<i>List of illustrations</i>	xiii
<i>List of tables</i>	xix
1. Europe: the birthplace of mining?	1
The geological environment	2
The human environment	13
A history of research	16
The archaeology of prehistoric copper mines	27
Prehistoric copper mines in Europe	32
2. South-east Europe	37
The first metallurgy in Europe	38
Early copper mining in Serbia	39
Early copper mining in Bulgaria	47
Discussion	53
3. Eastern and central Mediterranean	55
Greece and the Aegean Islands	55
Cyprus: island of copper	58
Sardinia and Corsica	67
Italy	67
4. Iberia and the western Mediterranean	77
South-west Spain	79
Portugal	89
South-east and central-east Spain	90
Northern Spain	92
Conclusions	103
5. France and the western Alps	105
Early copper mines in the Languedoc	105
Other mines in southern France	115
The French Alps	117
Discussion	122
6. Northern Europe	125
Ireland	125
Britain	138
Scandinavia	155

7. Central and eastern Europe	161
The first metal workers	161
The Austrian mines	163
The German mountain ranges	185
Slovakia	186
Eurasia	187
8. Technology and work practices	195
The search for copper	195
The approach to mining	199
Methods of rock extraction	203
The mining environment	216
The treatment of copper ore	221
Ore to metal	229
Ancillary activities	233
Conclusions	242
9. Mining, community, and environment	245
Mining as community	247
Mining as belief	253
Mining and settlement	263
Mining and the environment	269
10. Mining, economy, and society	279
A mining economy	279
Copper resources and social power	290
Boom to bust	298
