

Contents

Preface	ix
Knots and statistical mechanics LOUIS H. KAUFFMAN	1
An introduction to topological field theory R. J. LAWRENCE	89
Vassiliev and quantum invariants of braids DROR BAR-NATAN	129
The modern legacies of Thomson's atomic vortex theory in classical electrodynamics SAMUEL J. LOMONACO, JR.	145
Spin networks in nonperturbative quantum gravity JOHN C. BAEZ	167
Index	205
