

TABLE OF CONTENTS

Session 1: Data Policy, Sources and International Programs

Satellite Remote Sensing Data - What's Available Now and in the Future	1
<i>Vicki L. Williams, EOSAT, Lanham, MD, USA</i>	
International Data Exchange: A Summary and Analysis	2
<i>Lisa Robock Shaffer, NASA Headquarters, Washington, DC, USA</i>	
Overcoming Impediments to International Cooperation in Space-based Earth Observation.....	6
<i>D. Brent Smith, NOAA/NESDIS, Washington, D.C., USA</i>	
Data Policy: A Value-Added Perspective in an Increasingly Commercial Marketplace.....	10
<i>David Thibault, Earth Satellite Corporation (EarthSat), Rockville, MD, USA</i>	
Mission to Planet Earth Program: Progress Towards the First Earth Observing System	
Mission Launch.....	11
<i>Robert Price, Kathleen S. Pedelty and Mitchell K. Hobish, NASA Goddard Space Flight Center, Greenbelt, MD, USA</i>	
Conflict Management in the RADARSAT Data Acquisition Planning Process	15
<i>A. Mahmood, E. Langham and M. St.-Pierre, Canadian Space Agency, Saint-Hubert, Quebec, Canada</i>	
Benefits of RADARSAT - N Configurations for Future Applications	19
<i>R.J. Brown, Canada Centre for Remote Sensing, Ottawa, ON, J.S. Paterson, Intera Information Technologies, Nepean, ON and M. McKean, Canadian Space Agency, Saint-Hubert, Quebec, Canada</i>	
Recommendations from GlobeSAR on RADARSAT Operational Modes	23
<i>R.J. Brown and M.A. D'Iorio, Canada Centre for Remote Sensing, Ottawa, ON and B. Brisco, Intera Information Technologies, Nepean, ON, Canada</i>	
The Validation of the GOME Instrument Aboard the ERS-2 Satellite	27
<i>W. Debruyn and Y. Verheijen, VITO, (Centre for Teledetection), Belgium</i>	
Development of an Education/Training Curriculum in Remote Sensing and Geographic	
Information Systems for First Nations Personnel.....	30
<i>Edward A. Cloutis and Douglas R. Connery, AERO SENSE, Calgary, AB and Keith L. Clement, Matthew Ney and Hugh Taylor, Ktunaxa/Kinbasket Tribal Council, Cranbrook, BC and Frances J. Dover, AERO SENSE, Calgary, AB, Canada</i>	
How to Teach Remote Sensing Technology in the Land II Levels Brazilian Student	
Community	34
<i>Tania Maria Sausen and Paulo César Gurgel, Ministério da Ciência e Tecnologia, São José dos Campos, SP, Brasil and Vânia Maria Nunes dos Santos, Secretaria de Planejamento e Meio-ambiente, São José dos Campos, SP, Brasil</i>	
Remote Sensing for Undergraduate Architecture Students in the University of Taubaté,	
Brazil	35
<i>Flávio José Nery Conde Malta, Universidade de Taubaté, Taubaté, SP, Brasil and Tania Maria Sausen, Ministério da Ciência e Tecnologia, São José dos Campos, SP, Brasil</i>	

Session 2: Disaster Monitoring

Spectral and Geomorphometric Discrimination of Volcanic Terrain for Hazard Mapping: A Case Study, Mount Pinatubo, Philippines	38
<i>R.T. Thompson and P.J. Howarth, University of Waterloo, Waterloo, ON, Canada</i>	
Remote Sensing Aided Relocation of Destructed Villages - A Case Study of Killari Earthquake, Maharashtra, India.....	42
<i>R.S. Rao, A. Nageswara Rao, V. Raghu, M. Venkata Swamy, S.V.B.Krishna Bhagavan and S.V. Raghava Reddy, A.P. State Remote Sensing Applications Centre, Hyderabad, India</i>	
Mapping of the Flooded Zone using Optical and Radar Satellite Data.....	46
<i>Sandrine Delmeire and Lionel Laurore, GEOIMAGE, Sophia-Antipolis, Valbonne, France</i>	
Image Analysis and Integration of Multitemporal Satellite Data over the Southwestern Flank of Mount Pinatubo in Luzon Island, Philippines	49
<i>J.H.G. Salvador, Mines and Geosciences Bureau, Diliman, T.M. Santos, University of the Philippines, Diliman and E.G. Domingo, Mines and Geosciences Bureau, Quezon City, Philippines</i>	
Economically Acceptable Design and Development of Disaster Monitoring and Mitigation System, with Multiple Secondary Functions	53
<i>Dave Hall, Fort Washington Operations, Fort Washington, PA, USA</i>	

Session 3: Expert Systems and Integration

SEIDAM for Forestry: Intelligent Fusion and Analysis of Multi-Temporal Imaging Spectrometer Data.....	59
<i>Pal Bhogal, David G. Goodenough, Daniel Charlebois, Stan Matwin, Pacific Forestry Centre, Victoria, BC, Fred Portugal, University of Ottawa, Ottawa, ON and Hugh Barclay, Alan Thomson and Olaf Niemann, University of Victoria, BC, Canada</i>	
Advancements in Related Technologies Bring Virtual Reality to GIS.....	63
<i>Craig Eirkson and Wade Hundley, ERDAS, Inc., Atlanta, GA, USA</i>	
Automated Forest Clearcut Detection from TM Data.....	67
<i>Joji Iisaka, Canada Centre for Remote Sensing, Ottawa, ON, Eisuko Amano, Boston University, Boston, MA, USA, Takako Sakurai-Amano, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	
Evolving Topologies of Artificial Neural Networks Adapted to Image Processing Tasks	71
<i>Helmut A. Mayer, Roland Schwaiger and Reinhold Huber, University of Salzburg, Austria</i>	
Classification of Alpine Tundra Soil-Plant Communities Using an Artificial Neural Network	75
<i>C.R. Duguay and D.W. Leverington, Université Laval, Sainte-Foy, Québec, Canada</i>	
Land Cover Classification from Multisource Spatial Data by Three Artificial Neural Network Paradigms.....	79
<i>Yeqiao Wang, University of Illinois at Chicago, Chicago, IL and Daniel L. Civco, University of Connecticut, Storrs, CT, USA</i>	
Evaluation of Neural Network Performance in Land Cover Classification	83
<i>D.W. Leverington and C.R. Duguay, Université Laval, Sainte-Foy, Québec, Canada</i>	

