	4	1.1 <i>Averting the Old Age Crisis</i> : Policies to Protect the Old and Promote Growth
	10	2.1 Identifying Pension-Related Economic and Sector Work
	13	2.2 How IEG Identified Pension Projects
	45	5.1 Pension Reform Options Simulation Toolkit (PROST)

Tables

12	2.1	Europe and Central Asia and Latin America and the Caribbean Received More Support for Pension Reform Than Other Regions from Fiscal 1984 to 2005
14	2.2	Countries with Multi-Pillar Systems Received More Assistance
15	2.3	Most Development Outcomes for Pension Components Were Satisfactory
32	4.1	In Latin America and the Caribbean, Only Some Funded Pension Portfolios Are Well-Diversified
33	4.2	Real Returns Have Outpaced Wage Growth for Funded Pensions in Most Countries
39	4.3	Outcome Ratings Varied Considerably, as Did the Reason for the Ratings
44	5.1	Latin America and the Caribbean Heads the Regions in Credits and Loans Supporting Institutional Capacity Building per Capita
50	6.1	Economic Policy and Social Protection Sectors Had a Greater Role in Pension Reform Activities Than Did Other Sectors
51	6.2	Many Organizations Work with the World Bank on Pension Reform
53	6.3	What Do IEG Case Studies Show about World Bank Performance?
56	7.1	Even the Best Reforms Have Continuing Challenges

Figures

5	1.1	What Is the World Bank's Pension Strategy?
11	2.1	More Sector Work Addressed Fiscal Issues and Transition Costs, and Fewer Reports Discussed Public Administration
21	3.1	Many Countries Had High Inflation at Reform
22	3.2	Several Countries Had High Budget Deficits at the Time of Their Pension Reform
24	3.3	Poor Financial Sectors Characterize Some Europe and Central Asia Multi-Pillar Reformers
24	3.4	Europe and Central Asia Countries without Multi-Pillar Reform Are More Likely to Have Weak Financial Sectors
26	3.5	Many Reformers Had Poor Corruption Indexes at the Time of Reform
27	3.6	Corruption Ratings Are Poor among Some Potential Reformers
28	3.7	Some Multi-Pillar Countries Already Had High Savings Rates
28	3.8	Savings Rates Require Review before Deciding on Multi-Pillar Reform
33	4.1	Pension Funds Have Become More Diversified in Kazakhstan
35	4.2	Fiscal Deficits Have Grown in Many Countries with Second Pillars
36	4.3	Savings Rates Increased Only in Kazakhstan
37	4.4	Market Capitalization Remains Quite Low
37	4.5	Post-Crisis Pension Portfolios in Argentina Fled to Government Bonds
38	4.6	Pension Participation Rates Have Not Changed in Latin America and the Caribbean
