

# Table of Contents

<b>Foreword.....</b>	<b>V</b>
<b>Preface.....</b>	<b>VII</b>
<b>List of Contributors.....</b>	<b>XXI</b>
<b>Part I – Key Principles and Legal Framework for SEA .....</b>	<b>1</b>
<b>1 Key Principles of SEA .....</b>	<b>3</b>
<i>Elsa João</i>	
1.1 Introduction .....	3
1.2 Environmental Assessment of ‘Strategic Actions’ .....	4
1.3 Tiering and the Link between SEA and Project EIA .....	4
1.4 Two Key Principles of SEA.....	7
1.5 The Ideal SEA Team .....	12
1.6 Conclusions and Recommendations .....	13
<b>2 Purpose and Background of the European SEA Directive .....</b>	<b>15</b>
<i>Christian Kläne and Eike Albrecht</i>	
2.1 Introduction .....	15
2.2 The SEA Directive and its European Context .....	15
2.3 Definition of SEA.....	22
2.4 History of the SEA Directive.....	22
2.5 Content, Objectives and Purpose of the SEA Directive.....	25
2.6 Outlook .....	27
2.7 Conclusions and Recommendations .....	28
<b>3 Legal Context of the SEA Directive – Links with other Legislation and Key Procedures.....</b>	<b>31</b>
<i>Eike Albrecht</i>	
3.1 Introduction .....	31
3.2 Competence of the Community .....	31
3.3 Relation to the Aarhus Convention.....	33
3.4 Relation to the Espoo Convention .....	34
3.5 Harmonisation of Environmental Assessment Procedures .....	34
3.6 Relation to other European Acts .....	35
3.7 Area of Application .....	39
3.8 Procedure of SEA .....	45
3.9 Consequences of Mistakes in the SEA Procedure .....	52
3.10 Conclusions and Recommendations .....	52

<b>4 Transposition of the SEA Directive into National Law – Challenges and Possibilities .....</b>	<b>57</b>
<i>Lothar Knopp and Eike Albrecht</i>	
4.1 Introduction .....	57
4.2 Connection to Member States' Laws.....	57
4.3 Transposition of the SEA Directive.....	58
4.4 Transposition into the National Legal System.....	63
4.5 Conclusions and Recommendations .....	66
<b>5 Some Legal Problems of Implementing the SEA Directive into Member States' Legal Systems.....</b>	<b>69</b>
<i>Jerzy Sommer</i>	
5.1 Introduction .....	69
5.2 Implementation Problems in Member States.....	69
5.3 Problems in the Implementation in Poland.....	73
5.4 Conclusions and Recommendations .....	78
<b>Part II – Current Status and National Strategies for the Implementation of SEA in the European Union .....</b>	<b>81</b>
<b>6 Current SEA Practice in England.....</b>	<b>83</b>
<i>Thomas B. Fischer</i>	
6.1 Introduction .....	83
6.2 Current SEA-Type Assessment Practice .....	84
6.3 Practice in Land Use Planning in England .....	86
6.4 Practice in Transport Planning.....	91
6.5 Conclusions and Recommendations .....	95
<b>7 Implementing SEA in Germany.....</b>	<b>99</b>
<i>Thomas Bunge</i>	
7.1 Introduction .....	99
7.2 Intended Amendments to the EIA Act.....	101
7.3 The Amendment to the Building Code of 24 June 2004.....	105
7.4 The Amendment to the Spatial Planning Act of 24 June 2004 .....	108
7.5 Links between the new SEA Legislation and Existing Assessment / Planning Tools .....	108
7.6 Methodology .....	109
7.7 Data Requirements .....	110
7.8 Support of the Implementation and Quality Control .....	111
7.9 Conclusions and Recommendations .....	114