Session 4: Geology

Validation of Radarsat Data for Geological Application	87
<i>M.A. D'Iorio and V. Singhroy, Canada Centre for Remote Sensing, Ottawa, ON and B. Rivard, P.A. Budkewitsch and R. St-Jean, MIR Télédétection, Montreal, Quebec, Canada</i>	
SAR Expressions of Geology in the Canadian Arctic	88
<i>Paul Budkewitsch and Marc A. D'Iorio, Canada Centre for Remote Sensing, Ottawa, ON and J. Chris Harrison, Geological Survey of Canada, Calgary, AB, Canada</i>	
Etude Cartographique et Structurale a L'Aide des Donneés Landsat de la Region D'Odiénne (Cote d'Ivoire).....	92
<i>Savane Issiaka, Institut d'Ecologie Tropicale, Abidjan and Goze B. Béné and H.Q. Gwyn, Université Sherbrooke, P.Q., Canada</i>	
The Effect of Biogenic Crusts in Semi-arid Loessial Soils on Spectral Reflectance	98
<i>Arnon Karnieli, Ben Gurion University of the Negev, Sede Boker Campus, Israel</i>	
The U.S. Geological Survey's Land Cover Characterization Program	101
<i>Nick Van Driel and Thomas R. Loveland, U.S. Geological Survey, EROS Data Center, Sioux Falls, SD, USA</i>	
The Role of Geographic Information System in Regional Planning for Coal Mining Development	105
<i>Elly R. Sudibjo and Ivan Soeria-A Suprpto, Jakarta</i>	
Geological and Morphological Control on ERS-1 SAR Coherence Images of Bathurst Island	107
<i>M.A. D'Iorio, Canada Centre for Remote Sensing, Ottawa, ON, B.G. Brisco, Intera Information Technologies, Ottawa, ON, P.A. Budkewitsch, MIR Télédétection, P.W. Vachon, Canada Centre for Remote Sensing, Ottawa, ON and J. Wolfe, Intera Information Technologies, Ottawa, ON, Canada</i>	

Session 5: Forestry

Operational Remote Sensing for Forest Management: Requirements, Applications, and the Future	112
<i>Dennis Paradine, MacMillan Bloedel Limited, Nanaimo, BC, Canada</i>	
Boreal Forest Information Content of Multi-Season Multi-Polarization C-band SAR Data	113
<i>I. McKirdy and J. Brown, Dendron Resource Surveys, Ltd., Ottawa, ON, and Frank Ahern, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	
A Comparison of Four Black-and-White Aerial Films and their Texture on Interpreting Images of Forest Species Composition.....	118
<i>R.J. Hall, Natural Resources Canada, Canadian Forest Service, Edmonton, AB and L. Fent, Alberta Environmental Protection, Edmonton, AB, Canada</i>	
Monitoring Forest Ecosystems: Establishing a Reference Database	123
<i>P.G. Emch, TRW Data Technologies Division and J.B. Lurie, TRW Environmental Systems, Redondo Beach, CA, USA</i>	
Assessment of ATSR-2 Data for Forest Discrimination and Monitoring.....	126
<i>F.M. Gemmell, A.C. Millington, and J. Wellens, University of Leicester, Leicester, UK</i>	
Mapping Tropical Forests from Coarse Spatial Resolution Data	130
<i>Giles M. Foody, University of Salford, Salford, UK, Richard M. Lucas and Paul J. Curran, University of Southampton, Southampton, UK and Miroslav Honzak, University of Wales Swansea, Swansea, UK</i>	

An Investigation into the Effects of Seasonality on Middle Infrared Radiation Measured from Tropical Forests.....	134
<i>Doreen S. Boyd, University of Southampton, Southampton, UK</i>	
Estimating Conifer Forest Structure using SAR Texture	138
<i>Bradley A. Wilson, University of Regina, Regina, SK, Canada</i>	
Successional and Seasonal Pattern of Spruce Spectra as a Basis of Boreal Forest Monitoring.....	142
<i>Joshio Awaya and Nobuhiko Tanaka, Forestry and Forest Products Research Institute, Ibaraki, Japan</i>	
Identification of Tree Species in Northwestern New Brunswick using Meis II Sensor Digital Images	147
<i>Olga Dupont, Richard Carme, Gilbert Fafard and Sylvain Deslandes, Université de Moncton, Edmundston, NB, Canada</i>	
A Multi-Temporal Evaluation of Thematic Mapper Data for Monitoring Minor Changes in Root Rot Infestation	151
<i>K.O. Niemann, G.J. Hay and C. Burnett, University of Victoria, BC, M. Gillis, BC Ministry of Forests, Victoria, BC and L. Goyette, Ministry of Forest, Cranbrook, BC, Canada</i>	
Developing Diameter at Breast Height (DBH) and Height Estimation Model from Remotely Sensed Data	152
<i>Djafar Oladi and Eugene Derenyi, University of New Brunswick, Fredericton, NB, Canada</i>	
Boreal Forest Productivity Analysis from NOAA-AVHRR GEOCOMP Database	156
<i>Charles Savoie, Alain Royer, Eric Gagne and Kalifa Goita, Université de Sherbrooke, Sherbrooke, Quebec and Josef Cihlar, Canada Center for Remote Sensing, Ottawa, ON, Canada</i>	
Evaluation of GIS Methods for Mapping Relative Temperature Zones in Forest Ecosystems.....	157
<i>D.R. Unger, Southern Illinois University, Carbondale, IL, USA and J.J. Ulliman, University of Idaho, Moscow, ID, USA</i>	
Statistical Texture Properties of Forest Structure for Improved LAI Estimates from <i>casi</i>	161
<i>Mike Wulder, University of Waterloo, Waterloo, ON, Steven Franklin, University of Calgary, Calgary, AB, Mike Lavigne, Canadian Forest Service, Maritimes Forest Research Centre, Fredericton, NB, Canada</i>	
Phenological Change Monitoring of Climax Forest for Global Environment Study	165
<i>H. Sawada, K. Kawabata, M. Anazawa, I. Nagatani, N. Mituzuka and E. Nakazono, Forestry and Forest Products Research Institute, Ibaraki, Japan</i>	
Evaluation of Vegetation Indices for Retrieving Biophysical Parameters of Boreal Conifer Forests.....	168
<i>Jing M. Chen, Canada Centre for Remote Sensing, Ottawa, ON and Martin A. Guilbeault, University of Ottawa, Ottawa, ON, Canada</i>	

