List of Figures..... 7

List of Tables 9

1. Summary 10

Zusammenfassung..... 11

2. Introduction..... 13

 2.1 Overview of Wnt signaling 13

 2.2 Wnts and Frizzled receptors 16

 2.3 Canonical and Non-canonical Wnt signaling..... 16

 2.4 Regulation of Wnt/ β -Catenin signaling 18

 2.5 The Wnt co-receptor LRP5/6: physiological relevance 19

 2.6 Structural features of LRP5/6..... 20

 2.7 LRP6 regulation on Wnt signaling..... 23

 2.8 LRP6 and Wnt signaling downstream of receptor activation 30

 2.9 Src family kinase in development and disease 32

 2.10 Src and Wnt/ β -Catenin Signaling 35

3. Aim of the study 38

4. Results 40

 4.1. LRP6 harbors evolutionarily conserved Tyrosine residues..... 40

 4.2 A cDNA based expression screen identified Src as an LRP6 Tyrosine kinase
 40

 4.3 Src family kinases phosphorylate LRP6 in a kinase dependent manner 42

 4.4 Tyrosine phosphorylation inhibits LRP6 activity and Wnt signaling 44

 4.5 Src inhibits LRP6 signaling *in vivo*..... 48

 4.6 Src interacts with LRP6. 50

 4.7 Src phosphorylates multiple LRP6Tyrosine residues. 51

 4.8 Wnt signaling induces LRP6 Tyrosine phosphorylation. 57

 4.9 LRP6 PPPSP motifs priming Tyrosine phosphorylation..... 59

 4.10 Src reduces LRP6 plasma membrane abundance..... 63

 4.11 Src promotes LRP6 turn over. 66

5. Discussion..... 69

5.1 LRP6 Tyrosine phosphorylation	70
5.2 Tyrosine phosphorylation inhibits LRP6 activity.	73
5.3 Regulation of Src mediated LRP6 phosphorylation.	75
5.4 Src reduces LRP6 membrane abundance.	76
5.5 Src and LRP6 half-life.....	77
5.6 Multiple cross talks between Src and Wnt signaling.....	77
5.7 <i>In vivo</i> significance of Src mediated LRP6 phosphorylation.....	78
6. Materials and methods.....	80
6.1 Cell lines and culture conditions.....	80
6.2 Transfections.....	81
6.3 Luciferase assay and Western blot.....	84
6.4 Genome-wide cDNA expression Screening for LRP6 modifiers.	86
6.5 Immunoprecipitation.	86
6.6 <i>In vitro</i> kinase assay.	87
6.6 Membrane fractionation.....	87
6.7 Cell surface protein biotinylation.....	87
6.8 Cycloheximide(CHX)-chase Assay for LRP6 half-life study.....	88
6.9 Indirect Immunofluorescence staining and Microscopy.	89
6.10 General molecular biology methods.	90
6.11 Site-Directed Mutagenesis.....	90
6.12 Real-Time PCR	93
6.13 Zebrafish manipulating, mRNA injection and <i>in situ</i> hybridization.....	93
6.14 Equipment.....	96
6.15 Antibodies	97
6.16 Other materials and reagents.....	98
Acknowledgements.....	99
Publications:.....	101
Reference:	102
