

Vicenç Torra · Yasuo Narukawa (Eds.)

Modeling Decisions for Artificial Intelligence

12th International Conference, MDAI 2015
Skövde, Sweden, September 21–23, 2015
Proceedings

Contents

Invited Paper

Classifying Large Graphs with Differential Privacy	3
<i>Fredrik D. Johansson, Otto Frost, Carl Retzner, and Devdatt Dubhashi</i>	

Aggregation Operators and Decision Making

Extremal Completions of Triangular Norms Known on a Subregion of the Unit Interval	21
<i>Andrea Mesiarová-Zemánková</i>	
The Notion of Pre-aggregation Function	33
<i>Giancarlo Lucca, José Antonio Sanz, Graçaliz Pereira Dimuro, Benjamin Bedregal, Radko Mesiar, Anna Kolesárová, and Humberto Bustince</i>	
Weighted Quasi-Arithmetic Mean on Two-Dimensional Regions and Their Applications.	42
<i>Yuji Yoshida</i>	
A Comparison of the GAI Model and the Choquet Integral w.r.t. a k -ary Capacity	54
<i>Christophe Labreuche and Michel Grabisch</i>	
Estimating Unknown Values in Reciprocal Intuitionistic Preference Relations via Asymmetric Fuzzy Preference Relations	66
<i>Francisco Chiclana, Raquel Ureña, Hamido Fujita, and Enrique Herrera-Viedma</i>	
Handling Risk Attitudes for Preference Learning and Intelligent Decision Support	78
<i>Camilo Franco, Jens Leth Hougaard, and Kurt Nielsen</i>	
Representation of Ordinal Preferences over Infinite Products	90
<i>Marta Cardin</i>	

Clustering and Similarity

Spherical k -Means++ Clustering	103
<i>Yasunori Endo and Sadaaki Miyamoto</i>	

On Possibilistic Clustering Methods Based on Shannon/Tsallis-Entropy for Spherical Data and Categorical Multivariate Data.	115
<i>Yuchi Kanzawa</i>	
A Unified Theory of Fuzzy <i>c</i> -Means Clustering Models with Improved Partition	129
<i>László Szilágyi</i>	
Data Mining and Data Privacy	
Effective MVU via Central Prototypes and Kernel Ridge Regression.	143
<i>Carlotta Orsenigo</i>	
Cooperative Multi-agent Learning in a Large Dynamic Environment	155
<i>Wiem Zemzem and Moncef Tagina</i>	
Optimized and Parallel Query Processing in Similarity-Based Databases	167
<i>Petr Krajča</i>	
An Evaluation of Edge Modification Techniques for Privacy-Preserving on Graphs	180
<i>Jordi Casas-Roma</i>	
Co-utile Collaborative Anonymization of Microdata	192
<i>Jordi Soria-Comas and Josep Domingo-Ferrer</i>	
Generalization-Based <i>k</i> -Anonymization	207
<i>Eva Armengol and Vicenç Torra</i>	
Logics	
The Complexity of 3-Valued Łukasiewicz Rules.	221
<i>Miquel Boffill, Felip Manyà, Amanda Vidal, and Mateu Villaret</i>	
Information Theory for Subjective Logic	230
<i>Tim Muller, Dongxia Wang, and Audun Jøsang</i>	
Author Index	243