Session 6: Environmental Monitoring Systems 1

Estimating Moisture Stress and Evaporation using Remote Sensing Derived Vegetation Indices and Ground Temperatures	172
<i>David L. Toll, NASA/Goddard Space Flight Center, Greenbelt, MD, USA</i>	
The Detection of Agro-Ecosystem Indicators of Sustainable Agriculture Using Remote Sensing Data in Oxford County, Southern Ontario	176
<i>J.L. Bugden and P.J. Howarth, University of Waterloo, Waterloo, ON, Canada</i>	
Using Spectral Mixture Models to Obtain Vegetation and Soil Parameters from Satellite Data in a Semiarid Region	180
<i>Jeff Duncan, San Diego State University, San Diego, CA, USA</i>	

Evaluation of RADARSAT SAR Imaging Modes in Arid Environment the Jordan Case Study	184
<i>R. Saint-Jean, MIR Télédétection Inc., Longueuil, Québec, V. Singhroy, Canada Centre for Remote Sensing, Ottawa, ON, Canada and S.M. Khalifa, Royal Jordanian Geographic Centre, Amman, Jordan</i>	
High Resolution Depiction of an Urban Heat Island from Airborne Video Thermal Radiometry. A Case Study over Tel-Aviv, Israel	188
<i>E. Ben-Dor and H. Saaroni, Tel Aviv University, Tel Aviv, Israel</i>	
Satellite-Based Land Cover Mapping Related to "Soil-Landscapes of Canada: Alberta" Polygons	192
<i>P.H. Crown, D.S. Erickson and D.L. Klita, University of Alberta, Edmonton, AB, Canada</i>	
Native Rangeland Inventory and Monitoring Augmented with the casi: A Comparison of Hyperspectral and Hyperspatial Imagery and Field Surveys	196
<i>C.L. Palylyk and P.H. Crown, University of Alberta, Edmonton, AB, S. Mah, Itres Research Ltd., Calgary, AB and A. Nilson, Alberta Public Works, Edmonton, AB, Canada</i>	
Use of Remote Sensing and Reference Site Measurements to Estimate Instantaneous Surface Radiation Balance Components in the Hudson Bay Lowlands	200
<i>C.R. Duguay, Université Laval, Sainte-Foy, Québec and W.R. Rouse, McMaster University, Hamilton, ON, Canada</i>	
Development of a Sampling Strategy for Large-Area Monitoring of Agricultural Soil Conservation Practices.....	204
<i>T. Huffman and E. Unrau, Agriculture and Agri-Food Canada, Ottawa, ON, Canada</i>	
Native Vegetation Inventory and Monitoring: Baseline Data Collection with the casi.....	208
<i>C.L. Palylyk and P.H. Crown, University of Alberta, Edmonton, AB, S. Mah, Itres Research Ltd., Calgary, AB and A. Nilson, Alberta Public Works, Edmonton, AB, Canada</i>	
Analysis of Land Surface Temperature and Emissivities over a Northern Environment.....	209
<i>Kalifa Goita, Atmospheric Environment Service (CCRP), Downsview, ON, Alain Royer, Université de Sherbrooke, Sherbrooke, Quebec and Normand Bussieres, AES (CCRP), Canada</i>	
Detection of Some Environmental Aspects in Khartoum Area Using Remote Sensing Data	213
<i>Amna Ahmed Hamid and Ismail A. M. Zein, National Remote Sensing Centre, Khartoum, Sudan</i>	
Development and Implementation of Spectral Crust Index over Dunes Sand.....	217
<i>Arnon Karnieli, Ben Gurion University of the Negev, Sede Boker Campus, Israel</i>	
Comparison of Storage Methods for Short Term Preservation of Coniferous Foliage for Analysis of Chlorophyll.....	221
<i>Hugh J. Barclay and David G. Goodenough, Pacific Forestry Centre, Victoria, BC, Canada</i>	
Session 7: Coastal & Wetlands	
Integration of the Geophysical, Environmental, Economic, and Social Information System (GENESIS) with Remotely Sensed Data for the Solution of Water Resources Assessment Problems	225
<i>Shully I. Solomon, E.D. Soulis, N. Kouwen, University of Waterloo, Waterloo, ON and M. Lee, Computer Systems Analyst Toronto, ON, Canada</i>	
Coastal Current Model Validation using Satellite Images of Bright Blooms	229
<i>J.F.R. Gower, Institute of Ocean Sciences, Sidney, BC, Canada</i>	
Assessment of Digital Data for Wetland Identification in the Cariboo/Chilcotin Region of British Columbia.....	233
<i>J. Maedel, P. Murtha and K. Moore, University of British Columbia, BC, Canada</i>	

