Preface	v
1 Occurrence and Emissions of Volatile Halogenated Hydrocarbons	1
1.1 Biogenic Formation Mechanisms of Small Organohalogenes <i>Karlheinz Ballschmiter and Thorsten Urhahn</i>	1
1.2 Abiotic Formation of Organohalogenes in the Terrestrial Environment <i>Heinz-Friedrich Schöler and Frank Keppler</i>	14
1.3 Geogenic Formation of Chlorinated Organic Compounds <i>Jochen Hamisch and Armin Jordan</i>	24
1.4 Industrial Production and Industrial Use of Volatile Chlorinated Hydrocarbon Solvents <i>Hans-Norbert Adams</i>	33
1.5 Global Data on Production and Emission of Volatile Halogenated Hydrocarbons <i>Pauline Midgley</i>	57
1.6 Global Distribution of Volatile Halogenated Hydrocarbons <i>Karlheinz Ballschmiter and Thorsten Urhahn</i>	67
2 Transformations Involving Organohalogenes: Mechanisms and Products	80
2.1 Formation of Trichloroacetic Acid from Chlorinated Hydrocarbons in the Atmosphere <i>James Franklin</i>	80
2.2 Oxidation of Chloroethenes under Tropospheric Conditions <i>Karin Dämmer, Michael Breil, Gerhard Bednarek and Reinhard Zellner</i>	94
2.3 Formation of Organohalogenes from Heterogeneous Atmospheric Chemistry Simulated in an Aerosol Smog Chamber <i>Wolfgang Behnke and Cornelius Zetzsch</i>	110
2.4 Natural Formation of Trihalomethanes in the Marine and Terrestrial Environment <i>Heinz-Friedrich Schöler and Wolfram Thiemann</i>	122

3	Occurrence and Fate of Trichloroacetic Acid	132
3.1	Environmental Levels of Trichloroacetic Acid <i>Jürgen Regelman and Jan Ahlers</i>	132
3.2	Biomonitoring of Trichloroacetic Acid in the Vegetation of Various Climate Zones <i>Ludwig Weissflog</i>	140
4	Environmental Impact of Halogenated Hydrocarbons and their Degradation Products	152
4.1	Ecotoxicology of Volatile Chlorinated Hydrocarbons <i>Felix Endres</i>	152
4.2	Ecotoxicological Risks of Volatile Chlorinated Hydrocarbons <i>Peter Schröder and Peter Weiss</i>	174
4.3	Environmental Effects and Risk Characterization of Trichloroacetic Acid <i>Jürgen Regelman, Caroline Riedhammer and Jan Ahlers</i>	189
5	Regulatory Issues	195
5.1	Chemical Legislation in Germany and in the European Union <i>Jan Ahlers and Franz Nader</i>	195
5.2	Existing Substances Regulation Assessment of Tetrachloroethene and Trichloroethene <i>Steve Dungey</i>	204
5.3	Risk Assessment of Haloacetic Acids <i>Caroline Riedhammer</i>	214
