2	ORGANIZATION OF LIBRARY AUTOMATION ACTIVITIES	7
	Chapter Outline	7
	Chapter Objectives.....	8
	Introduction.....	8
	Organizational Change.....	9
	Management and Leadership.....	9
	Staff.....	10
	Organizational Relations.....	10
	Library Automation Tasks	11
	Problem Identification and Planning	11
	Objectives	12
	Constraints	12
	System Analysis and Design.....	12
	Testing.....	13
	Conversion	14
	Operation	15
	Training.....	15
	Evaluation.....	16
	Purchasing versus Building a Library Automation System	16

Summary and Review	17
Review Questions and Exercises	17
Further Reading.....	18

3 COMPUTER SYSTEM CONFIGURATIONS 21

Chapter Outline	21
Chapter Objectives.....	21
Introduction.....	21
Hardware System Configurations.....	22
Software Configurations.....	25
Operating Systems	25
Applications Programs	27
Summary and Review	27
Key Terms	27
Review Questions and Exercises	27
Further Reading.....	28

4 DISK DRIVES AND DISK FILES 29

Chapter Outline	29
Chapter Objectives.....	29
Introduction.....	30
Disks	30
Disk Drives	31
Fixed- and Variable-Length Records	33
Data Storage on Disks	34
Buffers	36
Application Program Access to Disk Data	37
Performance Characteristics of Disk Drives	39
Summary and Review	39
Key Terms	40
Review Questions and Exercises	40
Further Reading.....	41

5 ONLINE CATALOGS 43

Chapter Outline	43
Chapter Objectives.....	43
Introduction.....	44
User-System Interaction.....	45
Online Catalog File Structure	46

Postings Files	51
Variable-Length Bibliographic Records	52
Holdings Files.....	62
Authority Control in Online Catalogs.....	64
Online Catalog with Authority Index and Cross-References	71
Search and Maintenance Operations.....	78
Summary and Review	79
Key Terms	80
Review Questions and Exercises	80

6 LIBRARY CIRCULATION SYSTEMS 83

Chapter Outline	83
Chapter Objectives.....	83
Introduction.....	84
Interface Design	84
File Structures for Circulation Systems	85
Borrower and Bibliographic Files	88
Variable-length Borrower and Bibliographic Files	92
Holdings File and Circulation Chains	98
Circulation System with Reserves	102
Overdue Processing.....	107
Circulation System Operations	107
Summary and Review	109
Key Terms	109
Review Questions and Exercises	109

7 LIBRARY ACQUISITIONS SYSTEMS 111

Chapter Outline	111
Chapter Objectives.....	111
Introduction.....	112
File Structures for Acquisitions Systems	112
Acquisitions System with Holdings and Location Files.....	117
Accounting.....	120
Acquisitions Correspondence.....	123
Invoice Management.....	124
Acquisitions System Functions	129
Order Function	129
Receiving Function	130
Claiming Function.....	130

Cancellation Function	130
Returns Function.....	131
Statistics Function.....	131
Summary and Review.....	131
Key Terms	132
Review Questions and Exercises.....	132

8 LIBRARY SERIALS SYSTEMS 133

Chapter Outline	133
Chapter Objectives.....	133
Introduction.....	134
Serials Bibliographic and Holdings Files	134
MARC Holdings Format	137
Serials System Design	138
Serials System Example.....	143
Serials System Functions	145
Order Function	145
Check-in Function	146
Returns Function.....	146
Claiming Function.....	146
Cancellation Function	147
Binding Function.....	147
Routing Function.....	148
Summary and Review.....	148
Key Terms	148
Review Questions and Exercises.....	148
Further Reading.....	149

9 RELATIONAL DATABASE DESIGN FOR AN INTEGRATED LIBRARY AUTOMATION SYSTEM 151

Chapter Outline	151
Chapter Objectives.....	151
Introduction.....	152
Integrated File Structure	152
Query Operations.....	162
Online Catalog Retrieval Functions	162
Acquisitions System Order Function.....	163
Serials System Claim Function	163
Circulation System Reserve Functions	164

Summary and Review	164
Key Terms	164
Review Questions and Exercises	165
Further Reading.....	165