High Resolution Multi-Spectral Airborne Remote Sensing for Thematic Mapping of Coastal Resources in Calangute Beach, Goa, India	238
<i>Abani K. Samantary, Akhilesh Singh, Tuhin K. Mukherjee and B.B.P. Shrivastava, Central Mine Planning & Design Institute Ltd., Ranchi and N.P.S. Varde, Department of S & T and Environment, Government of Goa, Panaji, India</i>	
Observation of a Coastal Current using ERS-1 SAR	242
<i>Pierre Larouche, Ministère des Pêches et des Océans, Mont-Joli, Québec, Canada</i>	
Inferential Procedures for Spawning Habitat Evaluation	246
<i>A. Roberts, K. Bach and M. Häfele, Simon Fraser University, Burnaby, BC and I. Williams, Department Fisheries and Oceans, Nanaimo, BC, Canada</i>	
Session 8: Image Processing	
Principal Components Analysis of Arctic Ice Conditions between 1978 and 1987 as Observed from the SMMR Data Record	250
<i>Joseph M. Piwowar and Ellsworth F. LeDrew, University of Waterloo, Waterloo, ON, Canada</i>	
Towards a Novel Approach for Texture Segmentation of SAR Sea Ice Imagery	254
<i>D.A. Clausi and M. Ed Jernigan, University of Waterloo, Waterloo, ON, Canada</i>	
Automatic Stereo Matching of Cloud Images	258
<i>Dongseok Shin, John K. Pollard and Jan-Peter Muller, University College London, London, UK</i>	
Benefits of Fusion of High Spatial and Spectral Resolutions Images for Urban Mapping	262
<i>Thierry Ranchin and Lucien Wald, Centre d'Energétique, Ecole des Mines de Paris, Sophia Antipolis, France</i>	
Interactive Image Processing using Algorithms	266
<i>Jay McCarthy, Earth Resource Mapping, CA, USA</i>	
The Relation of TM and NDVI-derived Grasslands Spectral Maps to Species Distribution Maps, Southern Saskatchewan	267
<i>M. Hall-Beyer, Q. Hugh J. Gwyn, Université de Sherbrooke, Sherbrooke, Québec, Canada</i>	
RESURS-01--Bridging the Gap	271
<i>Oskog, Alf Erik Öskog, SSC Satellitbild, Kiruna, Sweden</i>	
Early Results from the Evaluation of Algorithms for Automatic Information Extraction from RADARSAT Data for Sea Ice Applications	274
<i>F. Lee, D. Adair, T. Hirose, T. Heacock and S. Thomas, Noetix Research Inc., Ottawa, ON, M. Manore, Canada Centre for Remote Sensing, Ottawa, ON and B. Ramsay, Ice Services Environment Canada, Ottawa, ON, Canada</i>	
Semivariance Analysis of Tree Crown Structure in Airborne Digital Camera Imagery.....	275
<i>J. Levesque and D.J. King, Carleton University, Ottawa, ON, Canada</i>	
Application d'un Algorithme à Base de Réseaux de Neurones Artificiels à la Cartographie Forestière	279
<i>F. La Rue, G.B. Béné and S. Wang, Université de Sherbrooke, Sherbrooke, PQ, and Jean Beaubien, Forêts Canada, Sainte-Foy, Québec, Canada</i>	
A Simple Approach to Convert At-Sensor Radiance to Surface Bidirectional Reflectance	283
<i>Steven S. McArdle, Integrated Terrestrial Systems Inc., Brampton, ON, Canada</i>	

Mapping Green Crops in the Dry Season of N.E. Thailand using LANDSAT -5 TM Data	287
<i>R. Katawatn, Khon Kaen University, Khon Kaen, Thailand and P.H. Crown and D.L. Klita, University of Alberta, Edmonton, AB, Canada</i>	
Digital Classification of Orthophotography for Urban Applications.....	290
<i>Karl Kliparchuk, Terratech Mapping Services Inc., Burnaby, BC, Canada</i>	
Application d'Algorithmes de Classification Spectro-Spatiale d'Images de Télédétection à l'Agriculture	291
<i>M. Amani, G.B. Béné, S. Wang and D. Ziou, Université de Sherbrooke, Sherbrooke, Québec, Canada</i>	
Design and Development Aspects of a Digital Satellite Image Atlas: A Great Lakes Case Study	295
<i>B. Guindon, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	
RADARSAT Topographic Correction System (RTCS).....	299
<i>B. Mercer, Intermap Technologies (formerly Intera), Calgary, AB and M. Adair & B. Guindon, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	

Session 9: Radar Techniques

Image Quality Results for RADARSAT	301
<i>B. Armour, W. Hughes, I Arnon and L. Lightstone, Atlantis Scientific Systems Group, Ottawa, ON and G.J. Prinz, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	
Separability of Aquatic Plants in the Brazilian Amazon using Multi-Polarization C-Band SAR Data	304
<i>M.P. de F. Costa, E. Novo, M. Noernberg, (INPE) São José dos Campos, Brazil, F.J. Ahern, Canada Centre for Remote Sensing, Ottawa, ON, R.W. Pietsch, Dendron Resource Surveys, Ltd., Ottawa, ON, Canada</i>	
Geoscience Applications with Polarimetric SAR	310
<i>B. Brisco, Intermap Information Technologies, Nepean, ON, R.J. Brown and C. Livingstone, Canada Centre for Remote Sensing, Ottawa, ON and J.S. Paterson, Intera Information Technologies, Nepean, ON, Canada</i>	
Satellite SAR Interferometry Mapping Experiments in British Columbia.....	315
<i>Michael S. Seymour and Ian Cumming, University of British Columbia, Vancouver, BC, Canada</i>	
Towards the Use of Multi-Beam RADARSAT Data for Soil Moisture Estimation: Results from the CCRS SIR-C/X-SAR Experiment	320
<i>Yves Crevier, Intera Information Technologies Corp., Nepean, ON and Terry J. Pultz and Ron J. Brown, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	
Results of ERS Interferometry Measurements of Alpine Glaciers	324
<i>Ian Cumming, Juan-Luis Valero and Michael Seymour, University of British Columbia, BC, Paris Vachon, Laurence Gray, Karim Mattar and Dirk Geudtner, Canada Centre for Remote Sensing, Ottawa, ON and Melinda Brugman, National Hydrological Research Institute, Saskatoon, SK, Canada</i>	
A Workstation for Spaceborne Interferometric SAR Data.....	330
<i>M.W.A. van der Kooij, B. Armour, J. Ehrismann, H. Schwichiw and S. Sato, Atlantis Scientific Systems Group Inc., Ottawa, ON, Canada</i>	
The Canadian Data Processing Facility's SAR Processor for RADARSAT	334
<i>Donna L. Coutts, Martie M. Goulding, MacDonald Dettwiler and Associates, Richmond, BC, William C. Jefferies, RADARSAT International, Richmond, BC, Paul R. Lim, MacDonald Dettwiler and Associates, Richmond, BC, David Martenson, RADARSAT International, Richmond, BC, Dale T. Meier and Douglas J. Rae, MacDonald Dettwiler and Associates, Richmond, BC and John W.E. Whitman, Natural Resources Canada, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	

