Contents

<i>Editor's Statement</i>	<i>iii</i>
<i>List of Participants</i>	<i>vii</i>
Peter Berger	
Computers and Affectivity – Aspects of the Computer Worldviews of Mathematics and Computer Science Teachers	1
José Carrillo	
Relationships Between Teachers' Conceptions of Mathematics and of Mathematics Teaching and their Problem Solving Modes	9
Iris Kalesse	
Beliefs and Change of Beliefs of First Year Students A First Overview	19
Pekka Kupari	
Changes in Teachers' Beliefs of Mathematics Teaching and Learning	25
Marja-Liisa Malmivuori	
Self-Confidence as a Framework for Mathematics Learning	33
Christoph Oster	
Details about Coaching Mathematics as Seen by an Active Teacher Involved	39
Jukka Ottelin	
Views of Finnish Twelfth-Grades about Mathematics Teaching	45
Christiane Römer	
Discontinuities of the Mathematical Worldviews of Teachers During Probationary Period	53
Günter Törner	
›Basic Concepts of Mathematical Contents‹ and ›Mathematical Worldviews‹ (Mathematical Beliefs) as Didactical Conceptualizations	57
