Contents

Preface	xiii
----------------------	------

I. Introduction

<i>A. E. Levin</i> , The Otto Schmidt School and the Development of Planetary Cosmogony in the USSR	3
<i>S. G. Brush</i> , Planetary Cosmogony in the West and Safronov's Theory	19

II. Selected Writings of Otto Schmidt, 1925–54

1925. On the stability of planetary motions (translated from unpublished notes, <i>Izbrannye Trudy</i> , p. 181)	41
1942. Origin of the Planetary System (translated from unpublished notes, <i>Izbrannye Trudy</i> , pp. 183–4)	42
1944. A Meteoric Theory of the Origin of the Earth and Planets [C. R. Acad. Sci. USSR 45 , 229 (1944)]	44
1945. On the Origin of Comets (abstract) [C. R. Acad. Sci. USSR 49 , 404 (1945)]	47
1946. The Cosmogonic Significance of the Position of the Ecliptic Plane in the Galaxy [C. R. Acad. Sci. USSR 52 , 581 (1946)]	48
1946. On The Law of Planetary Distances [C. R. Acad. Sci. USSR 52 , 667 (1946)]	52
1946. On the Origin of Sun's Rotation [C. R. Acad. Sci. USSR 54 , 15 (1946)]	56
1947. On the Possibility of a Capture in Celestial Mechanics [translated from Dokl. Akad. Nauk SSSR 58 , 213 (1947)]	59
1951. The Problem of the Origin of the Earth and Planets [translated from Vopr. Filos. 1951 (4), 120]	62
1952. New Achievements in the Science of the Origin of the Earth [translated from Bol'shevik 1952 (5), 23]	72
1953. On the Origin of the Earth and Planets (Reply to Readers' Letters) [translated from Vopr. Filos. 1953 (5), 267]	79
1954. On the Origin of the Asteroids [translated from Dokl. Akad. Nauk SSSR 96 , 449 (1954)]	83
1954. On the Origin of Comets (translated from unpublished notes, <i>Izbrannye Trudy</i> , pp. 204–7)	85

III. The Protoplanetary Cloud: General Theories of Planet Formation

1950. <i>L. E. Gurevich and A. I. Lebedinskii</i> , The Formation of the Planets [translated from Izv. Akad. Nauk SSSR Ser. Fiz. 14 , 765 (1950)]	89
--	----

1953.	<i>B. Yu. Levin</i> , Cosmogony of the Planetary System and the Evolution of the Sun [translated from Dokl. Akad. Nauk SSSR 91 , 471 (1953)]	111
1957.	<i>V. S. Safronov and Ye. L. Ruskol</i> , The Hypothesis of Turbulence in the Protoplanetary Cloud (<i>Problems of Cosmogony</i> , Vol. V, pp. 16–38).	114
1958.	<i>Ye. L. Ruskol</i> , The Formation of a Protoplanet (<i>Problems of Cosmogony</i> , Vol. VII, pp. 5–13)	125
1958.	<i>V. S. Safronov</i> , On the Turbulence in the Protoplanetary Cloud [Rev. Mod. Phys. 30 , 1023 (1958)].	128
1959.	<i>B. Yu. Levin</i> , The Development of Planetary Cosmogony [translated from <i>Priroda</i> (Moscow) 1959 (10), 19]	130
1960.	<i>V. S. Safronov</i> , The Formation of Protoplanetary Dust Clouds (<i>Problems of Cosmogony</i> , Vol. VII, pp. 120–145).	136
1962.	<i>V. S. Safronov</i> , On the Temperature of the Dust Component of the Protoplanetary Cloud [Sov. Astron. AJ 6 , 217 (1962)].	145
1962.	<i>V. S. Safronov</i> , On the Velocity Dispersion in Rotating Systems of Gravitating Bodies with Inelastic Collisions (abstract) [translated from Vopr. Kosmog. 8 , 168 (1962)]	154
1963.	<i>B. Yu. Levin</i> , Comparative Analysis of the Internal Constitution and Development of Planets (abstract) [Mem. R. Soc. Sci. Liege 5 , 7, 39 (1963)].	154
1964.	<i>V. S. Safronov</i> , On the Gravitational Instability and Further Development of Perturbations (abstract) [Vopr. Kosmog. 10 , 181 (1964)]	154
1966.	<i>V. S. Safronov</i> , The Protoplanetary Cloud and its Evolution [Sov. Astron. AJ 10 , 650 (1966)]	155
1971.	<i>E. V. Zvyagina and V. S. Safronov</i> , Mass Distribution of Protoplanetary Bodies [Sov. Astron. AJ 15 , 810 (1971)]	164
1973.	<i>E. V. Zvyagina, G. V. Pechernikova, and V. S. Safronov</i> , Qualitative Solution of the Coagulation Equation with Allowance for Fragmentation [Sov. Astron. 17 , 793 (1973)]	172
1974.	<i>G. V. Pechernikova</i> , Mass Distribution of Protoplanetary Bodies. I. Initial Data for Numerical Solution [Sov. Astron. 18 , 778 (1974)]	180
1975.	<i>I. L. Genkin and V. S. Safronov</i> , Gravitational Instability in Rotating Systems with Radial Perturbations [Sov. Astron. 19 , 189 (1975)]	186
1976.	<i>G. V. Pechernikova, V. S. Safronov, and E. V. Zvyagina</i> , Mass Distribution of Protoplanetary Bodies. II. Numerical Solution of Generalized Coagulation Equation [Sov. Astron. 20 , 346 (1976)]	192
1976.	<i>I. N. Ziglina</i> , Effect on Eccentricity of a Planet's Orbit of its Encounters with Bodies of the Swarm [Sov. Astron. 20 , 730 (1976)]	197
1976.	<i>I. N. Ziglina and V. S. Safronov</i> , Averaging of the Orbital Eccentricities of Bodies Which are Accumulating into a Planet [Sov. Astron. 20 , 244 (1976)]	201
1978.	<i>B. Yu. Levin</i> , Some Problems Concerning the Accumulation of Planets [Sov. Astron. Lett. 4 , 54 (1978)]	206
1979.	<i>G. V. Pechernikova and A. V. Vityazev</i> , Mass of the Largest Bodies and the Velocity Dispersion During the Accumulation of the Planets [Sov. Astron. Lett. 5 , 31 (1979)]	210