---

<b>8 Implementing SEA in Italy – The Case of the Emilia Romagna</b>	
<b>Region .....</b>	<b>117</b>
<i>Paola Gazzola and Maristella Caramaschi</i>	
8.1 Introduction .....	117
8.2 Using the Emilia Romagna Region to Explore the Implementation Status of SEA in Italy .....	119
8.3 Context of Planning in Italy .....	119
8.4 Relationship between Strategic Planning and SEA .....	121
8.5 Planning in the Region of Emilia Romagna.....	122
8.6 VALSAT versus SEA Directive .....	128
8.7 Implementing the SEA Directive in the Emilia Romagna Region.....	129
8.8 A Look at the Bigger Picture: Implementing the SEA Directive in Italy .....	130
8.9 Conclusions and Recommendations: Considerations for the Region of Emilia Romagna and Italy as a whole.....	131
<b>9 First Experiences with implementing SEA Legislation in Flanders (Belgium) .....</b>	<b>137</b>
<i>Marc Van Dyck</i>	
9.1 Introduction .....	137
9.2 Development of a Flemish combined Legislation on EIA and SEA .....	138
9.3 Practice of SEA in Flanders.....	141
9.4 Common Points of Interest for Future Use of SEA in Flanders.....	144
9.5 Conclusions and Recommendations .....	147
<b>10 Implementing SEA in Austria .....</b>	<b>149</b>
<i>Ralf Aschermann</i>	
10.1 Introduction .....	149
10.2 Legislative Efforts to implement the SEA Directive .....	150
10.3 Case Studies.....	150
10.4 SEA of the Land use Plan of Weiz .....	152
10.5 Accompanying Measures.....	155
10.6 Conclusions and Recommendations .....	156
<b>11 Implementing SEA in Finland – Further Development of Existing Practice .....</b>	<b>159</b>
<i>Mikael Hildén and Pauliina Jalonen</i>	
11.1 Introduction .....	159
11.2 Scope of Application – the EIA Act and the SEA Directive .....	160
11.3 SEA in Practice.....	161
11.4 Discussion.....	169
11.5 Conclusions and Recommendations .....	172

<b>12 Problems of a Minimalist Implementation of SEA – The Case of Sweden .....</b>	<b>177</b>
<i>Lars Emmelin and Peggy Lerman</i>	
12.1 Introduction .....	177
12.2 Environmental Assessment in Sweden .....	178
12.3 The Legislation Implementing the SEA Directive.....	181
12.4 Understanding the Swedish Mode of Implementation.....	185
12.5 Conclusions and Recommendations .....	189
<b>13 National Strategy for the Implementation of SEA in the Czech Republic.....</b>	<b>193</b>
<i>Lucie Václavíková and Harald Jendriek</i>	
13.1 Introduction .....	193
13.2 Previous Situation Regarding SEA in the Czech Republic.....	193
13.3 Current Situation Regarding SEA in the Czech Republic .....	196
13.4 Ensuring the Quality of SEA .....	199
13.5 Conclusions and Recommendations .....	200
<b>14 Developments of SEA in Poland.....</b>	<b>201</b>
<i>Joanna Mąckowiak-Pandera and Beate Jessel</i>	
14.1 Introduction .....	201
14.2 Development of SEA.....	202
14.3 Compliance of the Polish Environmental Protection Law with the European SEA Directive.....	204
14.4 Administrative Structure and Procedure of SEA in Poland .....	206
14.5 Environmental Planning and SEA .....	209
14.6 Availability of Environmental Data in Poland.....	210
14.7 Examples of SEA in Poland .....	211
14.8 Methodological Problems and Quality of SEA .....	213
14.9 Conclusions and Recommendations .....	214
<b>15 Experiences with SEA in Latvia.....</b>	<b>217</b>
<i>Sandra Ruza</i>	
15.1 Introduction .....	217
15.2 Practical Experience Gained with Existing Assessment Instruments and its Legal Provisions .....	218
15.3 Review of Differences in Applying SEA in Latvia .....	219
15.4 Quality Assurance.....	222
15.5 Case Study – SEA for the Latvia Development Plan.....	223
15.6 Conclusions and Recommendations .....	224

