| Introduction .....                                                 | 17  |
| Part I. Feyerabend's Philosophical Development.....                | 25  |
| 1. Facing Feyerabend. Some preliminary problems.....               | 25  |
| 1.1. The wide range of interpretations .....                       | 25  |
| 1.2. Rhetoric, polemic and provocation .....                       | 30  |
| 1.3. Referencing and reliability .....                             | 39  |
| 2. Ludwig Wittgenstein. Meaning and ontology .....                 | 43  |
| 2.1. Feyerabend's distinction between meaning and use .....        | 46  |
| 2.2. Feyerabend's critique of Wittgensteinianism.....              | 70  |
| 2.3. Feyerabend's adoption of nominalism .....                     | 74  |
| 2.4. Conclusions.....                                              | 75  |
| 3. Karl Popper. Using and abusing critical rationalism.....        | 77  |
| 3.1. Falling for falsificationism .....                            | 80  |
| 3.2. Critical rationalist elements in Feyerabend's philosophy..... | 84  |
| 3.3. From critical rationalism to incommensurability.....          | 94  |
| 3.4. Casting off critical rationalism .....                        | 107 |
| 4. Felix Ehrenhaft. The impotence of experiment .....              | 116 |
| 4.1. Ehrenhaft, oil drops and experimental effects .....           | 116 |
| 4.2. The impotence of Ehrenhaft's experiments .....                | 119 |
| 4.3. Conclusions.....                                              | 121 |
| Part II. Feyerabend's Assault on Conceptual Conservatism.....      | 123 |
| 5. Incommensurability as attack on conceptual conservatism.....    | 123 |
| 5.1. Preliminaries .....                                           | 123 |
| 5.2. Formal accounts of reduction and explanation (1962).....      | 134 |
| 5.3. Niels Bohr and the principle of complementarity (1958).....   | 165 |

|                                                                      |     |
|----------------------------------------------------------------------|-----|
| 5.4. Physics and ontology (1954) .....                               | 168 |
| 5.5. Werner Heisenberg and cumulative progress (1951) .....          | 169 |
| 5.6. Logical Positivism and protocol sentences (1949-1958) .....     | 171 |
| 5.7. Pierre Duhem and theoretical transitions (1906).....            | 174 |
| 5.8. Conclusions.....                                                | 178 |
| 6. Incommensurability and scientific realism.....                    | 180 |
| 6.1. Scientific realism vs. normative realism .....                  | 181 |
| 6.2. Feyerabend's normative realism .....                            | 188 |
| 6.3. Feyerabend's anti-realism .....                                 | 192 |
| 6.4. Conclusions.....                                                | 204 |
| Part III. Feyerabend's Philosophical Pluralism .....                 | 206 |
| 7. Feyerabend's methods.....                                         | 207 |
| 7.1. A new methodology?.....                                         | 207 |
| 7.2. Constructive critiques.....                                     | 215 |
| 7.3. <i>Ad hominem</i> arguments.....                                | 220 |
| 8. The role of alternatives in promoting progress.....               | 227 |
| 8.1. Feyerabend's pluralistic test-model.....                        | 227 |
| 8.2. Incommensurability as an argument for pluralism.....            | 235 |
| 8.3. Feyerabend's methodological argument for pluralism.....         | 245 |
| 8.4. Entropy and anomaly: The case of Brownian Motion .....          | 253 |
| 8.5. Feyerabend's pluralistic conception of knowledge.....           | 260 |
| 9. Feyerabend's philosophical pluralism (1950s-1990s).....           | 262 |
| 9.1. Commitments and perspectives .....                              | 262 |
| 9.2. Pluralism and opportunism.....                                  | 270 |
| 9.3. From philosophical pluralism to epistemological anarchism ..... | 281 |
| Conclusions: Feyerabend's Philosophy? Pluralism for Progress .....   | 284 |
| Literature .....                                                     | 289 |
| Index.....                                                           | 317 |