A Precision Processor for RADARSAT	339
<i>W. Hughes, I. Arnon, K. Gault, D. MacGregor, L. Mikulin and L. Lightstone, Atlatins Scientific Systems Group, Ottawa, ON and G.J. Prinz, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	
Spatial Filtering of Simulated Fine-Mode RADARSAT Imagery for Clearcut Mapping	343
<i>A.V. Banner, Dendron Resource Surveys Inc., Ottawa, ON and F.J. Ahern, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	
Multiple ERS SAR Imagery for Mapping of the Coastal Inter-Tidal Areas.....	349
<i>Yiman Wang and B.N. Koopmans, International Institute for Aerospace Survey and Earth Sciences (ITC), Enschede, The Netherlands</i>	
Multi-temporal Satellite Radar Imagery for Flood Monitoring in Bangladesh.....	353
<i>Timothy Martin, Iffat Haque and Ahmadul Hassan, Bangladesh FAP 19 GIS/EGIS, Dhaka, Bangladesh, Dirk Werle and Brian Tittley, AERDE Environmental Research, Halifax, NS, Canada</i>	
 Session 10: Land Cover & Land Change	
Application of Airborne C-Band Synthetic Aperture Radar to Agricultural Crop Type Discrimination	359
<i>Douglas R. Connery, Edward A. Cloutis and Frances J. Dover, AERO SENSE, Calgary, AB, Canada</i>	
Evaluation of Russian MK-4 Multispectral Photography in Land Cover Classification of Eastern Ontario	363
<i>Douglas J. King, Carleton University, Ottawa, ON, Marilyne Jollineau, University of Waterloo, Waterloo, ON and Brock Fraser, Canadian Heritage Parks Canada, Ontario Region, Cornwall, ON, Canada</i>	
Complementarity of Airborne C-Band Synthetic Aperture Radar and Multispectral Imagery for Agricultural Crop Type Discrimination.....	367
<i>Edward A. Cloutis, Douglas R. Connery and Frances J. Dover, AERO SENSE, Calgary, AB, Canada</i>	
Assessing Land Use Change in Segara Anakan, Java, Indonesia: Integrating Data from Remote Sensing and Rapid Rural Appraisal in Geographic Information System.....	371
<i>Caron Olive, Ellsworth LeDrew and Gordon Nelson, University of Waterloo, Waterloo, ON, Canada</i>	
Evaluation of Airborne Multispectral Imagery for Mapping Wetlands Habitats and Vegetation Communities: Camp Lake Assessment Site, Alberta.....	375
<i>Douglas R. Connery, Edward A. Cloutis, AERO SENSE, Calgary, AB, Tomasz Sankowski, Jim Devries and David Howarter, Institute for Wetland and Waterfowl Research, Oak Hammock Marsh, MB and Frances J. Dover, AERO SENSE, Calgary, AB, Canada</i>	
Multispectral Remote Sensing: Ground Truth and Horrible Truth	379
<i>A. Roberts, K. Bach and M. Häfele, Simon Fraser University, Burnaby, BC, Canada</i>	
Application of Landscape Analysis through Remote Sensing Technique for Study of Land Use/Cover Change in European Part of Russia	383
<i>Pavel A. Tcherkashin, Moscow State University, Moscow, Russia</i>	
Agricultural Crop Type Discrimination Using Airborne Multispectral Imagery: Temporal Variations	387
<i>Edward A. Cloutis, Douglas R. Connery and Frances J. Dover, AERO SENSE, Calgary, AB, Canada</i>	
Separation of Trees, Shrubs and Grass using a Single Airborne SAR Image - A Case Study	391
<i>D.J. Major, A.M. Smith and C.W. Lindwall, Agriculture and Agri-Food Canada, Lethbridge, AB and R. Enman, X-tech Explosive Decontamination Inc., Calgary, AB, Canada</i>	
Assessing the Impact of Land use and Economic Activity on Water Quality	394
<i>James L. Regens, Donald G. Hodges, James T. Gunter, Christopher M. Swalm, and Clare Brown, Tulane University Medical Center, New Orleans, LA, USA</i>	

Combined Influence of Moisture and Texture on Emissivity of Frozen Soils	398
<i>S.A. Komarov, V.L. Mironov, A.N. Romanov and V.N. Kleshchenko, Altai State University, Barnaul, Russia</i>	
Merging SPOT-P and KVR-1000 Images for Updating Urban Maps	401
<i>Thierry Ranchin and Lucien Wald, Centre d'Energétique, Ecole des Mines de Paris, Sophia Antipolis, France</i>	

Session 11: The Boreal Ecosystem - Atmosphere Study (BOREAS)

