

Contents

List of contributors	vii
List of abbreviations	xi
1 Introduction <i>G. L. ADA</i>	1
2 Recognition of antigen by T cells <i>G. L. ADA and A. MÜLLBACHER</i>	3
3 Suppression mechanism <i>T. TADA</i>	17
4 Excessive number of L3T4 ⁺ parasite-specific T lymphocytes capable of mediating specific delayed-type hypersensitivity in lymphoid tissues of genetically susceptible (BALB/c) mice infected with <i>Leishmania major</i> <i>J. A. LOUIS, R. TITUS, G. MARCHAL, G. MILON, and J. C. CEROTTINI</i>	26
5 IgA synthesis and stimulation <i>J. BIENENSTOCK</i>	39
6 The role of lymphokines in T-cell activation and effector functions <i>S. J. PROWSE</i>	49
7 Cellular and molecular aspects of the genetic control of the T-cell response to a defined protein epitope <i>E. BENJAMINI, B. C. LANGTON, A. M. WAN, M. L. ANDRIA and C. Y. LEUNG</i>	60
8 Locating immunogenic sites on viral proteins <i>F. BROWN</i>	76
9 Anti-idiotypic vaccines <i>P. H. LAMBERT</i>	88
10 Mutual conformational adjustments of ligand and protein upon binding <i>A. B. EDMUNDSON, K. R. ELY, J. N. HERRON, A. L. GIBSON, and X. M. HE</i>	96

11	Membrane proteins as micelles or iscoms in vaccination experiments <i>B. MOREIN</i>	118
12	Directional T to B help in the immune response of conformational determinants in a multimeric protein <i>F. CELADA, ANNALISA KUNKL, DANIELA FENOGLIO, A. LANZAVECCHIA, and F. MANCA</i>	122
13	An infertility vaccine <i>V. C. STEVENS</i>	131
14	Role and potentiation of different classes of antigen-presenting cells: the role of activation of B cells in antigen presentation <i>H. M. GREY, J. KRIEGER, and R. CHESNUT</i>	155
15	Myelopeptides—regulatory bone marrow mediators <i>AUGUSTA A. MIKHAILOVA</i>	167
16	Mineral gel adjuvants: why has it taken so long to find an alternative? <i>R. BOMFORD</i>	176
17	Muramyl dipeptides and analogues <i>ARLETTE ADAM and E. LEDERER</i>	184
18	Continuous and pulsed delivery of bioactive materials using composite systems based on inorganic glasses <i>C. F. DRAKE</i>	204
19	Discussion—peptide-based vaccines	215
	Index	221

Note

This book contains the views and statements of an international group of scientists meeting under the auspices of the World Health Organization.

Authors alone are responsible for views expressed in signed papers.
