
Table of Contents

Acknowledgements	vii
Preface	ix
Notation	x
Introduction	xiii
0. Duality and Fourier analysis	1
1. Background philosophy	16
2. Operator norm inequalities	18
3. Dual norm inequalities	25
4. Exercises: Including the Large Sieve	32
5. The method of the stable dual (1): Deriving the approximate functional equations	48
6. The method of the stable dual (2): Solving the approximate functional equations	52
7. Exercises: Almost linear, Almost exponential	68
8. Additive functions of class $\mathcal{L}^\alpha$. A first application of the method	79
9. Multiplicative functions of the class $\mathcal{L}^\alpha$: First Approach	84
10. Multiplicative functions of the class $\mathcal{L}^\alpha$: Second Approach	93
11. Multiplicative functions of the class $\mathcal{L}^\alpha$: Third Approach	101
12. Exercises: Why the form?	111

13.	Theorems of Wirsing and Halász	115
14.	Again Wirsing's Theorem	122
15.	Exercises: The prime number theorem	127
16.	Finitely distributed additive functions	133
17.	Multiplicative functions of the class $\mathcal{L}^\alpha$. Mean value zero	139
18.	Exercises: Including logarithmic weights	148
19.	Encounters with Ramanujan's function $\tau(n)$	151
20.	The operator T on L^2	159
21.	The operator T on L^α and other spaces	169
22.	Exercises: The operator D and differentiation. The operator T and the convergence of measures	183
23.	Pause: Towards the discrete derivative	190
24.	Exercises: Multiplicative functions on arithmetic progressions. Wiener phenomenon	205
25.	Fractional power Large Sieves. Operators involving primes	211
26.	Exercises: Probability seen from number theory	232
27.	Additive functions on arithmetic progressions: Small moduli	235
28.	Additive functions on arithmetic progressions: Large moduli	239
29.	Exercises: Maximal inequalities	254
30.	Shift operators and orthogonal duals	271
31.	Differences of additive functions. Local inequalities	275
32.	Linear forms in shifted additive functions	285
33.	Exercises: Stability. Correlations of multiplicative functions	295
34.	Further readings	302
35.	Rückblick (after the manner of Johannes Brahms)	320
	References	321
	Author index	333
	Subject index	335
