

Magnus Jonsson · Alexey Vinel
Boris Bellalta · Olav Tirkkonen (Eds.)

Multiple Access Communications

8th International Workshop, MACOM 2015
Helsinki, Finland, September 3–4, 2015
Proceedings

Contents

MAC I

Multi-objective and Financial Portfolio Optimization of Carrier-Sense Multiple Access Protocols with Cooperative Diversity	3
<i>Ramiro Samano-Robles and Atilio Gameiro</i>	
A Centralized Mechanism to Make Predictions Based on Data from Multiple WSNs	19
<i>Gabriel Martins Dias, Simon Oechsner, and Boris Bellalta</i>	
A Study of Energy Efficiency Techniques Using DRX for Handover Management in LTE-A Networks	33
<i>Tanu Goyal and Sakshi Kaushal</i>	

PHY

Sequential Incomplete Information Game in Relay Networks Based on Wireless Physical Layer Network Coding	47
<i>Tomas Hynek and Jan Sykora</i>	
Device-to-Device Data Storage with Regenerating Codes	57
<i>Joonas Pääkkönen, Camilla Hollanti, and Olav Tirkkonen</i>	
A Random Access Protocol Incorporating Multi-packet Reception, Retransmission Diversity and Successive Interference Cancellation	70
<i>Ramiro Samano-Robles, Desmond C. McLernon, and Mounir Ghogho</i>	

Information Theory

Distortion Avoidance While Streaming Public Safety Video in Smart Cities	89
<i>Evgeny Khorov, Andrey Gushchin, and Alexander Safonov</i>	
On the Channel Capacity of an Order Statistics-Based Single-User Reception in a Multiple Access System	101
<i>Dmitry Osipov</i>	
Fair Allocation of Throughput Under Harsh Operational Conditions	108
<i>Andrey Garnaeu, Shweta Sagari, and Wade Trappe</i>	

MAC II

Near-Optimal Resource Allocation in Cooperative Cellular Networks
Using Genetic Algorithms 123
Zihan Luo, Simon Armour, and Joe McGeehan

Optimal and Equilibrium Retrial Rates in Single-Server Multi-orbit
Retrial Systems. 135
Konstantin Avrachenkov, Evsey Morozov, and Ruslana Nekrasova

GOAT: A Tool for Planning Wireless Sensor Networks. 147
Sergio Barrachina, Toni Adame, Albert Bel, and Boris Bellalta

Author Index 159