1980.	<i>G. V. Pechernikova and A. L. Vityazev</i> , Evolution of Orbital Eccentricities of the Planets in the Process of Their Formation [Sov. Astron. 24 , 460 (1980)]	214
1981.	<i>V. S. Kessel'man</i> , The Settling of Grains in a Contracting Protoplanetary Cloud (abstract) [Sov. Astron. 25 , 33 (1981)]	222
1981.	<i>E. L. Ruskol</i> , Formation of Planets (abstract) (<i>The Solar System and Its Exploration</i> , pp. 107–13)	222
1982.	<i>V. S. Kessel'man</i> , Solid Particles at an Early Stage of Evolution of a Protoplanetary Cloud (abstract) [Sov. Astron. 26 , 489 (1982)]	222
1983.	<i>V. S. Safronov</i> , The Development of Soviet Planetary Cosmogony (translated from <i>O. Yu. Shmidt i sovetskaya Geofizika 80-kh Godov</i> , pp. 41–57)	223
1984.	<i>V. S. Safronov</i> , Current Problems of the Cosmogony of the Solar System (abstract) [Sov. Syst. Res. 18 , 208 (1984)]	230
1985.	<i>T. V. Ruzmaikina</i> , The Magnetic Field in the Collapsing Protosolar Nebula (abstract) [Sol. Syst. Res. 19 , 65 (1985)]	230
1985.	<i>A. V. Vitjazev and G. V. Pechernikova</i> , On the Evaporation [of] Interstellar Dust during the Preplanetary Disk Formation (abstract) [Lun. Plan. Sci. 16 , 885 (1985)]	231
1985.	<i>I. N. Ziglina</i> , Eccentricities and Inclinations of the Orbits of Growing Planets [Sov. Astron. 29 , 81 (1985)]	233
1986.	<i>T. V. Ruzmaikina and S. V. Maeva</i> , Process of Formation of the Protoplanetary Disk (abstract) [Sol. Syst. Res. 20 , 132 (1986)]	240
1986.	<i>T. V. Ruzmaikina and V. S. Safronov</i> , Premature Particles in the Solar Nebula (abstract) [Lun. Plan. Sci. 17 , 720 (1986)]	240
1986.	<i>I. N. Ziglina</i> , Changes in the Semimajor Axis of a Planet's Orbit in the Accumulation Process (abstract) [Sol. Syst. Res. 20 , 194 (1986)]	242
1987.	<i>A. B. Makalkin</i> , Thermal Conditions of the Protoplanetary Disk (abstract) [Sol. Syst. Res. 21 , 209 (1987)]	242
1987.	<i>V. S. Safronov</i> , Evolution of the Dusty Component of the Circumsolar Protoplanetary Disk (abstract) [Sol. Syst. Res. 21 , 135 (1987)]	242
1988.	<i>S. I. Ipatov</i> , Evolution Times for Disks of Planetesimals [Sov. Astron. 32 , 560 (1988)]	243
1988.	<i>E. M. Levin</i> , Properties of the Drop Model of a Protoplanetary Cloud (abstract) [Sov. Astron. 32 , 38 (1988)]	250
1988.	<i>G. V. Pechernikova and A. V. Vityazev</i> , Evolution of Dust Clusters in the Preplanetary Disk [Sov. Astron. 32 , 31 (1988)]	251
1989.	<i>A. D. Grechinskii</i> , Analytical Model of the Evolution of the Protoplanetary Accretion Disk (abstract) [Sol. Syst. Res. 23 , 77 (1989)]	259
1989.	<i>V. P. Myasnikov and V. I. Titarenko</i> , Evolution of Self-Gravitating Clumps of a Gas-Dust Nebula Participating in the Accumulation of Planetary Bodies (abstract) [Sol. Syst. Res. 23 , 7 (1989)]	259
1989.	<i>V. P. Myasnikov and V. I. Titarenko</i> , Evolution of a Self-Gravitating Gas-Dust Clump with Allowance for Radiative Transfer in a Diffusional Approximation (abstract) [Sol. Syst. Res. 23 , 126 (1989)]	260

