

Contents

Preface *iii*

Contributors *ix*

1. **Introducing Pharmacokinetic and Pharmacodynamic Concepts** *1*
Malcolm Rowland
2. **In Vitro Enzyme Kinetics Applied to Drug-Metabolizing Enzymes** *31*
Kenneth R. Korzekwa
3. **Human Cytochromes P450 and Their Role in Metabolism-Based Drug-Drug Interactions** *53*
Stephen E. Clarke and Barry C. Jones
4. **UDP-Glucuronosyltransferases** *87*
Rory P. Remmel, Jin Zhou, and Upendra A. Argikar
5. **Drug-Drug Interactions Involving the Membrane Transport Process** *135*
Hiroyuki Kusuvara and Yuichi Sugiyama
6. **In Vitro Models for Studying Induction of Cytochrome P450 Enzymes** *205*
Jose M. Silva and Deborah A. Nicoll-Griffith

7. In Vitro Approaches for Studying the Inhibition of Drug-Metabolizing Enzymes and Identifying the Drug-Metabolizing Enzymes Responsible for the Metabolism of Drugs (Reaction Phenotyping) with Emphasis on Cytochrome P450	231
<i>Brian W. Ogilvie, Etsuko Usuki, Phyllis Yerino, and Andrew Parkinson</i>	
8. The Role of P-Glycoprotein in Drug Disposition: Significance to Drug Development	359
<i>Matthew D. Troutman, Gang Luo, Beverly M. Knight, Dhiren R. Thakker, and Liang-Shang Gan</i>	
9. Cytochrome P450 Protein Modeling and Ligand Docking ...	435
<i>K. Anton Feenstra, Chris de Graaf, and Nico P. E. Vermeulen</i>	
10. Role of the Gut Mucosa in Metabolically Based Drug-Drug Interactions	471
<i>Kenneth E. Thummel, Danny D. Shen, and Nina Isoherranen</i>	
11. Mechanism-Based Inhibition of Human Cytochromes P450: In Vitro Kinetics and In Vitro-In Vivo Correlations	515
<i>Xin Zhang, David R. Jones, and Stephen D. Hall</i>	
12. Transporter-Mediated Drug Interactions: Molecular Mechanisms and Clinical Implications	545
<i>Jiunn H. Lin</i>	
13. Metabolism and Transport Drug Interaction Database: A Web-Based Research and Analysis Tool	567
<i>Houda Hachad, Isabelle Ragueneau-Majlessi, and René H. Levy</i>	
14. In Vivo Probes for Studying Induction and Inhibition of Cytochrome P450 Enzymes in Humans	581
<i>Grant R. Wilkinson</i>	
15. Drug-Drug Interactions: Clinical Perspective	643
<i>David J. Greenblatt and Lisa L. von Moltke</i>	

**16. An Integrated Approach to Assessing Drug-Drug Interactions:
A Regulatory Perspective 665**
Shiew-Mei Huang, Lawrence J. Lesko, and Robert Temple

17. Drug-Drug Interactions: Toxicological Perspectives 687
Sidney D. Nelson

18. Drug-Drug Interactions: Marketing Perspectives 709
Kevin J. Petty and Jose M. Vega

Index 721