Satellite Remote Sensing and Data Integration Techniques for the Rehabilitation of Critical Watersheds	405
<i>Randolf S. Vicente, National Mapping and Resource Information Authority, Makati City, Philippines</i>	
Remote Sensing Contribution to the Study of Coastal Areas	409
<i>Mariane Deblanc, GEOIMAGE Company, Sophia Antipolis, France</i>	
Hydrologic Modeling of a Mountainous Catchment with Remotely Sensed Data	411
<i>Thian Yew Gan, University of Alberta, Edmonton, AB and Geoff Kite, National Hydrology Research Institute, Saskatoon, SK, Canada</i>	
Flood Mapping Using Remotely Sensed Data	415
<i>Thian Yew Gan, University of Alberta, Edmonton, AB, Canada</i>	

Session 12: Advanced Image Processing 1

Remote Sensing of Boreal Forest Biophysical Variables using Spectral Mixture Analysis and a Canopy Reflectance Models	418
<i>Derek R. Peddle, University of Waterloo, Waterloo, ON and USRA, Forrest G. Hall, NASA Goddard Space Flight Centre, Greenbelt, MD and Ellsworth F. LeDrew, University of Waterloo, Waterloo, ON, Canada</i>	
Overview of Recent Advances in Scene Physics and Analysis at the Canada Centre for Remote Sensing	422
<i>P.M. Teillet, K. Staenz, M. Lasserre, R. Touzi, R.P. Gauthier, R. Landry, J.-C Deguise, G. Fedosejevs, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	
Application of Spectral Mixing to Image Fusion	428
<i>Harry N. Gross and John R. Schott, Rochester Institute of Technology, Rochester, NY, USA</i>	
Considerations in the Development of a Workstation for the Operational Processing and Analysis of Hyperspectral Data	432
<i>J. Thomas Parr, TASC, Reading, MA, USA</i>	
Selecting the Most Appropriate Upscaling Algorithm: A Multi-scale Approach	435
<i>Geoffrey J. and K.O. Niemann, University of Victoria, Victoria, BC, Canada</i>	
Rio Platano Biosphere Reserve Intrusion Analysis Using Linear Mixing Models La Mosquitia, Honduras	439
<i>Frederick P. Portigal, Kestrel Corporation, Albuquerque, NM and Robert W. Harrill, Earth Views, Center for Ecosystems Mapping and Monitoring, Santa Fe, NM, USA</i>	
Building a Real-time Image Analysis, Ice Analysis and Ice Forecasting System for Ice Centre Operations	445
<i>Awtar Koomar, Environment Canada/Ice Centre and Anthony Sani, Northway Map Technology Limited, Don Mills, ON, Canada</i>	

Comparison of the Geomorphology of Earth and Venus Using Detailed Digital Elevation Models	446
<i>R.L. Thiessen, Washington State University, Pullman, WA and Scott Hensley, Jet Propulsion Laboratory, Pasadena, CA, USA</i>	
Contribution of Texture to Multipolarization Airborne Radar Data Analysis in Agriculture	450
<i>Dong-Chen He, Hassan Anyas and Pierre Lanciault, Centre d'applications et de recherches en télédétection (CARTEL), Sherbrooke, Québec, Canada</i>	
Time Series Image Analysis of a Long Image Sequence	454
<i>Joseph M. Piwowar, Gudrun R. Wessel and Ellsworth F. LeDrew, University of Waterloo, Waterloo, ON, Canada</i>	
Radiometric Correction of MEIS-II Imagery Using Airborne Irradiance Measurements	458
<i>Thomas Piekutowski and Norm O'Neill, Université de Sherbrooke, Sherbrooke, Québec, Don Leckie, Petawawa National Forestry Institute, Chalk River, ON, Jean Beaubien, Centre de Foresterie des Laurentides, Sainte-Foy, Québec and Paul Shepherd, Institute for Space and Terrestrial Science, North York, ON, Canada</i>	
Slope and Aspect Correction for Airborne Video Camera Imagery to Improve Forest Classification in the German Alps	463
<i>P.K.E. Pellikka, University of Oulu, Oulu, Finland</i>	
Training Sampling Selection in Image Classification using the Maximum Likelihood Classification Method	467
<i>Matthias Dobbertin, Federal Institute for Forest, Snow and Landscape Research, Birmensdorf, Switzerland and Gregor S. Biging, University of California, Berkeley, CA, USA</i>	

Session 13: Environmental Monitoring 2

Mapping Areal Extent of Lakes and Perched Basins in the Peace-Athabasca Delta	468
<i>A. Pietroniro, T.D. Prowse and M. Demuth, National Hydrology Research Institute, Saskatoon, SK, Canada</i>	
Remote Sensing and GIS Based Approach for Greening and Ameliorating the Environment in Semi-Arid Area	472
<i>M.D. Shedha, Indian Institute of Remote Sensing, Dehradun, and M.L. Manchanda, M. Kudrat and K.P. Sharma, Regional Remote Sensing Service Centre, Dehradun, India</i>	
Using Multi-channel Satellite Imagery to Study Marine Stratocumulus Cloud Properties	476
<i>Goshka Szczodrak and Philip H. Austin, University of British Columbia, Vancouver, BC, Canada</i>	
An Airborne Digital Frame Camera Sensor for Multispectral Imaging and Mapping	480
<i>Douglas J. King, Carleton University, Ottawa, ON, Canada</i>	
Shifts in the Position of the Red Edge at Different Spatial Resolutions	484
<i>Mark E.J. Cutler and Paul J. Curran, University of Southampton, Southampton, UK</i>	
The Influence of the Depth of Freezing on Emissivity of Soil Cover	488
<i>S.A. Komarov, V.L. Mironov and A.N. Romanov, Altai State University, Barnaul, Russia</i>	
The Role of Satellite Remote Sensing in Vegetation Monitoring and Landuse for Assessing Agricultural Impacts and Drought Early Warning over Eastern and Southern Africa.....	490
<i>J.G. Kabira, Drought Monitoring Centre, Nairobi, Kenya</i>	