---

<b>16 Implementing SEA in Estonia .....</b>	<b>227</b>
<i>Olavi Hiiemäe</i>	
16.1 Introduction .....	227
16.2 Project EIA and SEA in Estonia .....	228
16.3 Actors in the SEA Process in Estonia .....	229
16.4 SEA in Practice .....	230
16.5 The Quality Criteria of the SEA Document.....	233
16.6 Conclusions and Recommendations .....	234
<b>Part III – Experience of SEA in North America and Oceania .....</b>	<b>237</b>
<b>17 Improved Decision-Making through SEA – Expectations and Results in the United States.....</b>	<b>239</b>
<i>Jehan El-Jourbagy and Tyson Harty</i>	
17.1 Introduction .....	239
17.2 National Environmental Policy Act.....	239
17.3 NEPA Analysis: Procedural Process .....	242
17.4 Successes and Failures.....	246
17.5 Conclusions and Recommendations .....	249
<b>18 SEA in Canada.....</b>	<b>251</b>
<i>Norma Powell</i>	
18.1 Introduction .....	251
18.2 SEA Legislation and Principles .....	252
18.3 Roles and Responsibilities .....	255
18.4 Methodologies and Tools.....	256
18.5 Documentation and Reporting .....	261
18.6 Critical Analysis .....	261
18.7 Canadian SEA Case Study.....	264
18.8 Conclusions and Recommendations .....	267
<b>19 SEA of Plan Objectives and Policies to Promote Sustainability in New Zealand.....</b>	<b>269</b>
<i>Ali Memon</i>	
19.1 Introduction .....	269
19.2 Competing Rationales Underpinning Section 32.....	271
19.3 The Formative Period (1974-1984) .....	272
19.4 A New Era in Environmental Impact Assessment (1991-Present).....	275
19.5 Section 32 Methodological Procedure .....	279
19.6 Conclusions and Recommendations .....	285

<b>Part IV – Requirements of SEA in Developing and Fast Developing Countries .....</b>	<b>289</b>
<b>20 The Need for SEA in Kenya .....</b>	<b>291</b>
<i>Vincent Onyango and Saul Namango</i>	
20.1 Introduction .....	291
20.2 Kenya and its Formulation of Strategic Decisions .....	292
20.3 History of Environmental Assessment of Strategic Decisions in Kenya.....	293
20.4 SEA Elements in Kenya and Tools to Implement them .....	294
20.5 Institutional Framework for SEA Elements.....	297
20.6 Need and Justification for SEA in Kenya .....	298
20.7 How SEA will Supplement EIA and Physical Planning in Kenya.....	300
20.8 Conclusions and Recommendations .....	301
<b>21 SEA for Water Resource Management in Ghana .....</b>	<b>305</b>
<i>Eric Ofori</i>	
21.1 Introduction .....	305
21.2 Impacts of Water Resource Developments in Ghana .....	306
21.3 Environmental Assessment in Ghana .....	308
21.4 Applying SEA and EIA to Water Resource Management in Ghana.....	310
21.5 Benefits of SEA for Water Resource Management in Ghana.....	313
21.6 Conclusions and Recommendations .....	315
<b>22 SEA in Ukraine.....</b>	<b>321</b>
<i>Vyacheslav Afanasyev</i>	
22.1 Introduction .....	321
22.2 Historical Background of SEA in Ukraine .....	321
22.3 The Existing Conditions of SEA Application in Ukraine.....	322
22.4 Obstacles for SEA Application in Ukraine.....	326
22.5 Possible Levels of SEA Development in Ukraine .....	327
22.6 Conclusions and Recommendations .....	328
<b>23 Importance of SEA in China – The Case of the Three Gorges Dam Project.....</b>	<b>331</b>
<i>Cynthia Huang and Jennifer Yang</i>	
23.1 Introduction .....	331
23.2 Environmental Situation and Policies in China .....	331
23.3 The Case Study of the Three Gorges Project.....	336
23.4 The Three Gorges Project and SEA.....	341
23.5 Conclusions and Recommendations .....	344

