## Part I

### Hypermedia Enterprises

|          |                                                                 |           |
|----------|-----------------------------------------------------------------|-----------|
| <b>1</b> | <b>Hypermedia Production Scenarios .....</b>                    | <b>3</b>  |
| 1.1      | Introduction.....                                               | 3         |
| 1.2      | What are Hypermedia?.....                                       | 3         |
| 1.3      | Overall Scenario and Definitions .....                          | 6         |
| <b>2</b> | <b>Market-Driven Scenario Elements .....</b>                    | <b>9</b>  |
| 2.1      | Production .....                                                | 12        |
| 2.2      | Scenario Templates.....                                         | 13        |
| 2.3      | Scenario Templates Within the First Stream of Initiative.....   | 14        |
| 2.3.1    | First Stream, Template One.....                                 | 14        |
| 2.3.2    | First Stream, Template Two .....                                | 15        |
| 2.3.3    | First Stream, Template Three.....                               | 15        |
| 2.4      | Scenario Templates Within the Second Stream of Initiative ..... | 16        |
| 2.5      | Fourteen Steps in the Development of Hypermedia.....            | 18        |
| 2.5.1    | The Preparatory Steps 1a–1f.....                                | 20        |
| 2.5.2    | Entering Multimedia Material .....                              | 20        |
| 2.5.3    | Editing Multimedia.....                                         | 20        |
| 2.5.4    | Defining Properties.....                                        | 20        |
| 2.5.5    | Entering Properties, Adding Properties .....                    | 21        |
| 2.5.6    | Automatic Linking.....                                          | 21        |
| 2.5.7    | Manual Linking, Adding Anchors.....                             | 21        |
| 2.5.8    | Testing and Reviewing .....                                     | 22        |
| 2.5.9    | Production .....                                                | 22        |
| 2.5.10   | Conclusions.....                                                | 22        |
| <b>3</b> | <b>Sales and Royalties.....</b>                                 | <b>24</b> |
| 3.1      | Rights .....                                                    | 24        |
| 3.2      | Revising .....                                                  | 24        |
| 3.3      | Re-using.....                                                   | 25        |

|                             |                                                        |           |
|-----------------------------|--------------------------------------------------------|-----------|
| 3.4                         | Procedures.....                                        | 25        |
| 3.5                         | Conclusions.....                                       | 26        |
| <b>4</b>                    | <b>The Publishing Corporation Case.....</b>            | <b>28</b> |
| 4.1                         | Public Information Division.....                       | 28        |
| 4.1.1                       | Management.....                                        | 29        |
| 4.1.2                       | General Management.....                                | 29        |
| 4.1.3                       | Marketing Department.....                              | 29        |
| 4.1.4                       | Sales Management.....                                  | 30        |
| 4.1.5                       | Production Management.....                             | 30        |
| 4.1.6                       | Pick and Mix.....                                      | 31        |
| 4.1.7                       | Administration.....                                    | 33        |
| 4.1.8                       | Predictions About the Future.....                      | 35        |
| 4.2                         | Scientific Information Division.....                   | 36        |
| 4.3                         | Professional Information Division.....                 | 36        |
| 4.3.1                       | The Market.....                                        | 36        |
| 4.3.2                       | Data Management.....                                   | 37        |
| 4.3.3                       | Overview of Use.....                                   | 37        |
| 4.3.4                       | Data Entry.....                                        | 40        |
| 4.3.5                       | Management Reports.....                                | 40        |
| 4.4                         | Training Divisions.....                                | 41        |
| 4.4.1                       | Prospectus.....                                        | 41        |
| 4.4.2                       | Production.....                                        | 41        |
| 4.4.3                       | Reference Material.....                                | 42        |
| 4.4.4                       | Homework Management and Administration.....            | 42        |
| 4.5                         | Annex: Text Circulation in the Production Process..... | 42        |
| <br><b>Part II</b>          |                                                        |           |
| <b>Producing Hypermedia</b> |                                                        |           |

| 13.4.7 Weaknesses                                         | 137 |
| 13.4.8 Examples                                           | 137 |