1989. I. N. Ziglina, Kinetic Analysis of an Evolving Protoplanetary Disk: Gravitational Interactions [Sov. Astron. Lett. 15 , 285 (1989)]	261
1990. N. N. Gor'kavii, V. L. Polyachenko, and A. M. Fridman, Dissipative Instability of the Protoplanetary Disk and the Law of Planetary Distances (abstract) [Sov. Astron. Lett. 16 , 79 (1990)]	264
1990. A. D. Grechinskii, Dust Particle Transport in Protoplanetary Accretion Disks (abstract) [Sol. Syst. Res. 24 , 85 (1990)]	264
1991. V. S. Safronov, Kuiper Prize Lecture: Some Problems in the Formation of the Planets (abstract) [Icarus 94 , 260 (1991)]	264
1991. I. N. Ziglina and T. V. Ruzmaikina, Influx of Interstellar Material onto the Protoplanetary Disk (abstract) [Sol. Syst. Res. 25 , 40 (1991)]	265

IV. Rotation of Planets

1962. V. S. Safronov, On the Problem of Planet Rotation (abstract) [translated from Vopr. Kosmog. 8 , 150 (1962)]	269
1965. A. V. Artem'ev and V. V. Radzievskii, The Origin of the Axial Rotation of Planets [Sov. Astron. AJ 9 , 96 (1965)]	270
1965. V. S. Safronov, Sizes of the Largest Bodies Falling onto the Planets During Their Formation [Sov. Astron. AJ 9 , 978 (1965)]	274
1969. A. V. Artem'ev, Planetary Rotation Induced by Elliptically Orbiting Particles (abstract) [Sol. Syst. Res. 3 , 15 (1969)]	279
1991. J. J. Lissauer and V. S. Safronov, The Random Component of Planetary Rotation (abstract) [Icarus 93 , 288 (1991)]	279

V. Formation of the Earth and Other Terrestrial Planets

1958. V. S. Safronov, On the Growth of Terrestrial Planets (abstract) [translated from Vopr. Kosmog. 6 , 63 (1958)]	283
1958. V. S. Safronov, Accumulation of Planets of the Earth Group (<i>Problems of Cosmogony</i> , Vol. VII, pp. 63–70)	284
1972. B. Yu. Levin, The Origin of the Earth (abstract) [Izv. Acad. Sci. USSR Phys. Solid Earth 1972 (7), 425]	287
1974. V. S. Safronov, Time Scale for the Formation of the Earth and Planets and its Role in their Geochemical Evolution (abstract) (<i>Soviet-American Conference on Cosmochemistry of the Moon and Planets</i> , pp. 797–803)	287
1977. V. S. Safronov and S. V. Kozlovskaya, Heating of the Earth by Impact of Accreted Bodies (abstract) [Izv. Acad. Sci. USSR, Phys. Solid Earth 13 , 677 (1977)]	288
1978. A. V. Vityazev, G. V. Pechernikova, and V. S. Safronov, Limiting Masses, Distances, and Times for the Accumulation of Planets of the Terrestrial Group [Sov. Astron. 22 , 60 (1978)]	289
1980. D. D. Kvasov, A. P. Gal'tseev, and A. S. Safrai, Influence of the Greenhouse Effect in Primordial Atmospheres on the Formation of the Earth and Venus (abstract) [Sol. Syst. Res. 14 , 55 (1980)]	293
1980. A. B. Makalkin, Possibility of Formation of an Originally Inhomogeneous Earth (abstract) [Phys. Earth Plan. Int. 22 , 302 (1980)]	293

