

Table of Contents

1. Historical background	6
2. Introduction	6
3. Indications for Laparoscopic Radical Prostatectomy	7
3.1 Technical Difficulties	7
3.2 Specific Contraindications	7
3.3 Patient Preparation	7
4. Surgical Technique (Transperitoneal Approach)	8
4.1 Transperitoneal Access To The Retzius Space	8
4.2 Santorini Plexus Control and Transsection	8
4.3 Apical Dissection	10
4.4 The Non-Nerve-Sparing Technique	10
4.5 The Nerve-Sparing Technique	11
4.6 Bladder Neck Incision	12
4.7 Division Of Lateral Pedicles And Dissection Of Seminal Vesicles	12
4.8 Urethro-Vesical Anastomosis	12
4.9 Reconstruction Of The Bladder Neck	13
4.10 Retrieval Of Specimen	14
4.11 Complications	14
5. Discussion	16
