Acknowledgments	xix

PART ONE	Introduction to Research Strategies	1
-----------------	--	----------

CHAPTER ONE	INTRODUCTION TO RESEARCH	1
--------------------	---------------------------------	----------

Qualitative and Quantitative Research	5
Types of Research by Discipline	6
Research Skills Needed in Technical Communication	7
Primary, Secondary, and Tertiary Sources of Information	8
Research Methodologies	11
<i>Library Research</i>	12
<i>Personal Experience and Knowledge</i>	13
<i>Interviews</i>	14
<i>Letters of Inquiry</i>	14
<i>Questionnaires and Surveys</i>	15
<i>Experimentation</i>	15
Summary	16
Research Activities	16
For Further Reading	17

**CHAPTER TWO Idea Generation as You Begin
Your Research**

19

- Writing and Researching in a Company Environment 21
 - Start with What You Know* 23
 - Review What You've Recently Learned* 24
- Getting Ideas for Your Projects 26
 - Observe the World Around You* 27
 - Review What Other Researchers Have Done* 28
 - Anticipate What Needs to Be Done Next* 30
- Idea Generation with Computers 30
 - Word Processors in Idea Generation* 31
 - Graphics Software in Idea Generation* 37
 - Bibliographic Software in Idea Generation* 38
 - Interactive Software in Idea Generation* 39
 - Interactive Software, Multimedia, Hypermedia,
CD-ROM, and Virtual Reality in Idea Generation* 39
 - Other Computerized Sources of Information* 41
- Summary 41
- Research Activities 41
- For Further Reading 42

**CHAPTER THREE Planning Research:
Documentation Plans**

45

- Doc Plans 46
 - Define Your Objectives* 47
 - Define the Document* 47
 - Outline the Content* 49
 - Determine Research* 49
 - Define Resource-management Responsibilities* 51
 - Design the Information* 52
 - Plan the Visuals and Other Special Effects* 53
 - Produce the Document* 53

Creating a Formal Doc Plan	54
<i>Using the Sample Documentation Plan</i>	55
Summary	66
Research Activities	67
For Further Reading	67

CHAPTER FOUR Ethics

69

Public Concern with Ethics in Research	70
Codes of Conduct	73
Strategies for Developing Your Code of Ethics	75
<i>Get Approval for Your Research Methodology</i>	75
Methodically and Accurately Conduct the Research	78
Open Your Information to Others' Scrutiny	89
Give Credit to Others	91
Summary	93
Research Activities	93
For Further Reading	94

PART TWO Ways to Conduct Research

95

CHAPTER FIVE Computerized Information Retrieval from Libraries

97

Computerized Databases	99
Search Strategies for Using Databases	100
<i>Develop a List of Keywords</i>	102
<i>Work with the Appropriate Databases</i>	102
<i>Refine the Search Strategy as You Work</i>	103
<i>Explore Other Databases</i>	105
Indexes	105
<i>Searches by Author, Title, and Subject</i>	106

<i>General and Specific Indexes</i>	110
COM and Online Card Catalogs	113
Interlibrary Access	116
Summary	116
Research Activities	117
For Further Reading	117

CHAPTER SIX Computerized Secondary Sources of Information 119

E-mail in Research	120
<i>Strategies for Using E-mail in Research</i>	121
Bulletin Boards	122
Newsgroups, Mailing Lists, and Discussion Groups	123
Electronic Journals	124
The World Wide Web	126
CD-ROM Information	128
Strategies for Using CD-ROM or Network Research Tools	132
Summary	133
Research Activities	134
For Further Reading	135

CHAPTER SEVEN Personal Experience and Knowledge 137

Defining Personal Experience and Knowledge	138
Taking Inventory of Experience and Skills	139
Brainstorming in Groups	143
Clustering	146
Gaining More Personal Experience	148
Summary	151
Research Activities	151
For Further Reading	152

CHAPTER EIGHT Informational Interviews **153**

- Informational Interviews as Job-search Tools 154
- Informational Interviews for On-the-Job Information Gathering 155
- A Four-Step Plan for Conducting an Informational Interview 155
 - Step 1. Research* 156
 - Step 2. Prepare* 162
 - Step 3. Conduct the Interview* 165
 - Step 4. Follow Up* 168
- Conference Calls and Special Situations 168
- Summary 170
- Research Activities 170
- For Further Reading 171

CHAPTER NINE Letters of Inquiry **173**

- Guidelines for Writing Letters of Inquiry 174
 - Format* 175
 - Content and Organization* 175
 - Style* 178
- A Request for Advertised Materials 178
- An Unsolicited Request for Information 180
- An Unsolicited Letter to Ask Questions 182
- Faxing a Letter of Inquiry 182
- E-mail and Letters 182
- Summary 186
- Research Activities 186
- For Further Reading 187

CHAPTER TEN Questionnaires and Surveys **189**

- Considerations for Using Questionnaires 190
- Types of Questionnaires 191

Variables to Consider in Designing a Questionnaire	192
Participants Who Complete the Questionnaire	193
Decisions to Make Before You Write the Questionnaire	193
Six Basic Types of Questions	194
<i>Dichotomous Questions</i>	194
<i>Multiple Choice Questions</i>	195
<i>Ranking</i>	195
<i>Rating</i>	196
<i>Fill-in-the-Blank Questions</i>	196
<i>Essay Questions</i>	198
<i>Selecting Questions</i>	199
Question Sequences	200
Word Choice in Questions	201
The Cover Letter	202
A Sample Questionnaire	203
Questionnaire Distribution	203
<i>Mailed Questionnaires</i>	209
<i>In-Person Distribution</i>	209
<i>Distributing Questionnaires at One Location</i>	209
<i>E-mail Questionnaires</i>	210
<i>Recording Responses</i>	210
Evaluation of the Responses	211
Summary	211
Research Activities	212
For Further Reading	213