---

<b>Part V – Methodologies for SEA and Public Participation.....</b>	<b>347</b>
<b>24 Tools for SEA.....</b>	<b>349</b>
<i>Riki Thérivel and Graham Wood</i>	
24.1 Introduction .....	349
24.2 What Makes a Good SEA Tool?.....	349
24.3 SEA Tools.....	350
24.4 Impact Matrices .....	354
24.5 Geographical Information Systems.....	356
24.6 Causal Effect Diagrams .....	361
24.7 Conclusions and Recommendations .....	362
<b>25 Methodological Approaches to SEA within the Decision-Making Process .....</b>	<b>365</b>
<i>Beate Jessel</i>	
25.1 Introduction .....	365
25.2 Procedural and Methodological Demands on SEA and EIA – a Comparison .....	366
25.3 Identifying Possible Alternatives for Waste Dumping-Ground Sites .....	372
25.4 Identification and Assessment of Possible Corridors and Alignments for New Roads.....	375
25.5 Landscape Planning as an Information Base for SEA .....	380
25.6 Conclusions and Recommendations .....	382
<b>26 Strategic Level Cumulative Impact Assessment.....</b>	<b>385</b>
<i>Riki Thérivel</i>	
26.1 Introduction .....	385
26.2 Definitions and Concepts.....	386
26.3 Principles of Cumulative Impact Assessment.....	388
26.4 Carrying out Cumulative Impact Assessment.....	388
26.5 Conclusions and Recommendations .....	394
<b>27 Handling Transboundary Cumulative Impacts in SEA.....</b>	<b>397</b>
<i>Tyson Harty, Daniel Potts, Donald Potts and Jehan El-Jourbagy</i>	
27.1 Introduction .....	397
27.2 Definition of Cumulative Effects.....	398
27.3 Cumulative Effects Analysis in the US .....	399
27.4 Transboundary Implications of Cumulative Effects .....	405
27.5 Conclusions and Recommendations .....	407

<b>28 Cultural Integrity as a Criterion of SEA.....</b>	<b>409</b>
<i>Engelberth Soto-Estrada, Rina Aguirre-Saldivar and Shafi Noor Islam</i>	
28.1 Introduction .....	409
28.2 The Impact on Cultural Integrity .....	410
28.3 Consideration of Cultural Elements within SEA .....	411
28.4 The Concept of Culture .....	412
28.5 The Cultural Impact Assessment .....	416
28.6 Cultural Impact Assessment Procedure .....	417
28.7 Conclusions and Recommendations .....	419
<b>29 Requirements and Methods for Public Participation in SEA.....</b>	<b>421</b>
<i>Stefan Heiland</i>	
29.1 Introduction .....	421
29.2 Opportunities and Obstacles of Public Participation in SEA.....	422
29.3 What Does “Public” Mean?.....	423
29.4 What Does Participation Mean? .....	424
29.5 Methods of Public Participation within SEA – Possibilities and Experiences.....	427
29.6 Conclusions and Recommendations .....	430
<b>30 Public Participation for SEA in a Transboundary Context .....</b>	<b>433</b>
<i>Harry Meyer-Steinbrenner</i>	
30.1 Introduction .....	433
30.2 Public Participation in the SEA Directive .....	434
30.3 Methodological Aspects .....	435
30.4 Public Participation for the SEA in a Transboundary Context .....	436
30.5 Pilot Project .....	436
30.6 Conclusions and Recommendations .....	440
<b>31 Developing Quantitative SEA Indicators Using a Thermodynamic Approach.....</b>	<b>443</b>
<i>Jo Dewulf and Herman Van Langenhove</i>	
31.1 Introduction .....	443
31.2 Sustainability and Technology .....	444
31.3 Thermodynamics – its Basic Laws and the Exergy Concept.....	447
31.4 Quantitative Information for the SEA of Technology from the Thermodynamic Approach .....	449
31.5 Conclusions and Recommendations .....	456
<b>32 A Structural and Functional Strategy Analysis for SEA .....</b>	<b>459</b>
<i>Anastássios Perdicoúlis</i>	
32.1 Introduction .....	459
32.2 Background and Definitions .....	460