9A INTEGRATED DATA DICTIONARY FOR LIBRARY AUTOMATION 167

Bibliographic File Data Dictionary	168
Holdings File Data Dictionary	169
Supplier File Data Dictionary	171
Location File Data Dictionary	172
Correspondence File Data Dictionary.....	173
Letter File Data Dictionary	175
Account File Data Dictionary	175
Account Transaction File Data Dictionary	176
Address Structure Data Dictionary	177
Contacts Structure Data Dictionary	177
Enumeration Structure Data Dictionary.....	178
Online Catalog Authority Index File Data Dictionary.....	178
Circulation System Borrower File Data Dictionary.....	179
Circulation System Circulation File Data Dictionary.....	180
Circulation System Reserve File Data Dictionary	181
Order File Data Dictionary.....	182
Invoice File Data Dictionary	184
Serials System Binding Specifications File Data Dictionary	184

Part II

INTRODUCTION 187

10 FILE MANAGEMENT 189

Chapter Outline	189
Chapter Objectives.....	189
Introduction.....	190
Management of Files with Fixed-Length Records	191
Space Management in Files with Fixed-Length Records	192
Management of Files with Variable-Length Records.....	198
Space Management in Files with Variable-Length Records	199
Reading and Writing Variable-Length Records	206

Summary and Review	207
Key Terms	208
Review Questions and Exercises	208
Further Reading.....	209

11 INDEXES 211

Chapter Outline	211
Chapter Objectives.....	211
Introduction.....	212
Sequential Index File.....	213
B-Trees.....	213
Adding Records to a B-Tree	221
Deleting Records from a B-Tree.....	230
Example of Deleting Keys from a B-Tree	234
B-Tree Functions	240
B+ Trees.....	240
B+ Tree Node Structure	243
Adding Records to a B+ Tree	245
Deleting Records from a B+ Tree.....	252
Summary and Review	256
Key Terms	256
Review Questions and Exercises	258
Further Reading.....	258

12 INTEGRATED FILE MANAGEMENT 259

Chapter Outline	259
Chapter Objectives.....	259
Introduction.....	259
File Catalog	260
Integrated File Operations	264
Summary and Review	265
Key Terms	266
Review Questions and Exercises	266

13 POSTINGS FILES 267

Chapter Outline	267
Chapter Objectives.....	267
Introduction.....	268

Postings File Structure	268
Ordering of Identification Numbers in Postings Records	272
Postings File Maintenance Functions	273
Unordered Identification Numbers on Blocks	274
Ordered Identification Numbers on Blocks	275
Postings Algorithm Examples	278
Memory Management of Identification Numbers	280
Postings File Functions	282
Summary and Review	282
Key Terms	282
Review Questions and Exercises	283

14 MARC RECORD MANAGEMENT 285

Chapter Outline	285
Chapter Objectives	285
Introduction	286
MARC Record Structure	286
Advantages and Disadvantages of the MARC Format for Storing Bibliographic Data	293
A Flexible Data Structure for a MARC Record	296
Parsing a MARC Record into a Linked List	301
Example: Parsing a MARC Record	305
Building MARC Records	307
Program to Build Linked List	308
Example: Building a MARC Record	311
Summary and Review	322
Key Terms	322
Review Questions and Exercises	322
Further Reading	324

Part III

INTRODUCTION 325

15 SEARCH PROCEDURES 327

Chapter Outline	327
Chapter Objectives	328
Introduction	328

The Search Process	329
Searching Procedures	330
Key Truncation	331
Key Normalization.....	332
Proximity and Range Searching	334
Other Search Problems	335
Searching with Index Files	335
Boolean Searching.....	336
Browsing.....	337
Search Command Languages	338
Using Lex and Yacc.....	342
Search Execution.....	351
Search Example	353
Saved Sets	356
Linked Lists.....	359
Boolean Operations.....	361
Pairwise Comparison of Lists.....	362
Sort/Merge Methods for Comparing Lists.....	366
Hash Procedures for Comparing Lists.....	367
Hash Functions for Internal List Management	370
Boolean Operations Using a Hash Table.....	377
Example of Boolean Operations Using a Hash Table	384
Summary and Review	385
Key Terms	385
Review Questions and Exercises.....	386
Further Reading.....	387

16	USER INTERFACE MANAGEMENT	389
Chapter Outline		389
Chapter Objectives.....		389
Introduction.....		390
Menus		391
Curses Package Background		393
Full-Screen Data Entry with Curses		399
Window Interfaces		405
Vertical Bar Menu		406
Horizontal Bar Menu.....		407
Horizontal Bar Menu and Associated Pull-Down (VERTICAL BAR) MENUS		408
Message Window		408