1982. S. I. Ipatov, Numerical Investigations of the Terrestrial Planets' Accumulation (abstract) [Inst. Appl. Math. Acad. Sci. USSR Report No. 144].	294
1982. V. S. Safronov, State-of-the-Art for the Theory of the Origin of the Earth (abstract) [Izv. Acad. Sci. USSR Phys. Solid Earth 18 , 399 (1983)]	294
1982. A. V. Vityazev, The Fractionation of Matter in the Course of the Formation and Evolution of the Earth (abstract) [Izv. Acad. Sci. USSR Phys. Solid Earth 18 , 434 (1982)]	295
1985. A. V. Vityazev, Solar Wind and Noble Gases in Atmospheres of Mars and Earth (abstract) [Lun. Plan. Sci. 16 , 883 (1985)].	295
1986. V. S. Safronov and A. V. Vityazev, The Origin and Early Evolution of the Terrestrial Planets (abstract) (in <i>Chemistry and Physics of Terrestrial Planets</i> , edited by S. K. Saxena, pp. 1–29)	297
1987. S. I. Ipatov, Solid-Body Accumulation of Terrestrial Planets (abstract) [Sol. Syst. Res. 21 , 129 (1987)]	297
1987. G. V. Pechernikova and A. V. Vityazev, Erosion of Mercury Silicate Shell during its Accumulation (abstract) [Lun. Plan. Sci. 18 , 770 (1987)].	297
1987. A. V. Vityazev and G. V. Pechernikova, When [Was] the Gas ... Removed from the Zone of Terrestrial Planets? (abstract) [Lun. Plan. Sci. 18 , 1044 (1987)]	299
1988. A. V. Vityazev, G. V. Pechernikova, and V. S. Safronov, Formation of Mercury and Removal of its Silicate Shell (abstract) (in <i>Mercury</i> , edited by F. Vilas <i>et al.</i> , pp. 667–9)	300

VI. Origin of the Moon and Other Planetary Satellites

1960. E. L. Ruskol, The Origin of the Moon. I. Formation of a Swarm of Bodies Around the Earth [Sov. Astron. 4 , 656 (1960)]	303
1963. E. L. Ruskol, On The Origin of the Moon. II. The Growth of the Moon in the Circumterrestrial Swarm of Satellites [Sov. Astron. 7 , 221 (1963)]	315
1963. E. L. Ruskol, The Tidal Evolution of the Earth–Moon System (abstract) (Bull. Acad. Sci. Geophys. Ser. 1963 , 129).	322
1963. V. S. Safronov and E. L. Ruskol, History of the Lunar Atmosphere and the Possibility of Ice and Organic Compounds Existing on the Moon (abstract) [Vopr. Kosmog. 9 , 203 (1963)].	322
1966. B. Yu. Levin, The Structure of the Moon (abstract) [Sov. Astron. 10 , 479 (1966)] . .	322
1966. E. L. Ruskol, On the Past History of the Earth–Moon System (abstract) [Icarus 5 , 221 (1966)]	323
1966. E. L. Ruskol, The Tidal History and Origin of the Earth–Moon System [Sov. Astron. AJ 10 , 659 (1966)]	324
1971. E. L. Ruskol, The Origin of the Moon. III. Some Aspects of the Dynamics of the Circumterrestrial Swarm [Sov. Astron. 15 , 646 (1971)]	331
1971. E. L. Ruskol, Possible Differences in the Chemical Composition of the Earth and Moon, for a Moon formed in the Circumterrestrial Swarm [Sov. Astron. AJ 15 , 1061 (1971)]	340
1972. E. L. Ruskol, Formation of the Moon from a Cluster of Particles Encircling the Earth (abstract) [Izv. Acad. Sci. USSR Phys. Solid Earth 1972 , 483)	343