## Part III

### Navigational Support

|                                                                                       |     |
|---------------------------------------------------------------------------------------|-----|
| <b>14 Graph Computation in Structuring Hypermedia</b>                                 | 142 |
| 14.1 Formalisms for the Representation of Relational Patterns                         | 144 |
| 14.1.1 Unlabeled Directed Graphs for<br>Representing Hypermedia Relations             | 144 |
| 14.1.2 Hypergraphs                                                                    | 145 |
| 14.1.3 The Bipartite, Directed (Conditional) Graph<br>or Petri-Net Graph              | 147 |
| 14.2 Unlabeled Directed Graph Reflecting Conceptual Entailments                       | 149 |
| 14.2.1 The Problem Space of the Hypermedia User and the Need<br>for Graph Computation | 149 |
| 14.2.2 Problem at the Level of a Complete Hypermedia Network                          | 152 |
| 14.2.3 Computational Approaches of the<br>Hypermedia Entailment Complexity            | 152 |
| 14.2.4 Structural Centrality Based on Direct and Indirect Influence                   | 157 |
| 14.2.5 Adjacency Matrix Representing Hypermedia Relations                             | 158 |
| 14.2.6 Small Scale Example                                                            | 158 |
| 14.2.7 Hoede's Status Index                                                           | 160 |
| 14.2.8 Centrality Computation by Hoede's Status Index                                 | 161 |
| 14.2.9 Alternative Graph Computations for Structural Centrality                       | 162 |
| 14.2.10 Rush: A Measure to Unify Centrality Based on<br>In- and Outdegree             | 162 |
| 14.3 Graph Structures as Concise Conceptual Representations                           | 165 |

|                                                             |            |
|-------------------------------------------------------------|------------|
| <b>15 Graphical Display of Concept Maps .....</b>           | <b>167</b> |
| 15.1 Displaying Two-Dimensional Concept Maps.....           | 167        |
| 15.2 Displaying Three-Dimensional Concept Maps.....         | 171        |
| 15.2.1 Illusions of Depth .....                             | 171        |
| 15.2.2 Vagueness.....                                       | 171        |
| 15.2.3 Radius of the Concepts .....                         | 172        |
| 15.2.4 Shading Spheres.....                                 | 172        |
| 15.2.5 Shadows .....                                        | 172        |
| 15.2.6 Text Size.....                                       | 172        |
| 15.2.7 Inner Sphere.....                                    | 173        |
| 15.2.8 Algorithms for Showing 3D Concept Maps.....          | 174        |
| 15.2.9 Conclusions .....                                    | 175        |
| <b>16 Rule-Based Navigation in Hypermedia Systems .....</b> | <b>176</b> |
| 16.1 Coaching Methods.....                                  | 176        |
| 16.2 Navigation Tools.....                                  | 177        |
| 16.3 Navigation Rules.....                                  | 177        |
| 16.4 Implementation of Coaching Methods .....               | 180        |
| 16.5 Preparing a Path .....                                 | 184        |
| <b>17 Calculating a Path.....</b>                           | <b>186</b> |
| 17.1 Prolog Clauses.....                                    | 190        |
| <br><b>Part IV</b>                                          |            |
| <b>Seven Hypermedia Project Cases</b>                       |            |
| Case I Publishers' Documentation Support System .....       | 194        |
| Case II Genealogical Research Support.....                  | 197        |
| Case III Newspaper Archiving and Delivery on CD-ROM.....    | 201        |
| Case IV Document Maintenance via CD-I.....                  | 201        |
| Case V Preparing Encyclopedias for CD-ROM.....              | 202        |
| Case VI Managing Instructional Material .....               | 204        |
| Case VII Product Catalogues for Delivery on Demand .....    | 205        |
| <br><b>Part V</b>                                           |            |
| <b>Appendices</b>                                           |            |
| <b>Appendix A. References .....</b>                         | <b>208</b> |
| SGML.....                                                   | 208        |
