Introduction	9
1 Nonlinear Variational Problems	12
1.1 Free and Moving Boundary Problems	12
1.1.1 Deformation of a Membrane with a Rigid Obstacle	13
1.1.2 A Semi-Discrete Stefan Problem	15
1.1.3 The Semi-Discrete Porous Medium Equation	19
1.2 Convex Minimization	22
1.2.1 The Continuous Problem	22
1.2.2 Variational Inequalities	26
1.2.3 Subdifferentials	32
1.3 Finite Element Discretization	36
1.3.1 The Discrete Problem	36
1.3.2 Convergence Results	38
2 Relaxation Methods	44
2.1 Basic Convergence Results	45
2.1.1 Gauß-Seidel Relaxation	45
2.1.2 Extended Relaxation Methods	51
2.2 Monotone Approximations	55
2.3 Asymptotic Properties: The Linear Reduced Problem	59

3	Monotone Multigrid Methods	65
3.1	Standard Monotone Multigrid Methods	66
3.1.1	The Multilevel Nodal Basis	66
3.1.2	Quasioptimal Approximations	69
3.1.3	Quasioptimal Restrictions	74
3.1.4	A Standard Multigrid V-Cycle	77
3.2	Truncated Monotone Multigrid Methods	79
3.2.1	Truncation of the Multilevel Nodal Basis	79
3.2.2	Quasioptimal Approximations and Restrictions	81
3.2.3	A Truncated Multigrid V-Cycle	82
3.3	Asymptotic Convergence Rates	83
3.3.1	A Modified Hierarchical Splitting	83
3.3.2	Final Convergence Results for the Standard Version	87
3.3.3	Final Convergence Results for the Truncated Version	91
4	A Posteriori Error Estimates and Adaptive Refinement	93
4.1	A Posteriori Estimates of the Approximation Error	94
4.1.1	A Discrete Defect Problem	95
4.1.2	An Error Estimate Based on Preconditioning	98
4.1.3	An Error Estimate Based on Nonlinear Iteration	103
4.2	A Stopping Criterion for the Adaptive Algorithm	108
4.3	Error Indicators and Local Refinement	108
4.4	A Stopping Criterion for the Iterative Solver	110

5	Numerical Results	113
5.1	Deformation of a Membrane with a Rigid Obstacle	113
5.1.1	The Adaptive Multilevel Method	114
5.1.2	The Monotone Multigrid Methods	116
5.1.3	The A Posteriori Error Estimates	118
5.2	A Strongly Reverse Biased p-n Junction	120
5.2.1	The Adaptive Multilevel Method	123
5.2.2	The Monotone Multigrid Methods	124
5.2.3	The A Posteriori Error Estimates	126
5.3	Continuous Casting	127
5.3.1	The Adaptive Multilevel Method	131
5.3.2	The Monotone Multigrid Methods	135
5.3.3	The A Posteriori Error Estimates	137
5.4	The Porous Medium Equation	138
5.4.1	The Adaptive Multilevel Method	140
5.4.2	The Monotone Multigrid Methods	143
5.4.3	The A Posteriori Error Estimates	144
	Notation	156
	Index	158
