

# Table of Contents

<b>Foreword .....</b>	<b>1</b>
PAUL E. GREEN	
<b>1. Conjoint Analysis as an Instrument of Market Research Practice.....</b>	<b>5</b>
ANDERS GUSTAFSSON, ANDREAS HERRMANN AND FRANK HUBER	
<b>2. Measurement of Price Effects with Conjoint Analysis: Separating Informational and Allocative Effects of Price .....</b>	<b>47</b>
VITHALA R. RAO AND HENRIK SATTLER	
<b>3. Developing Business Solutions from Conjoint Analysis .....</b>	<b>67</b>
SID SIMMONS AND MARK ESSER	
<b>4. Market Simulation Using a Probabilistic Ideal Vector Model for Conjoint Data.....</b>	<b>97</b>
DANIEL BAIER AND WOLFGANG GAUL	
<b>5. A Comparison of Conjoint Measurement with Self-Explicated Approaches .....</b>	<b>121</b>
HENRIK SATTLER AND SUSANNE HENSEL-BÖRNER	
<b>6. New Product Development in the Software Industry: The Role of Conjoint Analysis .....</b>	<b>135</b>
GIAN LUCA MARZOCCHI, SERGIO BRASINI AND MARCELLO RIMESSI	
<b>7. Non-geometric Plackett-Burman Designs in Conjoint Analysis.....</b>	<b>161</b>
OLA BLOMKVIST, FREDRIK EKDAHL AND ANDERS GUSTAFSSON	
<b>8. On the Influence of the Evaluation Methods in Conjoint Design - Some Empirical Results.....</b>	<b>183</b>
FRANK HUBER, ANDREAS HERRMANN AND ANDERS GUSTAFSSON	

<b>9. The Value of Extent-of-Preference Information in Choice-based Conjoint Analysis .....</b>	<b>209</b>
TERRY ELROD AND KEITH CHRZAN	
<b>10. Confounding of Effects in Rank-Based Conjoint-Analysis .....</b>	<b>225</b>
THORSTEN TEICHERT	
<b>11. A Multi-trait Multi-Method Validity Test of Partworth Estimates .....</b>	<b>251</b>
WAGNER KAMAKURA AND MUAMMER OZER	
<b>12. Adaptive Conjoint Analysis: Understanding the Methodology and Assessing Reliability and Validity .....</b>	<b>279</b>
ANDREAS HERRMANN, DIRK SCHMIDT-GALLAS AND FRANK HUBER	
<b>13. Conjoint Preference Elicitation Methods in the Broader Context of Random Utility Theory Preference Elicitation Methods .....</b>	<b>305</b>
JORDAN LOUVIERE, DAVID HENSHER AND JOFFRE SWAIT	
<b>14. Conjoint Choice Experiments: General Characteristics and Alternative Model Specifications .....</b>	<b>345</b>
RINUS HAAIJER AND MICHEL WEDEL	
<b>15. Using Conjoint Choice Experiments to Model Consumer Choices of Product Component Packages .....</b>	<b>387</b>
BENEDICT G.C. DELLAERT, ALOYS W.J. BORGERS, JORDAN J. LOUVIERE, AND HARRY J.P. TIMMERMANS	
<b>16. Latent Class Models for Conjoint Analysis .....</b>	<b>415</b>
VENKATRAM RAMASWAMY AND STEVEN H. COHEN	
<b>17. A Generalized Normative Segmentation Methodology Employing Conjoint Analysis .....</b>	<b>447</b>
WAYNE S. DESARBO, CHRISTIAN F. DESARBO	

---

<b>18. Dealing with Product Similarity in Conjoint Simulations .....</b>	<b>479</b>
JOEL HUBER, BRYAN ORME AND RICHARD MILLER	
<b>19. Evaluating Brand Value - A Conjoint Measurement Application for the Automotive Industry .....</b>	<b>497</b>
CLAUS KOLVENBACH, STEFANIE KRIEG UND CLAUDIO FELTEN	
<b>20. Continuous Conjoint Analysis .....</b>	<b>515</b>
DICK R. WITTINK AND SEV K. KEIL	
<b>Author Index .....</b>	<b>539</b>