---

32.3 The Method of Strategy Analysis .....	462
32.4 Contribution of the Strategy Analysis.....	466
32.5 Conclusions and Recommendations .....	468
<b>Part VI – SEA for Abiotic and Biotic Resources .....</b>	<b>471</b>
<b>33 Soil Resources and SEA .....</b>	<b>473</b>
<i>Robert Mayer</i>	
33.1 Introduction .....	473
33.2 SEA Links with Environmental and Planning Legislation in Germany .....	475
33.3 Impacts and Effects – Adequate Methods for Soil Evaluation .....	478
33.4 Methods Relating Soil Properties with Functions.....	482
33.5 Strength and Weakness of Methodologies, Data Requirements .....	487
33.6 Synergies from the Use of a Common Environmental Data Base .....	489
33.7 Conclusions and Recommendations .....	491
<b>34 Towards the Implementation of SEA – Learning from EIA for Water Resources .....</b>	<b>495</b>
<i>Damian Lawler</i>	
34.1 Introduction .....	495
34.2 Water in the SEA and EIA Processes .....	496
34.3 Water and energy resources of Azerbaijan .....	498
34.4 Environmental Impacts Summary.....	499
34.5 Challenges for EIA Procedures in the FSU .....	499
34.6 Water Resource Data Appropriateness: General Limitations for EA .....	500
34.7 Specific Environmental Data Issues in the FSU .....	504
34.8 A Revised Water Impact Assessment (WIA) Procedure .....	504
34.9 SEA into the Future: Learning from Project EIA .....	505
34.10 Conclusions and Recommendations .....	508
<b>35 Links between the Water Framework Directive and SEA.....</b>	<b>513</b>
<i>Natalia Gullón</i>	
35.1 Introduction .....	513
35.2 From a “Hydrological Policy” to a Sustainable “Water Policy”.....	513
35.3 Strengths of SEA in the Water Sector.....	514
35.4 Weaknesses of SEA in the Water Sector .....	516
35.5 SEA Directive and the Water Framework Directive.....	517
35.6 Conclusions and Recommendations .....	521

<b>36 Assessing Biodiversity in SEA .....</b>	<b>523</b>
<i>Udo Bröring and Gerhard Wieglob</i>	
36.1 Introduction .....	523
36.2 Definition of Biodiversity .....	524
36.3 Measurability of Biodiversity in Theory and Practice .....	525
36.4 The Value of Biodiversity .....	528
36.5 Conclusions and Recommendations .....	533
<b>37 Biodiversity Programmes on Global, European and National Levels Related to SEA .....</b>	<b>539</b>
<i>Gerhard Wieglob and Udo Bröring</i>	
37.1 Introduction .....	539
37.2 Determinants or Driving Forces of Biodiversity .....	540
37.3 Biodiversity in SEA.....	541
37.4 Available Data for Biodiversity Assessment .....	546
37.5 Decision-Aid in Biodiversity Protection.....	547
37.6 A Hypothetical Example .....	548
37.7 Conclusions and Recommendations .....	550
<b>Part VII – Implementing SEA in Spatial and Sector Planning .....</b>	<b>555</b>
<b>38 Co-ordination of SEA and Landscape Planning.....</b>	<b>557</b>
<i>Frank Scholles and Christina von Haaren</i>	
38.1 Introduction .....	557
38.2 The Intention of the SEA Directive .....	558
38.3 The Situation in Germany.....	558
38.4 The Intersection of SEA and Landscape Planning .....	559
38.5 Conclusions and Recommendations – A Model for Procedural Integration and its Requirements .....	566
<b>39 Urban Planning and SEA .....</b>	<b>571</b>
<i>Markus Reinke</i>	
39.1 Introduction .....	571
39.2 Existing Liabilities due to the Federal Building Code.....	572
39.3 Relation of Landscape Planning and Urban Planning .....	573
39.4 Analysis of SEA Liabilities Exceeding Previous Requirements .....	575
39.5 Suggestions for Contents of SEA and the Assessment of Alternatives .....	578
39.6 The Question of Acceptability.....	582
39.7 Conclusions and Recommendations .....	583