1972.	<i>E. L. Ruskol</i> , On the Initial Distance of the Moon Forming in the Circumterrestrial Swarm (abstract) (in <i>The Moon</i> , edited by S. K. Runcorn and H. C. Urey, pp. 402–4).	343
1972.	<i>E. L. Ruskol</i> , On the Possible Difference in the Bulk Chemical Composition of the Earth and Moon Forming in the Circumterrestrial Swarm (abstract) (in <i>The Moon</i> , edited by S. K. Runcorn and H. C. Urey, pp. 426–8).	343
1973.	<i>E. L. Ruskol</i> , On the Model of the Accumulation of the Moon compatible with the Data on the Composition and the Age of Lunar Rocks (abstract) [<i>The Moon</i> 6 , 190 (1973)]	344
1973.	<i>E. L. Ruskol</i> , Tidal Changes in the Orbital Inclinations of the Satellites of Uranus Relative to its Equatorial Plane (abstract) [<i>Sol. Syst. Res.</i> 7 , 131 (1973)]	344
1974.	<i>E. L. Ruskol</i> , The Origin of the Moon (abstract) (<i>Soviet–American Conference on Cosmochemistry of the Moon and Planets</i> , pp. 815–22).	345
1975.	<i>E. L. Ruskol</i> , <i>E. V. Nikolayeva</i> , and <i>A. S. Syzdykov</i> , Dynamical History of Coplanar Two-Satellite Systems (abstract) [<i>The Moon</i> 12 , 11 (1975)]	345
1977.	<i>E. L. Ruskol</i> and <i>V. S. Safronov</i> , On the Formation of Satellites near Giant Planets (abstract) [<i>Lun. Plan. Sci.</i> 8 , 820 (1977)]	346
1977.	<i>V. S. Safronov</i> and <i>E. L. Ruskol</i> , The Accumulation of Satellites [<i>Sov. Astron.</i> 21 , 211 (1977)]	347
1978.	<i>I. N. Ziglina</i> , Tidal Destruction of Bodies near Planets (abstract) [<i>Izv. Acad. Sci. USSR Phys. Solid Earth</i> 14 , 467 (1979)]	347
1979.	<i>E. L. Ruskol</i> , Thermal Effect of the Collision of Two Massive Bodies and the Initial Temperature in the Moon (abstract) [<i>Lun. Plan. Sci.</i> 10 , 1042 (1979)]	348
1982.	<i>E. L. Ruskol</i> , Origin of Planetary Satellites (abstract) [<i>Izv. Acad. Sci. USSR Phys. Solid Earth</i> 18 , 425 (1983)]	350
1984.	<i>G. V. Pechernikova</i> , <i>S. V. Maeva</i> , and <i>A. V. Vityazev</i> , Protosatellite Swarm Dynamics [<i>Sov. Astron. Lett.</i> 10 , 293 (1984)]	351
1990.	<i>B. M. Manzoni</i> , <i>I. L. Khrilev</i> , and <i>O. I. Yakovlev</i> , A Model for Differentiation During Expansion of a Vapor Cloud in a Gravitational Field (abstract) [<i>Geochem. Int.</i> 27 (9), (1990)]	356

VII. Formation of the Giant Planets

1958.	<i>A. I. Lebedinsky</i> , On the Hydrogen Content of the Major Planets (<i>Problems of Cosmogony</i> , Vol. VII, pp. 56–9).	359
1983.	<i>S. I. Ipatov</i> , Numerical Investigations of a Planar Model of Accumulation of Nuclei of Giant Planets (abstract) (Inst. Appl. Math. Acad. Sci. USSR Report No. 117)	361
1984.	<i>S. I. Ipatov</i> , Numerical Investigations of the Evolution of Spatial Rings of Gravitational Bodies Corresponding to the Feeding Zones of Giant Planets (abstract) (Inst. Appl. Math. Acad. Sci. USSR Report No. 1).	361
1989.	<i>S. I. Ipatov</i> , Planetesimal Migration during the last Stages of Accumulation of Giant Planets (abstract) [<i>Sol. Syst. Res.</i> 23 , 16 (1989)]	361
1989.	<i>S. I. Ipatov</i> , Evolution of the Orbital Eccentricities of Planetesimals during Formation of the Great Planets (abstract) [<i>Sol. Syst. Res.</i> 23 , 119 (1989)]	362
1989.	<i>V. N. Zharkov</i> and <i>A. V. Kozenko</i> , Formation Time of Jupiter [<i>Sov. Astron. Lett.</i> 15 , 322 (1989)]	363