Dialog Box	410
Browse Window	411
Window Operations Using Curses	411
Summary and Review	413
Key Terms	413
Review Questions and Exercises	414
Further Reading.....	414
 16A LINE MODE DISPLAY OF MENU	 415
 16B FULL-SCREEN MODE DISPLAY OF MENU USING CURSES	 419
 16C MENU DISPLAY WITH POP-UP DIALOG BOX	 423
 17 BROWSING PROCEDURES	 427
Chapter Outline	427
Chapter Objectives	427
Introduction	427
The Browse Process	428
A Browse Program	432
Browse Functions	439
Summary and Review	440
Key Terms	440
Review Questions and Exercises	440
 18 DISPLAY FORMATTING	 443
Chapter Outline	443
Chapter Objectives	443
Introduction	444
Formatting Variables	444
Bibliographic Record Formatting with a Word Processor	444
Bibliographic Record Formatting with UNIX nroff/troff/tbl	449
Formatting Requirements for Library Automation Applications	452
Formatting Variables for Library Automation Applications	452
Data Structures for Formatting	455
Formatting Procedures	458
Markup Languages	461
Bibliographic Application of SGML	463

Summary and Review	472
Key Terms	473
Review Questions and Exercises	474
Further Reading	474

19 RECORD EDITING 477

Chapter Outline	477
Chapter Objectives	477
Introduction	478
Editor Operations	479
A Rudimentary Text Editor	480
Requirements for a Bibliographic Record Editor	485
Data Flow in an Editor	488
Record Editing Example	490
Editor Data Structures	496
Structure of the Record Editor	500
Record Editor Functions	502
Summary and Review	503
Key Terms	503
Review Questions and Exercises	503
Further Reading	504

20 ACCOUNTING SYSTEMS 505

Chapter Outline	505
Chapter Objectives	505
Introduction	506
Accounting Definitions	507
Design of a Simple Accounting System	507
Accounting Functions	509
Transaction File	510
Manipulating Dates and Times in UNIX and C	512
Accounting Data Structures	514
Structure of an Accounting System	515
Reports	516
Accounting Transactions with Foreign Currencies	519
Summary and Review	520
Key Terms	520
Review Questions and Exercises	520

21	DATA VALIDATION	523
	Chapter Outline	523
	Chapter Objectives	523
	Introduction	524
	Data Validation Concepts	524
	Data Type Checking	524
	Data Range Checking	525
	Data Entry Options	525
	Dynamic Data Validation	526
	Dynamic Pick Lists	526
	Accepting User Data	527
	Informing the User of an Error	527
	Field and Record-Level Validation	528
	A Data Structure for Data Validation	528
	Data Validation Functions	532
	Summary and Review	535
	Key Terms	536
	Review Questions and Exercises	536

22	AUTHORITY CONTROL	537
	Chapter Outline	537
	Chapter Objectives	538
	Introduction	538
	Authority Control Concepts	538
	Library of Congress Authority Records	544
	Authority File Operation in an Online Catalog	547
	Authority File Example	548
	Authority File Structure	559
	Substitution	569
	Authority File Maintenance	569
	Adding Records to the Authority File System	570
	Deleting Records from the Authority File System	575
	Detecting Changes in Authority Records	580
	Changing Records in the Authority File System	582
	Searching for Records in the Authority File System	584
	Building an Authority Structure	584
	Searching the Authority File	598
	Authority Record ID Substitution in Bibliographic Records	599
	Multi-Part Fields under Authority Control	599

Authority System Interface Design.....	602
Summary and Review	603
Key Terms	603
Review Questions and Exercises.....	603

23 CLIENT/SERVER SYSTEM DESIGN 605

Chapter Outline	605
Chapter Objectives	605
Introduction	606
Data Communications Concepts Using TCP/IP Architecture	607
Encapsulation	608
Transport and Internet Protocol Layer	610
Physical Data Communications Network Layout.....	612
Datalink Layer.....	614
Process Control.....	616
Encoding	617
Structure of a Simple Server Program	617
The Z39.50 Client/Server Information Retrieval Protocol.....	621
Search Request Message Format.....	622
Summary and Review	626
Key Terms	627
Review Questions and Exercises	627
Further Reading.....	628

INDEX 629