---

<b>40 SEA in Transport Planning in Germany.....</b>	<b>585</b>
<i>Wolfgang Stein, Jürgen Gerlach and Paul Tomlinson</i>	
40.1 Introduction .....	585
40.2 Screening .....	586
40.3 Scoping .....	587
40.4 Identifying and Describing the Environmental Effects.....	590
40.5 Assessing Alternatives .....	592
40.6 Decision-Making Process .....	592
40.7 Monitoring .....	595
40.8 Conclusions and Recommendations .....	595
<b>41 SEA for Agricultural Programmes in the EU.....</b>	<b>599</b>
<i>Michael Schmidt, Harry Storch and Hendrike Helbron</i>	
41.1 Introduction .....	599
41.2 EU Agricultural Policy 1992-2005 .....	600
41.3 Influence of CAP on Agricultural Land Use .....	602
41.4 SEA for Agricultural Plans and Programmes .....	605
41.5 Suitability of the German Preliminary Agrarian Structure Planning (gAEP) for the implementation of SEA.....	608
41.6 Conclusions and Recommendations .....	614
<b>42 SEA of Waste Management Plans – An Austrian Case Study.....</b>	<b>621</b>
<i>Kerstin Arbter</i>	
42.1 Introduction .....	621
42.2 Fields of Application .....	621
42.3 The SEA for the Viennese Waste Management Plan.....	622
42.4 Methodologies and Data .....	623
42.5 Process Design and Public Participation.....	625
42.6 Conclusions and Recommendations .....	628
<b>43 Mining Industry and SEA – An Example in Turkey.....</b>	<b>631</b>
<i>Evren Yaylaci</i>	
43.1 Introduction .....	631
43.2 SEA and the Mining Industry .....	632
43.3 Challenges of SEA in Developing Countries.....	640
43.4 Conclusions and Recommendations .....	642
<b>Part VIII – Conclusions .....</b>	<b>647</b>
<b>44 Capacity-Building and SEA.....</b>	<b>649</b>
<i>Maria do Rosário Partidário</i>	
44.1 Introduction .....	649
44.2 Meaning of Capacity-Building for SEA .....	650

44.3	Current Key Priorities for SEA as a Strategic Impact Assessment Approach.....	653
44.4	What are the Needs and the Key Drivers in SEA Capacity-Building? .....	655
44.5	Training for SEA Capacity-Building.....	659
44.6	Conclusions and Recommendations .....	661
<b>45</b>	<b>A Critique of SEA from the Point of View of the German Industry .....</b>	<b>665</b>
	<i>Jürgen Ertel</i>	
45.1	Introduction .....	665
45.2	The Role of Industry in the Legislatorial Process.....	666
45.3	The Priority Level of SEA for the Industry .....	666
45.4	Involvement of the Industry in the Legislative Process.....	668
45.5	Conclusions and Recommendations .....	671
<b>46</b>	<b>Best Practice Use of SEA – Industry, Energy and Sustainable Development.....</b>	<b>673</b>
	<i>Ross Marshall and Thomas B. Fischer</i>	
46.1	Introduction .....	673
46.2	Institutional Links Between SEA and Industry .....	674
46.3	SEA Application in Industry Planning .....	675
46.4	SEA – A Strategic Decision-Making Framework for Businesses.....	677
46.5	Electricity Provision and the UK Transmission Industry .....	678
46.6	The Perceived Benefits of SEA to ScottishPower .....	680
46.7	The Mid-Wales Case Study – ScottishPower’s First Steps to SEA implementation .....	680
46.8	Applying the Seven Phases of Regional Transmission Network SEA.....	685
46.9	Conclusions and Recommendations .....	687
<b>47</b>	<b>SEA Outlook – Future Challenges and Possibilities.....</b>	<b>691</b>
	<i>Elsa João</i>	
47.1	Introduction .....	691
47.2	SEA Barrier 1: Bland Alternatives .....	691
47.3	SEA Barrier 2: Weak Public Participation .....	693
47.4	SEA Barrier 3: Lack of the ‘Right Data’ .....	694
47.5	SEA Barrier 4: Poor Procedures and Methodology .....	697
47.6	Conclusions and Recommendations .....	698
<b>Appendix 1 – The Full Text of the SEA Directive .....</b>		<b>701</b>
<b>Appendix 2 – Consolidated List of Legislation .....</b>		<b>715</b>
<b>Subject Index .....</b>		<b>733</b>
