<i>Preface</i>	x
1 Introduction to Expectations	1
1.1 Introduction	1
1.2 Surveys of expectations	2
1.3 Literature on expectations surveys	7
1.4 Adaptive expectations mechanisms	11
1.5 Concept of rational expectations	18
1.6 Time-series modelling	20
2 The Theory of Rational Expectations	24
2.1 Introduction	24
2.2 Solution of rational expectations models	30
2.3 Incomplete current information	38
2.4 Rational expectations and stabilisation policy	40
2.5 Lucas critique of policy evaluation	44
2.6 Criticism of the rational expectations hypothesis	46
2.7 Conclusions	50
2.8 Appendix 1: illustration of Wold's decomposition theorem	51
2.9 Appendix 2: rationality of adaptive and regressive expectations	52
2.10 Appendix 3: further example of the Muthian and Lucas solution methods	53

2.11 Appendix 4: model with incomplete current information	55
2.12 Appendix 5: solution of equation (2.78)	60
2.13 Appendix 6: effects of a change in policy regime on time-series forecasts	62
2.14 Appendix 7: learning and the convergence to rational expectations	64
3 Survey Evidence on Expectations Formation	66
3.1 Test procedures	66
3.2 The Livingston series	74
3.3 Consumer's expectations data	77
3.4 Business expectations data	82
3.5 Econometric forecasts as expectations	87
3.6 Wage, interest rate and money supply expectations	89
3.7 Conclusions	92
4 The Efficient Markets Hypothesis	94
4.1 Econometric implications of expectations	94
4.2 Efficient markets hypothesis	98
4.3 Short-term rates of interest and expected inflation	99
4.4 Term structure of interest rates	106
4.5 Foreign exchange market	112
4.6 Conclusions	119
5 Other Single-equation Studies	120
5.1 Introduction	120
5.2 Expectations and the consumption function	120
5.3 The wage equation	130
5.4 Expected capital gains	139
5.5 Conclusions	141
6 Expectations in Econometric Models	143
6.1 Introduction	143
6.2 Models of the UK economy	143
6.3 Expectations in UK models	147
6.4 Conclusions on UK macroeconomic models	152
6.5 Expectations in other macroeconomic models	154
6.6 Conclusions	161

7	Aggregate Expectations Formation	163
7.1	Methods of combining forecasts	163
7.2	Empirical evidence	166
7.3	Combined forecasts as expectations	168
7.4	Aggregation of forecasts in asset markets	170
7.5	Implications of weighted public forecasts	171
7.6	Conclusions	172
8	Conclusions	174
