
CONTENTS

<i>Preface</i>	<i>v</i>
1. Inorganic Gaseous Pollutants and Their Adverse Effects	1
2. Heavy Metals and Their Adverse Effects	26
3. Factors Modifying the Activity of Chemical Pollutants	40
4. Biotransformation, Detoxification and Biodegradation	62
5. Measurement and Interpretation of The Ecological Effects of Chemicals	98
6. Routes of Exposure and Modes of Action of Chemicals	105
7. Methods for Testing Chemical Toxicity	205
8. Testing of Chemical Hazards	256
9. A Framework for Environmental Toxicity of Chemicals	292
10. Ecological Risk Assessment of Chemicals	304
