

Contents

Abbreviations.....	1
Summary.....	3
Zusammenfassung.....	4
1 Introduction.....	5
1.1 Ras proteins.....	5
1.2 RasGTPase-activating proteins (RasGAPs).....	6
1.2.1 Rasal1	9
1.2.2 Rasal2 and Rasal3.....	10
1.3 Gastric epithelium	11
1.4 Enteroendocrine system	13
1.4.1 Overview of the enteroendocrine system	13
1.4.2 Gastric enteroendocrine cells and acid secretion.....	14
2 Aim of the study.....	17
3 Materials	18
3.1 Chemicals and reagents	18
3.2 Buffers and solutions.....	20
3.3 Kits	24
3.4 Medium.....	24
3.5 Instruments	25
3.6 Antibodies	25
3.7 Bacterial strains.....	26
3.8 Enzymes.....	26
3.9 Primers	26
3.10 Plasmids.....	30
3.11 Mice	31
4 Methods.....	32
4.1 Molecular cloning and PCR.....	32
4.2 RNA extraction and Quantitative real-time PCR	34
4.3 Organoid culture.....	34
4.3.1 Intestinal organoid culture	34
4.3.2 Pyloric organoid culture	36
4.4 Fluorescence-activated cell sorting (FACS)	38

4.4.1 Single cell preparation	38
4.4.2 Immuno-staining and sorting	40
4.5 Protein purification and pull-down	40
4.6 Mass spectrometry	42
4.7 Southern blot	43
4.8 Generation of transgenic reporter mice and gene-deficient mice	43
4.8.1 Generation of transgenic reporter mice.....	43
4.8.1 Generation of gene deficient mice	45
4.9 Immunofluorescence staining	46
4.9.1 Immunofluorescence staining for tissue.....	46
4.9.1 Immunofluorescence staining for organoid.....	47
4.10 Histological analysis	47
4.10.1 X-Gal staining.....	47
4.10.2 H&E staining.....	48
4.11 Glucose tolerance test	49
4.12 Blood plasma preparation	50
4.13 Gastrin ELISA.....	50
4.14 MagPIX assay	50
4.15 Gastric acid collection and titration	51
4.16 PhenoMaster assay.....	51
4.17 Statistics.....	52
5 Results.....	53
5.1 Generation of genetically-modified mouse lines for Rasal1, Rasal2 and Rasal3 53	
5.1.1 Generation of transgenic reporter mouse lines for Rasal1, Rasal2 and Rasal3	53
5.1.2 Generation of Rasal1, Rasal2 and Rasal3 knockout mouse lines.....	59
5.2 Determination of expression patterns for Rasal1, Rasal2, and Rasal3.....	64
5.2.1 Expression analysis of Rasal1.....	65
5.2.4 Expression of Rasal2 and Rasal3	74
5.3 Analysis of the function of Rasal1 in enteroendocrine cells.....	78
5.3.1 Expression analysis of different cell type-specific markers in the gastric and intestinal epithelium of Rasal1-deficient mice	78
5.3.2 Gastric enteroendocrine cell numbers are increased in Rasal1-deficient mice	81
5.3.3 Rasal1 knockout mice have normal body weight and blood glucose levels..	82

5.3.4	Rasal1-deficient mice do not display abnormalities in glucose tolerance.....	83
5.3.5	Mice lacking Rasal1 exhibit normal metabolic functions	84
5.3.6	Plasma gastrin levels in Rasal1-deficient mice are elevated	85
5.3.7	Rasal1-deficient mice show an increase in gastric acid secretion.....	87
5.4	Identification of Cre lines for efficient recombination in enteroendocrine cells ..	88
5.4.1	Atoh1-Cre.....	89
5.4.2	Villin-Cre.....	90
5.4.3	Ngn3-Cre	91
5.5	Determination of Rasal1 expression in organoids of the stomach and small intestine.....	92
5.5.1	Rasal1 is expressed in gastric and intestinal organoids.....	92
5.5.2	Rasal1 is expressed in enteroendocrine cells of gastric organoids.....	93
5.6	Analysis of gastric organoids from Rasal1-deficient mice	94
5.6.1	Normal morphology of Rasal1-deficient gastric organoids	94
5.6.2	Rasal1-deficient pyloric organoids display increased mRNA expression of enteroendocrine marker genes	95
5.7	Identification of interaction partners of Rasal proteins.....	96
5.7.1	Expression of Rasal proteins and domains	97
5.7.1	Mass spectrometry for identification of interaction partners of Rasal1	100
6	Discussion	102
6.1	Expression analysis for Rasal genes.....	102
6.2	The role of Rasal1 in epithelial proliferation and differentiation.....	105
6.3	Cell type-specific knockout of Rasal1	107
6.4	Analysis of gastro-intestinal organoids	109
6.5	Rasal1 and gastric acid secretion	111
6.6	Perspective on the investigation of molecular mechanisms by the use of gastric organoids	112
6.7	Role of Rasal1 in the intestine.....	112
6.8	Interaction partners of Rasal1, Rasal2, and Rasal3.....	114
7	References.....	115