Session 14: Advanced Image Processing 2

Stereoscopic Fusion of VIR and SAR Data.....	491
<i>Thierry Toutin, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	
Digital Elevation Model Generation in a Low-relief, Inland Delta Environment using Multiple Data Sources	494
<i>Art Dalton, Prairie Geomatics, Birtle, MB, Alain Pietroniro and Terry Prowse, National Hydrology Research Institute, Saskatoon, SK and Sean Jorden, University of Calgary, Calgary, AB, Canada</i>	
Automatic Interpretation of SPOT Images for Mission Planning	498
<i>Eric Legrand, AEROSPATIALE MISSILES, France</i>	
Use of Chromo-Stereoscopy for Multi Source Data Fusion and Interpretation	502
<i>Thierry Toutin, Canada Centre for Remote Sensing, Ottawa, ON, Canada</i>	
A Fast Method to Determine Cooccurrence Texture Features Using a Linked List Implementation.....	506
<i>D.A. Clausi and M.E. Jernigan, University of Waterloo, Waterloo, ON, Canada</i>	
Computer Based Lineament Interpretation System for Aeromagnetic Data, with a Case Study in the Area around Hanford Site, Washington USA.....	510
<i>Jianxin Hou and Richard L. Thiessen, Washington State University, Pullman, WA, USA</i>	
Probabilistic Methods for Detecting Anomalies in Multispectral Imagery	514
<i>Neil Pendock, University of Witwatersrand, Johannesburg and A.A. de Gasparis, Anglo American Corporation of South Africa, Johannesburg, South Africa</i>	

Session 15: Integration of RS and GIS

Integrating Remote Sensing Data and Terrain Variables to Discriminate Forest Ecosystems in Northwestern Ontario	515
<i>P.M. Treitz and P.J. Howarth, University of Waterloo, Waterloo, ON and P.R. Shepherd and J.R. Miller, Institute for Space and Terrestrial Science, North York, ON, Canada</i>	
Slope Stability Modelling Integrating GIS and Remotely Sensed Data Accommodating for Fuzzy Certainties	519
<i>T. Davis, University of British Columbia, Vancouver, BC, K.O. Niemann, University of Victoria, Victoria, BC and D.E. Howes, B.C. Ministry of Government Services, Victoria, BC, Canada</i>	
A Remote Sensing and GIS-Based Environmental Impact Study of Wildland Fires on Land Degradation in Greece	520
<i>C. Banninger and H. Gallau, Institute for Digital Image Processing, Joanneum Research, Graz, Austria</i>	
Integration of Remote Sensing and GIS - Commercial Applications in the UK	524
<i>Jonathan Williams, Logica UK Limited, Surrey, UK</i>	
Obtaining Geographic Information from Multispectral Images Using Generalized Sets	528
<i>Gary Pereira, Lehigh University, Bethlehem, PA, USA</i>	
Polygon Based Image Analysis in a GIS	534
<i>Eugene Derenyi and Mustafa Turker, University of New Brunswick, Fredericton, NB, Canada</i>	
Urban Growth Detection of Bengkulu Municipality by Using GIS-RS Techniques	538
<i>Bambang Sulisty, University of Bengkulu, Bengkulu, Indonesia</i>	

Remote Sensing / GIS Applications and Priorities of First Nations	542
<i>Douglas R. Connery, Edward A. Cloutis, AERO SENSE, Calgary, AB, Keith L. Clement, Matthew Ney and Hugh Taylor, Ktunaxa/Kinbasket Tribal Council, Cranbrook, BC and Frances J. Dover, AERO SENSE, Calgary, AB, Canada</i>	

Integration of ERS-1 SAR and Landsat TM Data for Agricultural Crop Classification	546
<i>Y. Ban and P.J. Howarth, University of Waterloo, Waterloo, ON, Canada</i>	

Session 16: Marine and Ice Applications

Detection and Automated Extraction of Ocean Features in the Strait of Georgia from RADARSAT-Simulated SAR Imagery: Towards Operational Monitoring	550
<i>Gordon C. Staples, RADARSAT International, Richmond, BC, Canada</i>	

The Early RADARSAT Experience in Sea Ice Applications	554
<i>Michael Manore, Canada Centre for Remote Sensing, Ottawa, ON and Bruce Ramsay, Ice Services Environment Canada, Ottawa, ON, Canada</i>	

Remote Estimation of Coral Reef Abundance and Depth from SPOT Image Spectral Mixture Analysis and Ocean Profile Spectra, Fiji	555
<i>Derek R. Peddle, Ellsworth F. LeDrew and Heather M. Holden, University of Waterloo, Waterloo, ON, Canada</i>	

Mapping Regional Scale Patterns in Spring Sea Ice Albedo using AVHRR	559
<i>Roger A. De Abreu and E.F. LeDrew, University of Waterloo, Waterloo, ON, Canada</i>	

Assimilation of Remotely Sensed Data into a Dynamic Model for the Impact of Pollutants on Ecological Systems.....	563
<i>Randall Gray, Vincent Lyne and Roger Scott, CSIRO, Hobart, Tasmania, Australia</i>	

Geomorphological Mapping and Modelling of the Thawing Dynamics with ERS-1 SAR Data in the Region of Antarctic Peninsula	567
<i>V. Hochschild, Universität Jena, Jena, Germany</i>	

Early RADARSAT Validation Results for Ship Detection, using an Automatic Ship Detection Algorithm	571
<i>S. Thomas and T. Hirose, Noetix Research Inc, Ottawa, ON, R. Olsen, Satlantic Inc., Halifax, NS, C. Bjerkelund, Canada Centre for Remote Sensing, Ottawa, ON, T. Heacock, Noetix Research Inc, Ottawa, ON and M. Rey, DREO, Nepean, ON, Canada</i>	

GMS-VISSR Data Ingesting and Processing System and the Application in Marine Environmental Forecasts	572
<i>Liu Jian-qiang, National Research Center for Marine and Environmental Forecasts, Beijing, PRC</i>	

Applications of Automated Ice Velocity Extraction from Satellite Imagery to Evaluation of the Performance of a Coupled Ice-Ocean Model	575
<i>J.R. Marko, ASL Environmental Sciences Inc., Sidney, BC and C.L. Tang, Bedford Institute of Oceanography, Dartmouth, NS, Canada</i>	

