List of contributors vii

1. Introduction 1

Anastasia Tryphon & Jacques Vonèche

Vygotsky on Piaget 5

Piaget on Vygotsky 6

Conclusion 8

References 9

Note 10

2. Qu'est-ce que l'intelligence? Piaget, Vygotsky, and the 1920s crisis in psychology 11

Robert H. Wozniak

Crisis in psychology 12

Converging homologies 14

Oppositions 15

Towards the future 19

References 23

3. The role of abstract rationality in Vygotsky's image of mind 25

James V. Wertsch

Vygotsky the Enlightenment rationalist 26

Vygotsky's ambivalence about abstract rationality 34

Semiotic mediation and Vygotsky's ambivalence about
abstract rationality 38

Acknowledgement 41

References 42

4. Structure and development. Reflections by Vygotsky 45

René van der Veer

Introduction 45

Criticising opposing views 47

Vygotsky and Gestalt theory 49

Piaget and Gestalt theory 53

Conclusions 54

References 55

5. Mechanisms of internalisation and externalisation of knowledge in Piaget's and Vygotsky's theories 57

Eduardo Martí

Introduction 57

The dialectics between internalisation and
externalisation 58

From metaphor to explanatory mechanisms 60

Towards a mediational constructivism 71

Conclusions 77

Acknowledgement 78

References 78

Notes 82

6. Units of analysis in psychology and their interpretation: Social interactionism or logical interactionism? 85

Jean-Paul Bronckart

Social interactionism 85

Logical interactionism 92

A few suggestions	99
References	105
Note	106

7. The social construction of rational understanding 107

Leslie Smith

Demonstration: Illustration of Piagetian and Vygotskian similarities	108
Rebuttal: The social critique of Piaget's account	110
Discussion: The social development of rational knowledge	113
References	119
Appendix	123

8. Construction and interpretation: Exploring a joint perspective on Piaget and Vygotsky 125

Jens Brockmeier

Piaget: The philosopher	125
After Piaget	126
Reassessing the cognitive revolution	127
Understanding and explanation	129
Emphasising individual agency	132
Flying corkscrews and other semantic fields	134
Psychological knowledge	139
References	140
Note	143

9. Social interaction and individual understanding in a community of learners: The influence of Piaget and Vygotsky 145

*Ann L. Brown, Kathleen E. Metz,
& Joseph C. Campione*

Piaget and the design of grade-school science curricula	148
Promise from Piaget	156
Grade-school curricula of the community of learners	157

Vygotsky and the design of learning environments	159
Design of assessment: Vygotsky and Piaget	162
Conclusion	165
Acknowledgements	166
References	166
Note	170

10. Relationships between the clinical method and the zone of proximal development in a constructivist approach to language acquisition 171

Ioanna Berthoud-Papandropoulou & Helga Kilcher

The clinical method	171
The zone of proximal development	173
The acquisition of complex sentences: the gerund	175
Concluding remarks	184
References	186
Note	187

11. Intentionality, communication, and language 189

Ignasi Vila

Introduction	189
Piaget, Vygotsky, and the genesis of language	190
The genesis of communicative intention	190
Communicative intention and joint attention	194
Conclusions	198
Acknowledgement	198
References	199

12. Some impressions of a visit to Soviet psychologists 201

Jean Piaget
