

CHAPTER 1	Urban Geography Today	1
	Information Age	1
	Urban Problems	1
	Why Urban Geography?	2
	What Is the City?	3
	Evolution of Urban Geography	6
	Themes in Urban Geography	12
	Summary and Conclusion	14

CHAPTER 2	The Origin and Growth of Cities	16
	Earliest Cities	16
	European Roots of North American Cities	23
	Contemporary World Urbanization	32
	Summary and Conclusion	37

CHAPTER 3	The Third World City	39
	Third World Urban Growth	39
	Economic Development	41
	Roots of Urbanization	46
	Housing and Squatter Settlements	53
	Summary and Conclusion	57

CHAPTER 4	The North American City	59
	Location Patterns	59
	Rank-Size Rule	61
	Evolution of the Urban Pattern in the United States, 1790 to 1990	63
	National Redistribution Cycles	72
	Canadian Urbanization	74
	Summary and Conclusion	76

CHAPTER 5	Metropolitan Dominance and Movement	79
	Metropolitan Dominance	79
	Conceptualizing Movement	83
	Social Physics	85
	Hierarchy of Cities	92
	Summary and Conclusion	96

CHAPTER 6	The Urban Physical Environment	97
	Historical Evolution of Environmental Concerns	97
	Location and Limits to Urban Growth	98
	The Urban Ecosystem	99
	The Urban Land Surface	100
	Atmospheric Change	107
	Water Demand and Supply	112
	A Solution to Pollution?	116
	Summary and Conclusion	117

CHAPTER 7	City Development: Theory and Practice	119
	Economic Base Theory	119
	Growth Pole Theory	123
	Manufacturing and Urban Growth	125
	High Technology	132
	Summary and Conclusion	134

CHAPTER 8	Central Place Theory	137
	Cities as Service Centers	137
	Central Place Market Area Geometry	140

Another Central Place Theory: Lösch	145	Housing Market	260
Christaller and Lösch Compared	146	Residential Decline	261
Modifications of the Theory	146	Gentrification	267
The Entrepreneurial Behavior Postulate:		Rent Control	271
A Neglected Aspect	150	Federal Involvement in Housing	273
Archaeological Applications	155	Summary and Conclusion	276
Summary and Conclusion	155		
CHAPTER 9	Transportation Processes	CHAPTER 13	Ethnicity in the City
	157		278
Transportation as a Service	157	Immigration Waves	279
Transportation as Land Shaper	158	Asian Immigration	282
Freeways and Suburban Development	170	Hispanic Immigrants	284
Highway Planning	175	Black Urbanization and Migration	287
Forecasting Land Use and Travel	181	Emergence of Black Ghetto Space	289
Transportation Investment Priorities	185	Residential Mobility and Socioeconomic Change	297
Substituting Communication for Transportation	198	Poverty and the Underclass	297
Summary and Conclusion	198	Black Residential Suburbanization	299
CHAPTER 10	Perception and Quality of Life Issues	Summary and Conclusion	303
	200		
Elements of Americans' Perceptions	200	CHAPTER 14	Intraurban Migration and Household Change
Two Approaches to Perception Research	201		305
Imageability of the City	205	Behavioral Processes	306
The Social Perception of the City	213	Spatial Structure of Moves	311
Quality of Life	215	Selecting a Location	315
Summary and Conclusion	217	Summary and Conclusion	321
CHAPTER 11	Land Use Dynamics	CHAPTER 15	Central Business District Dynamics
	219		322
Land Values and Land Uses	219	Historical Evolution	322
Traditional Land Use Theory	225	Population and Work Force Trends	329
Criticism of Traditional Land Use Theory	228	Breakaways	330
Land Value Surface	228	Delimiting the CBD	333
Population Density	229	Retail Change	338
Descriptive Models of Urban Structure	231	Office Function	342
Toward a Typology of Urban Land Use	236	Hotel Market	346
An Exploitive Model of Urban Structure	237	Convention and Business Market	348
Third World Structure	238	Zoning	350
Summary and Conclusion	240	Downtown Redevelopment	352
CHAPTER 12	Housing and Neighborhoods	Historic Preservation	354
	242	The Pros and Cons of a Strong Downtown	356
Population and Housing Dynamics	242	Summary and Conclusion	359
The Neighborhood	247		

CHAPTER 16	Metropolitan Retail Structure	361
	Historical Roots	361
	Metropolitan Retail Landscape	364
	Shopping Center Evolution	369
	Shopping Center Hierarchies	375
	Trade Area Analysis	387
	Changing Consumer Demand and Spatial Preferences	390
	Summary and Conclusion	393
CHAPTER 17	The Office Function	395
	Changing Location Policy	395
	Metropolitan Office Growth	400
	Growth of Service Sector	401
	Corporate Decentralization	403
	Market Segmentation	405
	Suburban Office Shares	407
	Office Parks	408
	Urban Cores	411
	Theoretical Considerations	414
	Summary and Conclusion	420

CHAPTER 18	Intrametropolitan Industrial and Wholesale Space	422
	Locational Sifting	422
	Historical Evolution of Industrial Patterns	423
	Aging Industrial Core	426
	Industrial Park Alternatives	429
	Location Trends	436
	Wholesaling and Warehousing Operations	440
	Summary and Conclusion	443
CHAPTER 19	Planning, Regulation and the Future	445
	Urban Planning	445
	Urban Design	446
	The Role of Government	456
	Political Fragmentation	457
	The Planning Process	461
	Land Use Regulation	465
	Growth Management	468
	Summary and Conclusion	469
