About the authors	vii
Introduction	1
Part I Foundations: what methodology is and does	7
1 Inference and warrant in designing research	9
2 Methodology and social science knowledge	25
3 Testing, confirming and falsifying	38
4 Perspectives on findings from social research	49
Part II Designs: the main types of research design	67
5 Types of research design	69
6 Variable-oriented research designs	84
7 Case-based research designs	102
8 Comparative and case-oriented research designs	117
9 Concept formation	129
Part III Achievements: what research makes inferences to	153
10 Why ideas about explanation matter for methodology	155
11 Basic forms of explanation	166
12 Mechanisms, contexts and trajectories	180
13 Warranting explanations	200
14 Between-case and within-case strategies	212
15 Interpretation	227
16 Warranting interpretations	247
Part IV Synthesis: combinations and trade-offs	267
17 Combining research designs	269
18 Trade-offs in research design	285
Glossary	299
References	310
Index	320