Estimation of Snow Areal Extent Using Rasarsat Data	579
<i>Terry J. Pultz, Canada Centre for Remote Sensing, Ottawa, ON and Yves Crevier, Intera Information Technologies Corp., Nepean, ON, Canada</i>	

Early Radarsat Results for Ocean Applications	580
<i>C. Bjerkelund and P. Vachon, The Canada Centre for Remote Sensing, Ottawa, ON, T. Hirose, T. Heacock and S. Thomas, Noetix Research Inc., Ottawa, ON and H. Edel, Fisheries and Oceans Canada, Ottawa, ON, Canada</i>	

Mapping Coral Ecosystem Stress in Fiji from Spot Imagery with <i>in Situ</i> Optical Correction	581
<i>Ellsworth LeDrew, Heather Holden and Derek Peddle, University of Waterloo, Waterloo, ON and John Morrow, Biospherical Instruments Inc., San Diego, CA, USA</i>	

Session 17: Special Session: Distributed Computing for Remote Sensing

The Mission to Planet Earth Pathfinder Program	585
<i>Martha Maiden, National Aeronautics and Space Administration (NASA), Washington, DC, USA</i>	
The Distributed Oceanographic Data System: Requirements for Data Analysis Applications.....	586
<i>James Gallagher, Peter Cornillon, University of Rhode Island, Rhode Island, NY, USA</i>	
Technological Advancements in the Use of Sensor Data within Native Space-Time Domains.....	587
<i>Mike Botts, Earth System Science Laboratory, Global Hydrology and Climate Center, University of Alabama, Huntsville, AL, USA</i>	
Digital Libraries: New Tools for Remote Sensing.....	591
<i>James Frew, Institute for Computational Earth System Science and Jeff Dozier, School of Environmental Science and Management, University of California, Santa Barbara, CA, USA</i>	
Cartography of Global Scale Image Data Systems.....	592
<i>Samuel N. Goward, Department of Geography, Larry Davis, Institute for Advanced Computer Studies, Shunlin Liang, Department of Geography, Todd Shock, Institute for Advanced Computer Studies and John Townshend, Department of Geography, University of Maryland at College Park, College Park, MD, USA</i>	
The Upper Atmospheric Research Collaboratory: An Experiment in Electronically Supported Collaboration Among a Distributed Group.....	593
<i>C.R. Clauer, C.E. Rasmussen, T.E. Weymouth, G.M. Olson and D.E. Atkins, University of Michigan, Ann Arbor, MI, USA</i>	

Session 19: Farm and Environmental Decisions

Use of Remote Sensing Imagery for Precision Farming	596
<i>P.C. Robert, Associate Professor and Coordinator, Precision Farming Program, University of Minnesota, St. Paul, MN, USA</i>	
Acquisition and Interpretation of Spatial Data for Precision Farming.....	600
<i>Kenneth A. Sudduth, Agricultural Engineer, Agricultural Research Service, U.S. Department of Agriculture Stuart J. Birrell, Research Assistant Professor, University of Missouri and Scott T. Drummond, Scientific Programmer/Analyst, University of Missouri,</i>	
Prototyping New Satellite Products Using Airborne Digital Systems	604
<i>George A. May, Director, Space Remote Sensing Center, Institute for Technology Development Gregory E. Knoblaugh, Marketing Director and John A. Grace, Applications Director, Resource 21, Inc., USA</i>	
Accounting for Spatial and Temporal Variability in the Design of Agricultural Field Trials	605
<i>W.P. Dulaney, USDA-ARS-Remote Sensing Research, L.L. Lengnick, Soil Microbial Systems Laboratories and G.F. Hart, USDA-ARS-Remote Sensing Research, BARC, Beltsville, MD, USA</i>	
Determining Within-Field Management Zones for Grain Sorghum Using Aerial Videography.....	606
<i>Chenghai Yang and G.L. Anderson, Remote Sensing Research Unit, USDA-ARS, Weslaco, TX, USA</i>	
MADMAC: A Test of Multispectral Airborne Imagery as a Farm Management Tool	612
<i>M.S. Moran, T.R. Clarke, J. Qi and P.J. Pinter, Jr., USDA-ARS U.S. Water Conservation Laboratory, Phoenix, AZ, USA</i>	

Session 20: EOSDIS, Extensions and Applications

Earth Observing System Science Data Product's Application Potential.....	618
<i>John E. Estes, Michael Lawless and Joseph Scepan, University of California at Santa Barbara, Santa Barbara, CA, USA</i>	
A Public Access Resource Center (PARC) Empowering the General Public to Use EOSDIS	619
<i>George A. Seislstad, University of North Dakota, Grand Forks, ND, USA</i>	
The Use of Regional Data Centers for the Application and Extension of NASA's Earth Observing System Data.....	620
<i>Timothy W. Foresman, University of Maryland, Baltimore County, MD and Jerry Garegnani, MTPE, NASA Headquarters, Washington, DC, USA</i>	
The Development of a Data Base for Assessing Coastal Marsh Health Using TM Images and GIS Analysis.....	621
<i>M.S. Kearney, W.T. Lawrence, J.R.G. Townshend, A.S. Rogers and K. Eldred, University of Maryland, College Park, Maryland, USA</i>	
Remote Sensing: A New Approach for Surveillance of Global Human Health.....	622
<i>B. Wood, L. Beck, S. Dister and B. Lobitz, Johnson Controls World Services Inc., NASA Ames Research Center, Moffett Field, CA, USA</i>	
Developing a Land Cover Modeling Procedure for the High Plains Using Multi-Temporal Thematic Mapper Imagery	624
<i>Kevin P. Price and Stephen L. Egbert, University of Kansas, Lawrence, KS, M. Duane Nellis, Kansas State University, Manhattan, KS and Re-Yang Lee, University of Kansas, Lawrence, KS, USA</i>	
INDEX	628