CHAPTER ELEVEN Empirical Experimentation 215

Theory, Paradigm, and Hypothesis	217
Study What's Going On in Your Discipline	218
<i>Gathering Background Information on Which to Base Your Experiment</i>	219
<i>Reviewing the Literature</i>	219
<i>Developing a Hypothesis</i>	220
<i>Experimental Conditions</i>	221
<i>Establishing a Procedure</i>	226
<i>Creating Forms, Documentation, and Tools</i>	226

<i>Selecting Participants</i>	227
<i>Training and Special Activities</i>	229
<i>Setting Up Materials and Equipment</i>	229
During the Experiment	229
Interpretation of Results	230
Reports of Your Findings	230
Summary	231
Research Activities	231
For Further Reading	232

PART THREE	Ways to Evaluate Research	233
-------------------	----------------------------------	------------

CHAPTER TWELVE	Evaluation of Sources	235
-----------------------	------------------------------	------------

An Information-management Strategy	236
Reliability of the Source	238
Timeliness of the Information	242
Quality of the Information	243
Style or Format of the Information	244
Summary	245
Research Activities	245
For Further Reading	245

CHAPTER THIRTEEN	Statistics and Measurements	247
-------------------------	------------------------------------	------------

Descriptive and Inferential Statistics	248
Variables	248
Terms Associated with Descriptive Statistics	249
Terms Associated with Inferential Statistics	250
Significance	251
Statistical Tests	252
Using Statistics in Documents	253
Summary	255

Research Activities	255
For Further Reading	255

CHAPTER FOURTEEN Usability Testing and Validation 257

Usability, Readability, and Validation	258
Preferences and Empowerment	260
Testable Elements of Hardcopy or Softcopy Information	261
Technical Communicators Who Conduct Usability Tests	265
Conducting a Usability Test	268
<i>Plan the Responsibilities for Usability Testing</i>	268
<i>Research What Needs to Be Tested</i>	269
<i>Create a User Profile</i>	271
<i>Set Objectives for the Usability Test</i>	271
<i>Design the Test Protocol</i>	272
<i>Test the Protocol on a Sample Group (Usually In House)</i>	273
<i>Select the Test Group</i>	273
<i>Create the Appropriate Documentation for the Test</i>	273
<i>Establish the Test Environment</i>	274
<i>Conduct the Test</i>	274
<i>Evaluate/Analyze the Information</i>	274
Summary	275
Research Activities	275
For Further Reading	275

PART FOUR Possible Publication of Your Results 233

CHAPTER FIFTEEN The Query Letter, Proposal Letter, and Prospectus 279

Researching Possible Sources of Publication	280
<i>Subject</i>	281
<i>Depth of the Information</i>	281
<i>Timeliness</i>	283

<i>Distribution</i>	284
<i>Use of the Information</i>	286
<i>Profitability</i>	287
<i>Reputation of the Publisher</i>	288
<i>Where Should You Submit Your Work?</i>	289
Beginning the Publication Process	290
The Query Letter	290
<i>A Sample Query Letter</i>	291
<i>A Sample Proposal Letter</i>	291
The Prospectus	296
<i>A Sample Prospectus</i>	297
Summary	309
Research Activities	310
For Further Reading	311

CHAPTER SIXTEEN Abstracts

313

Topical Abstracts	313
Informative Abstracts	315
Locations of Abstracts	318
Abstracts That You Write	319
General Suggestions for Writing an Abstract	321
Suggestions for Writing Topical Abstracts	322
Suggestions for Writing Informative Abstracts	322
Standards and Guidelines for Abstracting	323
Summary	323
Research Activities	324
For Further Reading	324

CHAPTER SEVENTEEN Bibliographies and the Documentation of Sources

325

Preliminary Bibliography	326
<i>A Preliminary Bibliography for Your Use Only</i>	327

<i>A Preliminary Bibliography for Other's Use</i>	328
<i>Evaluating the Sources Listed in a Preliminary Bibliography</i>	328
Annotated Bibliography	330
Literature Review	331
List of Works Consulted	333
List of Works Cited or References	335
Notes	338
Summary	338
Research Activities	339
For Further Reading	339

CHAPTER EIGHTEEN Conducting Additional Research 341

Rewards and Consequences: Why Research is Important	342
Where Should You Begin?	343
Know the Sources an Assignment Requires	343
Plan the Project and the Research You'll Conduct	344
Suggestions for Staying Informed	346
<i>Participate in Professional Societies</i>	346
<i>Read the Literature</i>	348
<i>Surf the Net</i>	348
<i>Define the Literature</i>	349
Contacting Publishers	350
Research Requires Time And Money	352
Summary	354
Research Activities	354

Appendix A Master Bibliography of Sources Listed in This Book	355
--	------------

Appendix B Some Mailing Lists for Technical Communicators	363
--	------------

Glossary	365
-----------------	------------

Index	371
--------------	------------
