

Contents

<i>Preface</i>	vii
1. Functions, Limits and Continuity	1
2. Differentiation of Functions	47
3. Partial Differentiation	86
4. Differentiation and Partial Differentiation (Applications)	115
5. Integration	164
6. Definite Integrals	200
7. Matrices and Determinants	241
8. Matrices (Contd.)	304
9. Linear Programming (Mathematical Formulation and Graphical Method)	345
10. Linear Programming (Simplex Algorithm and Duality)	370
11. Transportation and Assignment Problem	420
12. Financial Mathematics (Compound Interest and Annuity)	463
<i>Answers</i>	507
<i>Logarithmic and Antilogarithmic Tables</i>	525
<i>Index</i>	529
