

CONTENTS

<i>Preface</i>	VII
<i>Foreword</i>	XI
<i>Acknowledgments</i>	XII
<i>Introduction</i>	1

Eurasian Plate

1. Hydrogeology of karstic terrains of Ireland.....	11
David Drew	
2. Hydrogeological contrasts between British Carboniferous limestone aquifers..	25
John Gunn	
3. Application of geological, hydrochemical, and isotopic methods for hydrogeological investigation of selected Spanish karst regions.....	43
J.J. Durán and J. López-Martínez	
4. Caracteristiques hydrogeologiques specifiques de la region karstique des Grands Causses.....	61
H. Paloc	
5. Controles geologiques des systemes aquiferes karstiques (s.a.k.) de type Mediterranéen: L'Exemple du s.a.k. de la Sources du Lez	89
J.V. Avias	
6. Role du contexte geologiques et climatique dans la genese et le fonctionnement du karst du Vaucluse.....	115
B. Blavoux, J. Mudry, and J.M. Puig	
7. Hydrodynamics of karst aquifers: Experimental sites in the Mediterranean karst, southern France.....	133
Claude Drogue	
8. Karst hydrogeology in central Italy.....	151
Carlo F. Boni	
9. Hydrogeologie du Bassin de la Source de L'Areuse.....	159
A. Burger	
10. The lost Danube: Karst hydrogeology of the Western Swabian Alb, south Germany.....	179
Heinz Hötzl	

11. Geomorphogeny and karstification of the eastern part of the Northern Limestone Alps in Central Europe.....	197
Josef G. Zötl	
12. Hydrogeological characteristics of geosyncline karst aquifers with an example of the Trebisnjica catchment.....	213
Petar Milanovic	
13. Hydrogeological relationship in the central Dinaridic karst.....	229
Miomir Komatina	
14. Karstification and ground-water hydraulics of the interior of large calcareous massifs: The case of Giona Mountain in central Greece.....	241
Paul G. Marinos	
15. Conditions hydrogeologiques de quelques aquiferes karstiques de la Crete	249
Borivoje F. Mijatovic	
16. Tectonic influences on ground-water flow systems in karst of the southwestern Taurus Mountains, Turkey.....	263
William Back and Gultekin Gunay	
17. Hydrogeology of karst in West Georgia.....	273
Guram J. Buachidze and Tamaz A. Kiknadze	
18. Karst aquifer of the Cracow-Wielun Upland, Poland.....	289
J. Glazek, A. Pacholewski, and A. Rozkowski	
19. The hydrogeological characteristics of Polish karstic areas.....	307
Jan Malinowski	
20. Karst and karst water in China.....	315
Yuan Daoxian	

Arabian Plate

21. Flow regimes in karstic systems: The Judean anticlinorium, central Israel.....	339
Levy Kroitoru, Emanuel Mazor, and Arie Issar	

African Plate

22. The hydrogeology of dolomitic formations in the southern and western Transvaal..... 355
J.R. Vegter and M.B.J. Foster

Indian-Australian Plate

23. Karst hydrogeology of Tasmania..... 377
Kevin Kiernan

North American Plate

24. Hydrogeology of regional carbonate aquifers in eastern Nevada..... 393
John W. Hess
25. Evaporite karst in the Permian Blaine Formation and associated strata in western Oklahoma, USA..... 405
Kenneth S. Johnson
26. The role of ground water in the deposition of travertine-marl..... 421
Janet S. Herman and David A. Hubbard, Jr.
27. Karst regions of the southeastern United States..... 435
P.E. LaMoreaux and H.E. LeGrand
28. Localization and seasonal variation of recharge in a covered karst aquifer system, Florida, USA..... 443
Mark Stewart and John Parker
29. Coastal karst formed by ground-water discharge, Yucatan, Mexico..... 461
William Back

Caribbean Plate

30. Controls on karst in Costa Rica..... 467
Sergio Mora
31. The northern karst belt of Puerto Rico: A humid tropical karst 475
Joseph W. Troester

Karst Hydrogeological Study

32. Checklist for hydrogeological assessments in karst areas..... 487
Carlo F. Boni
