter 11	Leading improvement	183
	We all know what quality is, don't we?	183
	What really matters is continuous improvement	185
	Everyone is committed to improvement, aren't they?	187
	Using standards	189
	Leading improvement	190
	1 Agreeing and clarifying the problem – what is it that needs improving?	191
	2 Collecting and analysing information about the problem	192
	3 Identifying the root cause of the problem – what really causes it to happen?	195
	4 What constraints are there on resolving the problem?	197
	5 What options are available to resolve the problem?	197
	6 Which option is most likely to resolve the problem best?	197
	Leading excellent performance	197
	Summary	199
Chapter 12	Leading innovation	201
	Understanding creativity and innovation	201
	Encouraging creativity	202
	From creativity to innovation	205
	Leading innovation	207
	Leadership, innovation and risk	210
	Innovation and power	211
	Summary	214
Chapter 13	Leading change	217
	Why change?	217
	Leadership in a 'weightless world'	219
	The pressures for change	219
	The ability to change	221
	Business process re-engineering	223
	A different perspective	223
	Being a change leader	225

Styles of change management	225
Learning from Kurt Lewin	227
Overcoming barriers to change	229
Working with a change team	231
Summary	234
Appendix What level of leader/manager are you?	237
<i>Index</i>	241