1990. V. N. Zharkov and A. V. Kozenko, On the Role of Jupiter in the Formation of the Giant Planets [Sov. Astron. Lett. **16**, 73 (1990)] 366
1991. S. I. Ipatov, Evolution of Initially Highly Eccentric Orbits of the Growing Nuclei of the Giant Planets (abstract) [Sov. Astron. Lett. **17**, 113 (1991)] 368

VIII. Asteroids, Comets, and Meteorites

1961. E. L. Ruskol and V. S. Safronov, Origin of Rapidly Rotating Asteroids [Sov. Astron. AJ **5**, 203 (1961)] 371
1968. B. Yu. Levin, Origin of Meteorites and Planetary Cosmogony (abstract) (in *Meteorite Research*, edited by P. M. Millman, p. 16). 374
1982. B. Yu. Levin, Asteroids, Comets, Meteor Matter—Their Place and Role in the Cosmogony of the Solar System (abstract) [Izv. Acad. Sci. USSR Phys. Solid Earth **18**, 414 (1982)] 375
1986. M. N. Izakov, Formation of Solid Materials in the Preplanetary Nebula and the Composition of Chondrites (abstract) [Sol. Syst. Res. **20**, 22 (1986)] 375
1987. V. S. Safronov, On the Origin of Comets (abstract) (in *The Evolution of the Small Bodies of the Solar System*, edited by M. Fulchignoni and L. Kresak, pp. 217–26) 376
1988. L. K. Levskiy and Ye. R. Drubetskoy, On the Origin of SNC Meteorites (abstract) [translated from *Meteoritika* **47**, 134 (1988)]. 376
1989. O. I. Bel'kovich and G. O. Ryabova, Formation of the Geminid Meteor Stream with the Disintegration of a Comet Nucleus (abstract) [Sol. Syst. Res. **23**, 98 (1989)]. . . 377
1989. A. S. Guliev and A. S. Dadashov, Transplutonian Comet Families (abstract) [Sol. Syst. Res. **23**, 57 (1989)]. 377
1989. A. K. Lavrukhina, Origin of Chondrules (abstract) [Geochem. Int. **27** (5), 26 (1990)]. 377
1990. A. M. Kazantsev and L. M. Sherbaum, Search for a Mechanism for the Origin of Clearly Defined Hyperbolic Meteor Orbits (abstract) [Sol. Syst. Res. **24**, 47 (1990)]. 378
1990. E. L. Ruskol, Formation of Trojan Asteroids (abstract) [Sol. Syst. Res. **24**, 157 (1991)] 378
1990. V. S. Safronov, Problems of Origin of Asteroids and Comets (abstract) [Meteoritics **25**, 243 (1990)] 379
1990. V. S. Safronov and K. M. Guseinov, Possible Formation of Comets *in Situ* (abstract) [Sol. Syst. Res. **24**, 159 (1991)] 380
1991. G. V. Andreev, A. K. Terent'eva, and O. A. Bayuk, Transformation of the Orbits of Small Bodies by Close Encounters with the Terrestrial Planets (abstract) [Sol. Syst. Res. **25**, 129 (1991)] 380
1991. V. P. Tomanov, Statistical Test of the Hypothesis of Comet Ejection (abstract) [Sol. Syst. Res. **25**, 230 (1991)]. 380

IX. Other Planetary Systems

1981. T. V. Ruzmaikina, The Angular Momentum of a Protostar Engendering a Protoplanetary Disk [Sov. Astron. Lett. **7**, 104 (1981)]. 383

1982. <i>A. V. Vityazev and G. V. Pechernikova</i> , Model Protoplanetary Disks around F-G Stars [Sov. Astron. Lett. 8 , 201 (1982)].	387
1988. <i>K. M. Guseinov</i> , Clearing of Planetesimal Disks around T Tauri Stars (abstract) [Sol. Syst. Res. 22 , 200 (1988)].	392
1991. <i>A. V. Tutukov</i> , Formation of Planetary Systems During the Evolution of Close Binary Stars (abstract) [Sov. Astron. 35 , 415 (1991)]	392
